Just Revolution A Christian Ethic Of Political Resistance And Social Transformation:

Just Revolution Anna Floerke Scheid, 2015 *Just Revolution* focuses on oppressed peoples as agents of social transformation in their own political contexts Using the South African struggle against apartheid as a case study this book posits a theory of just revolution that rests upon nonviolent just peacemaking practices and social reconciliation bolstered by restorative justice

Just Revolution Anna Floerke Scheid, 2015-06-17 Despite the U S Catholic Bishops 1983 declaration that insufficient analytical attention has been given to the moral issues of revolutionary warfare theological scholarship has been slow to engage in systematic analysis of what makes a revolution ethical or unethical *Just Revolution A Christian Ethic of Political Resistance and Social Transformation* aims to address this lacuna What principles and practices ought to guide people who want to free themselves from dictatorial or oppressive governments With this question in mind this book focuses on oppressed peoples as agents of their own processes of social transformation The model of just revolution proposed endeavors to limit violence to do the least possible harm while overcoming political oppression working toward a justice and promoting long term efforts at peacebuilding and sociopolitical reconciliation Using the South African struggle against apartheid as a case study *Just Revolution* posits an ethic for revolutionary activity that begins with nonviolent just peacemaking practices allows for limited and restrained armed resistance in accordance with revised just war criteria and promotes post revolutionary transitional justice and social reconciliation Together the practices and criteria that emerge from this study yield a rich and theologically grounded ethic of just revolution

Asian Christian Ethics Aldrin M. Peñamora, Bernard K. Wong, 2022-09-26 *Asian Christian Ethics* provides an introduction for students to a range of key topics related to Christian ethics in Asia Fifteen Christian scholars from across Asia and from diverse ethnic and cultural backgrounds demonstrate how to think theologically and contextually about key ethical issues as well as describe best practices in Christian moral formation Ideal for use as a companion textbook in Asian seminaries and institutions as well as the wider Asian diaspora readers will be introduced to a wide range of topics all while upholding the authority of the Bible the centrality of Christ and the transforming power of the Holy Spirit

On Revolutions Colin J. Beck, Mlada Bukovansky, Erica Chenoweth, George Lawson, Sharon Erickson Nepstad, Daniel P. Ritter, 2022-04-15 In *On Revolutions* six prominent scholars of revolutions generate a new conversation about revolutions past present and future Integrating insights from diverse fields civil resistance studies international relations social movements terrorism the book offers new ways of thinking about persistent problems in the study of revolution Drawing on a wide range of cases it also provides new theoretical insights offers methodological advice and engages with the ethical issues at the nexus of scholarship and activism

Our God Loves Justice W. Travis McMaken, 2017-11-01 Helmut Gollwitzer was a direct heir of the theological legacy of the great Protestant theologian Karl Barth More than any of Barth's other interpreters Gollwitzer embraced and extended the sociopolitical impulses and implications within Barth's theology In this Gollwitzer embodies a salient and necessary

alternative in the American context of increasingly intertwined theological and political discourses This volume the first book length study of Gollwitzer available in English provides a helpful introduction to the life theology and political thought of this crucial theologian and public intellectual **Uncivil Disobedience** David M. Gides,2022-12-13 This book addresses the need for theological reflection on uncivil disobedience Existing scholarship in theology and politics mostly treats church state relations theoretically with studies in non violent resistance or civil disobedience or in other ways largely assuming traditional forms of governance and means of protest all while paying little to no attention to post modern political philosophies Recent eruptions of uncivil disobedience oftentimes involving violence like we have seen with Antifa Black Lives Matter protests the storming of the U S Capitol Building and in the actions of other right wing leftist and religious groups assume new ways of protesting and new forms of organizing or mobilizing Additionally these groups and their activities are often informed by post modern philosophies These new political dynamics present an opportunity for theologians to produce scholarship in response After establishing philosophical underpinnings related to uncivilly disobedient action the contributors cover traditional historical and theological responses to political unrest as a foundation for considering or evaluating attempts to address theologically present day manifestations of uncivil disobedience Blessed Are the Peacemakers Lisa Sowle Cahill,2019-03-02 This book is a contribution to the Christian ethics of war and peace It advances peacebuilding as a needed challenge to and expansion of the traditional framework of just war theory and pacifism It builds on a critical reading of historical landmarks from the Bible through Augustine Aquinas the Reformers Christian peace movements and key modern figures like Dietrich Bonhoeffer Reinhold Niebuhr and recent popes Similar to just war theory peacebuilding is committed to social change and social justice but includes some theorists and practitioners who accept the use of force in extreme cases of self defense or humanitarian intervention Unlike just war theorists they do not see the justification of war as part of the Christian mission Unlike traditional pacifists they do see social change as necessary and possible and as such requiring Christian participation in public efforts Cahill argues that transformative Christian social participation is demanded by the gospel and the example of Jesus and can produce the avoidance resolution or reduction of conflicts And yet obstacles are significant and expectations must be realistic Decisions to use armed force against injustice even when they meet the criteria of just war will be ambiguous and tragic from a Christian perspective Regarding war and peace the focus of Christian theology ethics and practice should not be on justifying war but on practical and hopeful interreligious peacebuilding

Conflict and Catholic Social Ethics Taylor J. Ott,2024-11-01 This book focuses on the question of how to understand conflict and its place in Catholic and Christian social ethics The author examines Catholic social teaching CST for its explicit mentions of conflict or contention and analyzes the way that CST addresses the subjects of peace labor and environment While CST offers precedent to think about conflict within the frame of Catholic ethics its lack of explicit engagement remains a major obstacle to a full rich and concrete understanding of the fabric of society and the work of social justice Any social

ethic that is not informed by the presence of conflict misses a major dynamic in society and therefore leads to ethical judgements that are at best inadequate and at worst actively harmful Building upon the insight of respected thinkers within Catholic social thought this study is based on an interdisciplinary method that engages sociology political theory postcolonial theory and intersectional feminist ethics The book will be of particular interest to theological ethicists and those who work with modern CST

Play Among Books Miro Roman, Alice _ch3n81, 2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice _ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science

A Field Guide to Christian Nonviolence David C. Cramer, Myles Werntz, 2022-02-08 Christian nonviolence is not a settled position but a vibrant and living tradition This book offers a concise introduction to diverse approaches to proponents of and resources for this tradition It explores the myriad biblical theological and practical dimensions of Christian nonviolence as represented by a variety of twentieth and twenty first century thinkers and movements including previously underrepresented voices The authors invite readers to explore this tradition and discover how they might live out the gospel in our modern world

After the Smoke Clears Mark J. Allman, Tobias Winright, 2022-07-21 While most studies of just war focus on the rationale for going to war and the conduct of the war this

important book examines the period after the conflict What must be done to restore justice In the words of the authors Victory is declared by presidents and other leaders yet all too often no just peace is to be found in the wake of today's conflicts After the smoke clears the powers that be may declare mission accomplished when as Ezekiel long ago said there really is no peace

Fugitive Saints Katie Walker Grimes, 2017-04-01 How should the Catholic church remember the sins of its saints This question proves particularly urgent in the case of those saints who were canonized due to their relation to black slavery Today many of their racial virtues seem like racial vices In this way the church celebrates Peter Claver a seventeenth century Spanish missionary to Colombia as the saint of the slave trade and extols Martin de Porres as the patron saint of mixed race people But in truth their sainthoods have upheld anti blackness much more than they have undermined it Habituated by anti blackness the church has struggled to perceive racial holiness accurately In the ongoing cause to canonize Pierre Toussaint a Haitian born former slave the church continues to enact these bad racial habits This book proposes black fugitivity as both a historical practice and an interpretive principle to be a strategy by which the church can build new hagiographical habits Rather than searching inside itself for racial heroes the church should learn to celebrate those black fugitives who sought refuge outside of it
