*Automated Enterprise Systems for Maximizing Business Performance* Papajorgji, Petraq,2015-09-25 The integration of recent technological advances into

modern business processes has allowed for greater efficiency and productivity. However, while such improvements are immensely beneficial, the modeling and coordination of these activities offers a unique set of challenges that must be addressed. *Automated Enterprise Systems for Maximizing Business Performance* is a pivotal reference source for the latest scholarly research on the modeling and application of automated business systems. Featuring extensive coverage on a variety of topics relating to the design, implementation, and current developments of such systems, this book is an essential reference source for information system practitioners, business managers, and advanced level students seeking the latest research on achievements in this field. This publication features timely research-based chapters within the context of business systems, including but not limited to enterprise security, mobile technology, and techniques for the development of system models.

**Ebook: Business Driven Information Systems** Paige Baltzan, Amy Phillips, 2014-10-16 *Business Driven Information Systems 4e* discusses various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. This updated edition provides the foundation that will enable students to achieve excellence in business through its updated case studies, closing cases, technology plug-ins, expanded IT topics, and new project management content. *Business Driven Information Systems* is designed to give students the ability to understand how information technology can be a point of strength for an organization and McGraw Hill's online learning and assessment solution Connect MIS helps students apply this knowledge. *Next Generation Mobile Communications Ecosystem* Saad Z. Asif, 2011-02-25 Taking an in-depth look at the mobile communications ecosystem, this book covers the two key components, i.e., Network and End User Devices, in detail. Within the network, the sub-components of radio access network, transmission network, core networks, services, and OSS are discussed. Component-level discussion also features antenna diversity and interference cancellation techniques for smart wireless devices. The role of various standard development organizations and industry forums is highlighted throughout. The ecosystem is strengthened with the addition of the Technology Management (TM) component, dealing mostly with the non-technical aspects of the underlying mobile communications industry. Various aspects of TM, including technology development, innovation management, knowledge management, and more, are also presented. Focuses on OFDM-based radio technologies such as LTE, WiMAX, as well as MBWA. Mobile Broadband Wireless Access provides a vital addition to the momentum of EVDO and its migration towards LTE. Emphasis on radio core operation, architectural, and performance aspects of two next-generation technologies, EPS and WiMAX. Includes discussion of backhaul technologies and alternatives, as well as issues faced by operators switching to 3G and Next Generation Mobile Networks. Cutting-edge research on emerging Gigabit Ethernet, Microwave Radios, and Carrier Ethernet transport technologies. *Next Generation Mobile Communications Ecosystem* serves as a practical reference for telecom-associated academia and industry to understanding mobile communications in a holistic manner, as well as assisting

in preparing graduate students and fresh graduates for the marketplace by providing them with information not only on state of the art technologies and standards but also on TM By effectively focusing on the key domains of TM this book will further assist companies with improving their competitiveness in the long run Importantly it will provide students engineers researchers technology managers and executives with extensive details on various emerging mobile wireless standards and technologies
