Mergent Public Utility Manual ,2002 *Buddhism in the Sung* Daniel A. Getz,Peter N. Gregory,2002-10-31 New paperback edition The Sung Dynasty 960 1279 has long been recognized as a major watershed in Chinese history Although there are recent major monographs on Sung society government literature Confucian thought and popular religion the contribution of Buddhism to Sung social and cultural life has been all but ignored Indeed the study of Buddhism during the Sung has lagged behind that of other periods of Chinese history One reason for the neglect of this important aspect of Sung society is undoubtedly the tenacity of the view that the Sung marked the beginning of an inexorable decline of Buddhism in China that extended down through the remainder of the imperial era As this book attests however new research suggests that far from signaling a decline the Sung was a period of great efflorescence in Buddhism This volume is the first extended scholarly treatment of Buddhism in the Sung to be published in a Western language It focuses largely on elite figures elite traditions and interactions among Buddhists and literati although some of the book s essays touch on ways in which elite traditions both responded to and helped shape more popular forms of lay practice and piety All of the chapters in one way or another deal with the two most important elite traditions within Sung Buddhism Ch'an and T'ien-t'ai Whereas most previous discussions of Buddhism in the Sung have tended to concentrate on Ch'an the present volume is notable for giving T'ien-t'ai its due By presenting a broader and more contextualized picture of these two traditions as they developed in the Sung this work amply reveals the vitality of Buddhism in the Sung as well as its embeddedness in the social and intellectual life of the time **Aerospace Structural Metals Handbook** ,1989 The Electrical Review ,1917 **The Syncretism of Ch'an and Pure Land Buddhism** Heng-ching Shih,1992 This fascinating book examines the syncretism of Ch'an Zen and Pure Land Buddhism in China It discusses the syncretic character of Chinese culture and Buddhism The doctrinal basis of the Ch'an Pure Land syncretism is thoroughly investigated As Yung ming Yen shou 905 975 is the instrumental figure for the promotion and popularization of the syncretism the book fully examines his thought and influence Analyzing the two distinctive types of Buddhist experiences this book is the first on this subject ever published in English **The Ch'an-Pure**
