Jungs Quest For Wholeness A Religious And Historical Perspective:

Jung's Quest for Wholeness Curtis D. Smith, 1990-07-05 Here is a unique analysis of Carl Jung's thought from the perspective of the history of religions Using a religious and historical approach the author identifies the religious goal or ultimate concern of Jung's psychological system and traces the evolution of that goal throughout his Collected Works This book focuses on the historical development of a key component of Jung's thought the quest for wholeness and shows how it functions as the ultimate concern of his psychotherapeutic system The relationships among many of Jung's important concepts such as his complex theory the individuation process archetypal symbolism therapeutic concerns alchemy and Eastern religions are given a new sense of order and significance when viewed in this historical light Rather than presenting a haphazard array of seemingly endless topics this work emphasizes the continuity underlying Jung's early and later writings The evolution of Jung's work is divided into three distinct phases developmental formative and elaborative Whereas the developmental period consists of the time prior to the creation of Jung's ultimate concern it was during the formative phase that Jung began to consolidate the contours of his newly emerging system During the elaborative phase Jung expanded and clarified his ultimate concern and pattern of ultimacy This book shows that the evolution of Jung's thought moved from a concern with psychic fragmentation to individual wholeness and then to cosmic unity

An Introduction to the Collected Works of C. G. Jung Clifford Mayes, 2016-03-24 An Introduction to the Collected Works of C G Jung Psyche as Spirit offers a concise and engaging overview of Jung's work and contributions to the field of psychology Mayes first examines Jung's philosophical influences as well as his work and eventual break with Sigmund Freud providing insights into how these experiences shaped Jung's theory Mayes brings into

focus the major concepts and themes explored in Carl Gustav Jung's Collected Works including the ego Self Axis archetypes personality types and the Collective Unconscious presenting a thorough introduction and a valuable resource for both Jungian students as well as Jungian scholars *Jung and the Jungians on Myth* Steven Walker, 2014-04-08 Carl Gustav Jung 1875-1961 was never more insightful and intriguing than when he discussed mythology The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In *Jung and the Jungians on Myth* Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology *Jung and the Jungians on Myth* Steven F. Walker, 2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth He defines key terms and distinguishes dream from fantasy in psychological experience He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover

Jung, Deleuze, and the Problematic Whole Roderick Main, Christian McMillan, David Henderson, 2020-09-01 This book of expert essays explores the concept of the whole as it operates within the psychology of Jung the philosophy of Deleuze and selected areas of wider twentieth century Western culture which provided the context within which these two seminal thinkers worked Addressing this topic from a variety of perspectives and disciplines and with an eye to contemporary social political and environmental crises the contributors aim to clarify some of the epistemological and ethical issues surrounding attempts such as those of Jung and Deleuze to think in terms of the whole whether the whole in question is a particular bounded system such as an organism person society or ecosystem or most broadly reality as a whole Jung Deleuze and the Problematic Whole will contribute to enhancing critical self reflection among the many contemporary theorists and practitioners in whose work thinking in terms of the whole plays a significant role **Perspectives on Barry Hannah**

Martyn Bone, 2010-03-30 Contributions by Melanie R Benson Thomas rvoid Bjerre Martyn Bone Mark S Graybill Richard E Lee Kenneth Millard James B Potts III Scott Romine Matthew Shipe and Daniel E Williams *Perspectives on Barry Hannah* is a collection of essays devoted to the work of the award winning fiction writer Barry Hannah 1942-2010 The anthology features a broad range of critical approaches and covers the span of Hannah's career from *Geronimo Rex* 1972 to *Yonder Stands Your Orphan* 2001 The book also includes a previously unpublished interview with Hannah The ten essays cover all of Hannah's thirteen published books The contributors give fresh perspectives on Hannah's classic works *Airships* and *Ray* provide

illuminating readings of important fiction that has received less critical attention *Night Watchmen* *Hey Jack* and *Never Die* and offer the first sustained criticism of Hannah's acclaimed later fiction *Bats Out of Hell* *High Lonesome* and *Yonder Stands Your Orphan* As Martyn Bone explains in his introduction the essays though varied in approach and style consistently hone in on the recurrent themes that characterize Hannah's career his relationship to postmodernism his interrogation of traditional ideas of masculinity and heroism his complex engagement with southern history literature and culture and his growing concern with spirituality and morality The essays in *Perspectives on Barry Hannah* make connections between Hannah's work and that of several prominent modern and postmodern authors including William Faulkner Ernest Hemingway James Joyce Allen Tate John Irving J M Coetzee and Cormac McCarthy Contributors also consider Hannah's fiction in relation to non-literary cultural forms such as sports film and popular music Ultimately *Perspectives on Barry Hannah* affirms Hannah's status as a leading figure in contemporary American literature

Alchemists of Human Nature Petteri

Pietikainen, 2015-10-06 A study of Modernist utopias of the mind This book examines the psychodynamic writings of Otto Gross C G Jung Wilhelm Reich and Erich Fromm It argues utopianism became increasingly important to the fundamental ambitions of all four thinkers and places the utopian impulse with the historical context of the early twentieth century

Jung on Synchronicity and Yijing Young Woon Ko, 2011-01-18 Jung's understanding of Yijing for supporting the synchronistic principle reveals the key issues of his archetypal theory Jung's archetypal theory which is the basic motif of his understanding of Yijing illuminates the religious significance of Yijing Jung defines the human experience of the divine as an archetypal process by way of which the unconscious conveys the human religious experience In this way the divine and the unconscious mind are inseparable from each other For the human experience of the divine Jung's archetypal theory developed in a theistic tradition is encountered with the religious character of the non-theistic tradition of Yijing From Jung's partial adaptation of Yijing however we notice the differences between Jung's archetypal psychology and the Yijing cosmological view This difference represents the difference between the Western and the East Asian tradition This aspect is well shown in the fact that Jung's theoretical assumption for the definition of archetype is deeply associated with Plato's Idea and the Kantian a priori category Accordingly Jung brings their timeless spaceless realm of archetype into the synchronistic phenomenon of the psyche and identifies the Yijing text with the readable archetype Yet the synchronistic moment that Jung presents is the phenomenon always involved in subjective experience and intuition which are developed in the duration of time The synchronistic phenomenon is not transcendent or the objective flowing of time in itself regardless of our subjective experience

[Bibliography of the History of Medicine](#), 1993 [Integrative Spirituality](#) Patrick J. Mahaffey, 2018-10-26 In *Integrative Spirituality* Patrick J Mahaffey elucidates spirituality as a developmental process that is enhanced by integrating the teachings and practices of multiple religious traditions Jungian depth psychology and contemplative yoga In the postmodern world of religious pluralism Mahaffey compellingly argues that each of us must fashion a unique path to

wholeness which integrates aspects of life and of the self that have become disconnected and disowned Integrative Spirituality uniquely conjoins four components exemplary religious pluralists from three traditions individuation the forms of contemplative Hindu yoga that have been successfully transmitted to the West and a presentation of two models for integrating psychological growth and spiritual awakening The book presents pioneering practitioners in each field who exemplify how we may fashion our own approach to integrating both spiritual awakening and psychological development and delineates an array of spiritual practices that integrate the somatic psychological interpersonal and spiritual aspects of life Ultimately Mahaffey contends that integrative spirituality is a mode of being that fully embraces the divinity inherent in each of us and in the world Integrative Spirituality will be essential reading for academics and students of Jungian and post Jungian studies transpersonal and Jungian psychology and religious studies and contemplative education It will also be of interest to analytical and depth psychologists in practice and in training and to anyone seeking a greater understanding of spirituality psychological growth religious traditions individuation and contemplative yoga **The Refiner's Fire** John L. Brooke, 1996-05-31 This 1995 book presents an alternative and comprehensive understanding of the roots of Mormon religion

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1991 **Sex and Power** Rita Banerji, 2008-11-14 Sex underlies human existence and if human life is sacred how can sex not be As squeamish as India is today about sex this is also the land where queens once copulated with head horses at religious ceremonies where the art of love making was declared the revelation of the gods and recorded in elaborate detail in the kama sutras and prostitution was a form of sacred offering at temples adorned with erotic sculptures Using India as a paradigm Rita Banerji illustrates that sexual morality is not an absolute but a facet of living that undergoes periodic upheavals She delineates four major periods in Indian history when there were significant shifts in the collective social perception of sex and sexuality and the associated customs and beliefs What causes this revision in sexual ethos To explain this Sex and Power proposes a modified version of Nietzsche's slave versus master morality theory The theory which is tested against the dynamics of each of the four defined periods establishes that the moral overview of any given period is determined not by a set of pre-existing ethics but by the existent power structure of the period in question The accepted moral code actually serves the party in power How would this theory play out in the context of India today Banerji examines this question at length as one of extreme urgency and concludes that the three most burning issues facing the country today population explosion AIDS and female genocide are the manifestations of a collective sexual malfunctioning of society and need to be redressed in the context of an existent social and economic power hierarchy **Becoming** Deldon Anne McNeely, 2010 Becoming An Introduction to Jung's Concept of Individuation explores the ideas of Carl Gustav Jung His idea of a process called individuation has sustained Deldon Anne McNeely's dedication to a lifelong work of psychoanalysis which unfortunately has been dismissed by the current trends in psychology and psychiatry Psychotherapists know the value of Jung's approach through clinical results that

is watching people enlarge their consciousness and change their attitudes and behavior transforming their suffering into psychological well being However psychology s fascination with behavioral techniques made necessary by financial concerns and promoted by insurance companies and pharmaceutical companies has changed the nature of psychotherapy and has attempted to dismiss the wisdom of Jung and other pioneers of the territory of the unconscious mind For a combination of unfortunate circumstances many of the younger generation including college and medical students are deprived of fully understanding their own minds Those with a scientific bent are sometimes turned away from self reflection by the suggestion that unconscious processes are metaphysical mumbo jumbo Superficial assessments of Jung have led to the incorrect conclusion that one must be a spiritual seeker or religious in order to follow Jung s ideas about personality Becoming is an offering to correct these misperceptions Many university professors are not allowed to teach Jungian psychology Secular humanism and positivism have shaped the academic worldview therefore investigation into the unknown or unfamiliar dimensions of human experience is not valued But this attitude contrasts with the positive reputation Jung enjoys among therapists artists of all types and philosophers Those without resistance to the unconscious because of their creativity open mindedness or personal disposition are more likely to receive Jung s explorations without prejudice or ideological resistance There is a lively conversation going on about Jung s ideas in journals and conferences among diverse groups of thinkers which does not reach mainstream psychology Becoming is for those whose minds are receptive to the unknown and to help some of us to think more with respect than dread of the possibility that we act unconsciously

Modernism After the Death of God Stephen Kern,2017-11-22 Modernism After the Death of God explores the work of seven influential modernists Friedrich Nietzsche James Joyce D H Lawrence Andr Gide and Martin Heidegger criticized the destructive impact that they believed Christian sexual morality had had or threatened to have on their love life Although not a Christian Freud criticized the negative effect that Christian sexual morality had on his clinical subjects and on Western civilization while Virginia Woolf condemned how her society was sanctioned by a patriarchal Christian authority All seven worked to replace the loss or absence of Christian unity with non Christian unifying projects in their respective fields of philosophy psychiatry or literature The basic structure of their main contributions to modernist culture was a dynamic interaction of radical fragmentation necessitating radical unification that was always in process and never complete

Kabbalah and Eros Moshe Idel,2005-01-01 In this book the world s foremost scholar of Kabbalah explores the understanding of erotic love in Jewish mystical thought Encompassing Jewish mystical literatures from those of late antiquity to works of Polish Hasidism Moshe Idel highlights the diversity of Kabbalistic views on eros and distinguishes between the major forms of eroticism The author traces the main developments of a religious formula that reflects the union between a

masculine divine attribute and a feminine divine attribute and he asks why such an erotic formula was incorporated into the Jewish prayer book Idel shows how Kabbalistic literature was influenced not only by rabbinic literature but also by Greek thought that helped introduce a wider understanding of eros Addressing topics ranging from cosmic eros and androgyneity to the affinity between C J Jung and Kabbalah to feminist thought Idel s deeply learned study will be of consuming interest to scholars of religion Judaism and feminism

Republican Vietnam, 1963-1975 Trinh M. Luu, Tuong Vu, 2023-09-30

English language scholarship all too often dismisses South Vietnam as an American creation a product of US imperialism Republican Vietnam 1963 1975 boldly upends this depiction exposing a diverse and dynamic portrait of the Second Republic In twelve essays each based on original archival research the volume brings to life the Second Republic in all its complexities displaying how politicians students educators publishers journalists musicians religious leaders businessmen and ordinary citizens built a highly intricate society with dazzling entrepreneurial zeal an outspoken press globally engaged religions a vibrant intellectual and associational culture and a level of artistic production that remains unmatched since the Vietnam War That inspired and frenzied age though short lived held a resilient spirit that Vietnamese refugees have kept alive The trove of vernacular music and print media not to mention the many associations the Vietnamese diaspora founded exemplify the republican values that once energized South Vietnamese culture But this nuanced society has appeared in popular media and American scholarship as a hopelessly dependent nation led by corrupt dictators beholden to US interests In contrast to such negative stereotypes this account situates South Vietnamese front and center as agents of their own histories Republican Vietnam is the first collection of scholarly essays on the Second Republic since the end of the Vietnam War It is also among the first to use republicanism as a lens to re examine twentieth century Vietnamese history the Vietnam War and the diaspora The twelve essays together show how war in tandem with external intervention shaped South Vietnam s economy culture and the life of every individual and family By featuring works from Vietnamese and Vietnamese diasporic studies this text takes the important step of bridging the two fields laying the foundation for cross disciplinary projects in the future
