

# More About the Colonies

- The colonies existed until 1776 when the Declaration of Independence was signed, protesting against the taxes the people had to pay to Britain
- During colonial times, each had their own self-government, but only white men were permitted to vote for the governor they wanted to lead the colony
- By 1775 the population of the colonies was about 2.5 million, mostly British, but some were German or Dutch
- The thirteen original colonies each had their own identity and reasons for the settlers to come to the New World.

What many of them did have in common though, included freedom from the rule and taxation of Britain, the freedom of religion, and the opportunity to find a place they can call home and raise their families.
