Drums In The Distance Joe Mulhall,2021-07-08 Mulhall watches the extreme right revival from the inside as an anti fascist infiltrator criss crossing the global networks of modern fascism but he brings a deep analytical focus By the end of it we understand one thing the threat of a second fascist era is real Paul Mason author of Postcapitalism An urgent missive from the global frontlines of the fight against fascism Nima Elbagir CNN Senior International Correspondent A terrifying and timely look at the spread of far right movements across the globe Joe Mulhall knows what it s like to stare fascism in the face For a decade often undercover at significant personal risk he has investigated hate groups He infiltrated a US white supremacist militia set up a fake Ku Klux Klan branch has been on countless street marches with violent far right groups across Europe and got inside some of the most important alt right meetings ever held Brazil India and the US are still in thrall to authoritarian populism and far right views have become steadily normalised in mainstream politics Mulhall s dramatic experiences on the front line of anti fascist activism coupled with his academic research clearly explain the roots of both elected and non elected far right movements across the globe Above all he concludes the far right should not be dehumanised they are normal people but with dangerous beliefs that can be defeated Joe has had a unique view of the far right over the past decade as it transformed from a marginal subculture into one of the defining political currents of our time He understands how these groups think and operate and is perfectly placed to guide readers through this disturbing but vital

Integration in Multicultural England Jörg Friedrichs, 2025-07-24 Positive relations between Muslims and non Muslims are important for the future in Britain and beyond By studying community relations this book takes an innovative approach that moves beyond mapping British Muslims or British Islam Instead J rg Friedrichs discusses the actual ways Muslims and non Muslims relate or fail to relate where it matters most namely in diverse inner cities Is Britain a multicultural country is it moving towards greater integration or is this a false dichotomy Given their unique everyday experience inner city residents prove to be experts when it comes to community relations To give them a voice and learn from their experience the book takes us on a tour of diverse English inner cities Reassuringly the grassroots perspective of residents is consistent with a vision of integration in multicultural England Residents are concerned not so much about hot button issues like extremism or terrorism Instead their minds are set on practical matters how to coexist peacefully in stressful urban environments and how to find love and raise families when norms diverge Caught between grievance and aspiration inner city residents from any background express disappointment at Muslim and non Muslim parents sending their children to different schools They also discuss whether governance should be community blind or community based and if Britain is ready for a Muslim Prime Minister In all of this Muslim and non Muslim residents acknowledge that we live in a multicultural society For most however it does not follow that we should adopt multiculturalism as an ideology Instead most people crave and support a move towards greater integration
