Thresholds: Rethinking Spirituality Through Music Marcel Cobussen,2017-07-05 In Thresholds Marcel Cobussen rethinks the relationship between music and spirituality The point of departure is the current movement within contemporary classical music known as New Spiritual Music with as its main representatives Arvo P John Tavener and Giya Kancheli In almost all respects the musical principles of the new spiritual music seem to be diametrically opposed to those of modernism repetition and rest versus development and progress tradition and familiarity versus innovation and experiment communication versus individualism and conceptualism tonality versus atonality and so on As such this movement is often considered as part of the much larger complex called postmodernism Joining in with ideas on spirituality as presented by Michel de Certeau and Mark C Taylor Cobussen deconstructs the classification of the spiritual dimensions of music as described above Thresholds presents an idea of spirituality in and through music that counters strategies of exclusion and mastering of alterity and connects it to wandering erring and roving Using the philosophy of Martin Heidegger Georges Bataille Jean Fran s Lyotard Jacques Derrida and others and analysing the music of John Coltrane the mythical Sirens Arvo P and The Eagles to mention a few Cobussen regards spirituality as a non concept that escapes categorization classification and linguistic descriptions Spirituality is a topological non discursive and a manifestation of otherness And it is precisely music or better listening to music that induces these thoughts by carefully encountering analysing and evaluating certain examples from classical jazz pop and world music it is possible to detach spirituality from concepts of otherworldliness and transcendentalism Thresholds opens a space in which spirituality can be connected to music that is not commonly considered in this light thereby enriching

the ways of approaching and discussing music In orde The Spirit Awakens Robert Bigelow,2020-09-01 This is my father s first hand account of a Near Death like event while in a Ft Lauderdale condo on the night of October 13 1994 A spiritual tunnel opened up The figures of twelve spiritual beings appeared Suspended in midair looking straight at me they radiated Divine energy that transformed my state of mind into unconditional love Inside I cried with relief because every human desire was fulfilled and every thought of separation from The Divine left me I was whole and eternal I had returned home Who s talking to you his girlfriend Martha a PHD asked The first being said I am Knowledge I nicknamed him Knowles Page 24 The 5 hour out of body experience started with being shown his own human spirit as an oval array of millions of light fibers They transformed him into this spirit and pulled him up out of his body to the edge of a huge chasm He looked back at his body on the couch and was pulled through the death process to the other side where he was greeted by other human beings in spirit form Elevating his frequency he was transcended into a higher dimension Upon returning to the couch the last wave ripped through his soul They showed him that the human consciousness contained a veil like a holographic fortress blocking his experience of the Divine When you understand all I have shown you you will be who you truly are This is your task and when completed each of the others in their time will come to you This is your preparation for what is to come Knowles The Divine realm closed leaving the excruciating pain of loss and the struggle to return and achieve the task Watching my father continue to go through more experiences inspired me to take on the same battle to overcome the limited human consciousness and find the Divine experience for myself Thank you dad for being such a wonderful father a spiritual teacher and now for bringing the message of Divine Presence Rising A Research Project to all mankind Christopher Bigelow
