Minutes	Content Outline	Master Teaching Notes
5	I. Case Study	Teaching Tips Have a student read the scenario. Tell the students that the case will be reviewed after the lecture.
5	II. Introduction A. Drugs are foreign substances put into the human body. B. Medications are drugs used for medical purposes. C. Medication administration is an important part of medical care provided by a paramedic. 1. You may have to use medications to correct or prevent life-threatening situations. 2. You may also use medications to stabilize or comfort a patient in distress.	
10	III. General Principles A. As a paramedic, you are responsible for correct and timely medication administration. 1. You must ensure that all emergency medications are in place and ready for use. 2. You can attain effective pharmacological therapy and eliminate medication errors by following the "six rights" of medication administration. a. Right person b. Right drug c. Right dose	Discussion Topics What are the legal and moral consequences of medication errors? Medication errors kill tens of thousands of people each year. How can we be sure that we don't allow that to happen? Points to Emphasize Explain to students the importance of following the six rights of medication administration each and every time a
