

Makers of Modern Strategy

from Machiavelli to the Nuclear Age

EDITED BY PETER PARET

Makers Of Modern Strategy From Machiavelli To The Nuclear Age

John D. Hosler, Daniel P. Franke

Makers Of Modern Strategy From Machiavelli To The Nuclear Age:

Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret, Gordon A. Craig, Felix Gilbert, 1986-10-30 War cannot be controlled in future without an understanding of its past These essays analyse war its strategic characteristics and its political and social functions over the past five centuries **Makers of modern strategy** Peter Paret, 1990

Makers of Modern Strategy Peter Paret, Gordon Alexander Craig, Felix Gilbert, 1986-01-01 War cannot be controlled in future without an understanding of its past These essays analyse war its strategic characteristics and its political and social functions over the past five centuries **Makers of Modern Strategy** Gordon Alexander Craig, Felix Gilbert, 1986 This text discusses Machiavelli Maurice of Nassau Gustavus Adolphus Raimondo Montecuccoli Vauban Frederick the Great Guibert Bulow Napoleon Jomini Clausewitz Adam Smith Alexander Hamilton Friedrich List Engels Marx Moltke Schlieffen Delbruck Bugeaud Gallieni Lyautey Alfred Thayer Mahan Liddell Hart De Gaulle and other military strategists [Studyguide for Makers of Modern Strategy from MacHiavelli to the Nuclear Age by , Peter Paret, Isbn 9780691027647](#) Cram101 Textbook Reviews, 2013-12 Never HIGHLIGHT a Book Again Includes all testable terms concepts persons places and events Cram101 Just the FACTS101 studyguides gives all of the outlines highlights and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanies 9780691027647 This item is printed on demand **An Army at War: Change in the Midst of Conflict (The Proceedings of the Combat Studies Institue**

[sic] 2005 Military History Symposium) , Parameters , 1991 The First Total War David A. Bell, 2014-06-03 A mesmerizing account that illuminates not just the Napoleonic wars but all of modern history It reads like a novel Lynn Hunt Eugen Weber Professor of modern European history UCLA The twentieth century is usually seen as the century of total war But as the historian David A Bell argues in this landmark work the phenomenon actually began much earlier in the era of muskets cannons and sailing ships in the age of Napoleon In a sweeping evocative narrative Bell takes us from campaigns of extermination in the blood soaked fields of western France to savage street fighting in ruined Spanish cities to central European battlefields where tens of thousands died in a single day Between 1792 and 1815 Europe plunged into an abyss of destruction It was during this time Bell argues that our modern attitudes toward war were born Ever since the dream of perpetual peace and the nightmare of total war have been bound tightly together in the Western world right down to the present day in which the hopes for an end to history after the cold war quickly gave way to renewed fears of full scale slaughter With a historian s keen insight and a journalist s flair for detail Bell exposes the surprising parallels between Napoleon s day and our own including the way that ambitious wars of liberation such as the one in Iraq can degenerate into a gruesome guerrilla conflict The result is a book that is as timely and important as it is unforgettable Thoughtful and original Bell has mapped what is a virtually new field of inquiry the culture of war Steven L Kaplan Goldwin Smith Professor of European history Cornell University **The Art of Insurgency** Donald W. Hamilton, 1998-01-26 In his analysis of

insurgency war Donald Hamilton first attempts to provide insight into a strategic concept he believes is little understood today and to explain its complicated relationship to American policy failures in Southeast Asia during the post 1945 era of containment The study develops a working model of insurgency explaining it as both a unique method and type of war making Significant findings include the inability of policymakers to perceive a potential insurgency in Vietnam as early as 1946 subsequent American involvement in not one but three Asian insurgencies during the 1950s and the ultimate failure of the U S military to meet the insurgency challenge in South Vietnam This inability to eliminate the insurgency led not only to the complete breakdown of the South Vietnamese government but was the primary reason why further U S military action after 1965 would prove ineffectual This historical narrative also follows the involvement of several key players including the personalities of Edward Lansdale Sir Robert Thompson Archimedes Patti and Vo Nguyen Giap who through their life experiences and writings provide a keen profundity into why insurgencies occur why they fail and why they succeed

Understanding Military Doctrine Harald Hoiback, 2013-07-18 This book puts military doctrine into a wider perspective drawing on military history philosophy and political science Military doctrines are institutional beliefs about what works in war given the trauma of 9 11 and the ensuing War on Terror serious divergences over what the message of the new military doctrine ought to be were expected around the world However such questions are often drowned in ferocious meta doctrinal disagreements What is a doctrine after all This book provides a theoretical understanding of such questions Divided into three parts the author investigates the historical roots of military doctrine and explores its growth and expansion until the present day and goes on to analyse the main characteristics of a military doctrine Using a multidisciplinary approach the book concludes that doctrine can be utilized in three key ways as a tool of command as a tool of change and as a tool of education This book will be of much interest to students of military studies civil military relations strategic studies and war studies as well as to students in professional military education

With a Sword in One Hand & Jomini in the Other

Carol Reardon, 2012 Looks at the military texts available at the time of the Civil War and argues that the limitations of 19th century military thought contributed to the length and human cost of the war

Grand Strategy in Theory and Practice

William C. Martel, 2015-01-12 This book explores fundamental questions about grand strategy as it has evolved across generations and countries It provides an overview of the ancient era of grand strategy and a detailed discussion of its philosophical military and economic foundations in the modern era The author investigates these aspects through the lenses of four approaches those of historians social scientists practitioners and military strategists The main goal is to provide contemporary policy makers and scholars with a historic and analytic framework in which to evaluate and conduct grand strategy By providing greater analytical clarity about grand strategy and describing its nature and its utility for the state this book presents a comprehensive theory on the practice of grand strategy in order to articulate the United States past present and future purpose and position on the world stage

Understanding Contemporary Strategy David J. Lonsdale, Thomas

M. Kane, 2019-11-20 This textbook provides a comprehensive introduction to modern strategy covering the context theory and practice of military strategy in all its different forms. Covering all the main issues in the field, the book explores the major themes through a combination of classical and modern strategic theory, history and current practice. It is split into three main sections. The first provides the context for contemporary strategy and includes discussions of the human, technological, intelligence, ethical and grand strategic dimensions. The second part explores the theory and practice of strategy in different geographical domains including land, sea, air, space and cyberspace. The final part engages with three of the most challenging forms of strategy in the contemporary era: nuclear weapons, terrorism and insurgency. This second edition brings the book up to date by including discussions of the rise and fall of the Islamic State of Iraq and Syria (ISIS), the emergence of robotics and artificial intelligence, major events in space and cyberspace and the growing profile of nuclear weapons. Each chapter presents the reader with a succinct summary of the topic, provides a challenging analysis of current issues and finishes with key points, questions for discussion and further reading. This book will be essential reading for upper level students of strategic studies, war studies, military history and international security. The Risk Society at War Mikkel Vedby Rasmussen, 2006-12-14 In the globalised world of the twenty first century, security policy in Western societies is driven by a wish to prevent future threats from becoming reality. Applying theories of risk society to the study of strategy, this book analyses the creation of a new approach to strategy. The author demonstrates that this approach creates new choices for policy makers and challenges well established truths within the study of security and strategy. He argues that since the seventeenth century, the concept of strategy has served to rationalise new technologies, doctrines and agents. By outlining the history of the concept of strategy in terms of rationality, Rasmussen presents a framework for studying strategy in a time of risk and uses this framework to analyse how new technologies of war, pre-emptive doctrines, globalisation and the rise of the terrorist approach to warfare can formulate a new theory of strategy. New Directions in Strategic Thinking 2.0 Russell W. Glenn, 2018-07-06 The Australian National University's Strategic Defence Studies Centre (SDSC) is Australia's premier university-based strategic studies think tank. Fifty years after the Centre was founded in 1966, SDSC celebrated its continued research, publications, teaching and government advisory role with a two-day conference entitled New Directions in Strategic Thinking 2.0. The event saw the podium graced by many of the world's premier thinkers in the strategic studies field. An evening between those tours to the lectern brought together academics, practitioners and other honoured guests at a commemorative dinner held beneath the widespread wings of the G for George bomber in the Australian War Memorial, an event that included SDSC's own Professor Desmond Ball AO making his last public appearance. Since SDSC's 25th anniversary, the world has seen the collapse of the Soviet Union and the end of the Cold War. Bipolarity gave way to the emergence of the United States as the world's sole superpower, a status many now see as under threat. Both the nature of the threats and identity of individual competitors has changed in the interim quarter century. Non-state actors are presenting

rising challenges to national governments Meanwhile a diminished Russia and far more wealthy China seek to reassert themselves Never before has the call for reasoned innovative security studies thinking been more pronounced Rarely has a group so able to offer that thought come together as was the case in July 2016 This book encapsulates the essence of this cutting edge thinking and is a must read for those concerned with emerging strategic challenges facing Australia and its security partners

A Worker's Way Of War: The Red Army's Doctrinal Debate, 1918-1924 Major Matthew M. Hurley, 2015-11-06 Following the October 1917 Revolution the leaders of the fledgling Red Army embarked on a debate concerning the nature form and function of military doctrine A group known as the military communists including M V Frunze M N Tukhachevsky K Voroshilov and S I Gusev sought to formulate a proletarian military doctrine based on the lessons of the Russian Civil War 1918-21 and purged of supposedly outmoded bourgeois military thought Their doctrine they claimed would be based overwhelmingly on maneuver and the offensive which they felt best represented the active nature of the working class Against them stood Commissar for War Leon Trotsky supported by ex Tsarist military specialists notably A A Svechin Trotsky and his allies noting the Soviet Union's backwardness relative to the West professed a policy of expediency in military affairs Though Trotsky and Svechin proved their position correct both in reference to military affairs and orthodox communist thought the ripening political struggle eventually secured Frunze's and Tukhachevsky's domination of the Red Army and Trotsky's eventual ouster and exile

Routledge Handbook of Medieval Military Strategy John D. Hosler, Daniel P. Franke, 2024-12-13 This Handbook provides the first comprehensive and global analysis of medieval military strategy covering the period from the sixth to the seventeenth century Challenging the widely held notion in modern strategic studies that medieval strategy was non-existent the Handbook brings together leading scholars to explore a range of literatures campaigns laws and contexts that highlight medieval warfare's multifaceted contours The scope of the work is ambitious with over 30 chapters dedicated to analyzing strategy across six continents From Charlemagne to Henry V and Scandinavia to Florence southbound to Morocco then across the Sahara to Kongo past the Adriatic to Byzantium and Georgia and the Crusades and Egypt further still into Indian and Chinese dynasties and Japan and finally to Central and South America this Handbook provides ready access to military strategy across the medieval world stage In the process it fills a significant gap in the history of strategy and serves to connect the ancient world with the modern demonstrating that whatever the period military leaders have consistently plied warfare in the pursuit of greater ends This Handbook will be of much interest to researchers and students of military strategy medieval military history and strategic studies in general

Military Law Review, 2010 **Napoleonic Warfare** John T. Kuehn, 2015-05-05 This carefully researched book provides an operational level analysis of European warfare from 1792 to 1815 that includes the tactics operations and strategy of major conflicts of the time 2015 marks the 200th anniversary of the famous Waterloo campaign sparking a renewed interest in Napoleon's prowess as a military leader and acumen as a strategist This in-depth analysis scrutinizes the

complex campaigns and strategies of the French Revolutionary and Napoleonic Wars looking at how military genius referred to in the book as operational art shaded the panorama of 18th century warfare Drawing upon familiar battles as well as lesser known campaigns this sweeping reference uses 20th century military theory to explain 19th century events Author John T Kuehn discusses joint warfare and strategy found in the military movements of Marshal Suvorov in Italy and Switzerland in 1799 the early and later campaigns of Napoleon and Nelson and the Duke of Wellington s campaigns in Spain Portugal and Belgium The work also includes an entire chapter on theory and history of operational art spanning a variety of perspectives from theorist Carl von Clausewitz to American air force pilot John Boyd This book is a must have for any military history collection *The Oxford Handbook of Grand Strategy* Thierry Balzacq,Ronald R. Krebs,2021 The Oxford Handbook of Grand Strategy addresses the conceptual and historical foundations production evolution and future of grand strategy from a wide range of standpoints
