Just War By Howard Zinn:

Justice and the Just War Tradition Christopher J. Eberle, 2016-02-05 Justice and the Just War Tradition articulates a distinctive understanding of the reasons that can justify war of the reasons that cannot justify war and of the role that those reasons should play in the motivational and attitudinal lives of the citizens soldiers and statesmen who participate in war Eberle does so by relying on a robust conception of human worth rights and justice He locates this theoretical account squarely in the Just War Tradition But his account is not merely theoretical Justice and the Just War Tradition has a variety of practical aims one of the most important of which is to serve as an aid to moral formation The hope is that citizens soldiers and statesmen whose emotions and aspirations have been shaped by the Just War Tradition will be able to negotiate violent communal conflict in ways that respect the demands of justice So Justice and the Just War Tradition articulates a theoretically satisfying and practically engaging account of the reasons that count in favor of war Moreover Eberle develops that account by engaging contemporary theorists both philosophical and theological by according due deference to venerable contributors to the Just War Tradition and by integrating insights from military memoir the history of war and the author's experience of teaching ethics at the United States Naval Academy

Just War Howard Zinn, 2005 Howard Zinn an American historian and Gino Strada surgeon and founder of EMERGENCY the Italian humanitarian society for the care and rehabilitation of civilian victims of war and anti personnel mines are in agreement with one another on the need to abolish war all wars Zinn and Strada speaking in Rome recently captivated an audience of over a thousand people with their views on war Zinn's words are captured unabridged in this book Zinn's message in Rome was simple but powerful The photos that accompany the text in this volume are by Moises Saman a photo reporter who fights against war with his camera Howard Zinn said that if the human race is going to survive it must declare wars taboo as it did with cannibalism and slavery Wars he says referring to Gino Strada's experience in treating its victims are essentially wars against civilians many of them children All of us therefore have a responsibility to work towards a time when we still struggle for justice but without war

BOOK JACKET Reading, Learning, Teaching Howard Zinn Ed Welch, 2009 Howard Zinn is one of the most celebrated historians and social activists of our time Raised in a working class family in Brooklyn he was a shipyard worker and union organizer when World War II began He served as a bombardier in the European Theatre and this experience shaped his opposition to war as an instrument of foreign policy He became active in the civil rights movement as well as the anti war movement from the 1950s to the 1970s He is perhaps best known as the author of A People's History of the United States published in 1980 This study of Zinn's life and work opens the door to many aspects of historical study generally untouched in traditional secondary and collegiate survey courses in United States history To Zinn history is not an objective account of the past to be indelibly carved into the brains of American citizens rather history is an ever changing palette of events as people react to the contexts and cultures they find themselves immersed in By considering the lives and thoughts of less

politically and socially prominent individuals students have the opportunity to re examine their own beliefs and assumptions about contemporary American life Students will gain insight into how history is constructed and recorded through a consideration of the life and writings of Howard Zinn

America and the Just War Tradition Mark David Hall,J. Daryl Charles,2019-03-30 America and the Just War Tradition examines and evaluates each of America s major wars from a just war perspective Using moral analysis that is anchored in the just war tradition the contributors provide careful historical analysis evaluating individual conflicts Each chapter explores the causes of a particular war the degree to which the justice of the conflict was a subject of debate at the time and the extent to which the war measured up to traditional ad bellum and in bello criteria Where appropriate contributors offer post bellum considerations insofar as justice is concerned with helping to offer a better peace and end result than what had existed prior to the conflict This fascinating exploration offers policy guidance for the use of force in the world today and will be of keen interest to historians political scientists philosophers and theologians as well as policy makers and the general reading public Contributors J Daryl Charles Darrell Cole Timothy J Demy Jonathan H Ebel Laura Jane Gifford Mark David Hall Jonathan Den Hartog Daniel Walker Howe Kerry E Irish James Turner Johnson Gregory R Jones Mackubin Thomas Owens John D Roche and Rouven Steeves

Just War Thinkers Daniel R. Brunstetter,Cian O'Driscoll,2017-08-09 This volume offers a set of concise and accessible introductions to the seminal figures in the historical development of the just war tradition In what if any circumstances are political communities justified in going to war And what limits should apply to the conduct of any such war The just war tradition is a body of thought that helps us think through these very questions Its core ideas have been subject to fierce debate for over 2 000 years Yet they continue to play a prominent role in how political and military leaders address the challenges posed by the use of force in international society Until now there has been no text that offers concise and accessible introductions to the key figures associated with the tradition Stepping into this breach Just War Thinkers provides a set of clear but detailed essays by leading experts on nineteen seminal thinkers from Cicero to Jeff McMahan This volume challenges the reader to think about how traditions are constituted who is included and excluded and how that is determined and how they serve to enable constrain and indeed channel subsequent thought debate and exchange This book will be of much interest to students of just war tradition and theory ethics and war philosophy security studies and IR

Terrorism and the Ethics of War Stephen Nathanson,2010-05-13 Most people strongly condemn terrorism yet they often fail to say how terrorist acts differ from other acts of violence such as the killing of civilians in war Stephen Nathanson argues that we cannot have morally credible views about terrorism if we focus on terrorism alone and neglect broader issues about the ethics of war His book challenges influential views on the ethics of war including the realist view that morality does not apply to war and Michael Walzer s defence of attacks on civilians in supreme emergency circumstances It provides a clear definition of terrorism an analysis of what makes terrorism morally wrong and a rule utilitarian defence of noncombatant immunity as well as discussions of the

Allied bombings of cities in World War II collateral damage and the clash between rights theories and utilitarianism It will interest a wide range of readers in philosophy political theory international relations and law **Howard Zinn** Davis D. Joyce,2010-05 This first ever biography of Zinn traces in broad strokes the story of his life placing special emphasis on his involvement in both the Civil Rights movement and the Viet Nam War protests **Pacifism as War Abolitionism** Cheyney Ryan,2024-03-12 Responding to the unprecedented violence of our times and the corresponding interest in nonviolent solutions this book takes up the heart of pacifism its critique of what pacifists have termed the war system Pacifism as War Abolitionism provides an account of the war system that draws on contemporary sociology history and political philosophy The core of its critique of that system is that war begets war and hence war will not be ended or even constrained by finding more principled ways to fight war as many imagine War can only be ended by ending the war system which can only be done nonviolently This has been the message of pacifism s great voices like Gandhi Dr Martin Luther King Jr and Dorothy Day It is the principal message of this book Key Features Draws extensively on the sociological and historical research on war to expand the usual philosophical discussion beyond hypothetical accounts Expands the dialogues on the ethics of war beyond just war theory to its principal alternative pacifism Engages discussion of empire and imperialism in relation to the logic and development of the war system Presents pacifism s response to the reality of war today including the idea of never ending war *Our Grief Is Not a Cry for War* Jeremy Varon,2025-11-05 An original history of the popular movement against the War on Terror the greatest case of we told you so in modern political history Just after 9 11 President George W Bush climbed the rubble where the World Trade Center had stood Surrounded by shouts of anger he said The people who knocked these buildings down will hear all of us soon With these words Bush ushered in the War on Terror Quickly a global protest movement mobilized against it reshaping the political moral and media landscape Jeremy Varon s *Our Grief Is Not a Cry for War* is the definitive history of that movement Millions of Americans participated in thousands of acts of protest from demonstrations to civil disobedience to peace encampments in Iraq On February 15 2003 up to 30 million people worldwide took to the streets in the largest protest in human history But this enormous outcry was not enough to stop the US invasion of Iraq Varon explores the limits to the movement s power but also shows how it worked to make opposition to the Iraq War a part of public debate hastening its end and limiting the broader War on Terror In the book you ll meet the families of the 9 11 victims Iraq War veterans and Gold Star families who spoke out against war Written with a lively and revelatory voice *Our Grief Is Not a Cry for War* illuminates the passion of the peace movement the mark it made and the enduring legacies of the War on Terror [The Discourse of Propaganda](#) John Oddo,2018-10-24 In the early 1990s false reports of Iraqi soldiers in Kuwait allowing premature infants to die by removing them from their incubators helped to justify the Persian Gulf War just as spurious reports of weapons of mass destruction later undergirded support for the Iraq War in 2003 In *The Discourse of Propaganda* John Oddo examines these and other such cases to show how successful wartime propaganda functions as a

discursive process Oddo argues that propaganda is more than just misleading rhetoric generated by one person or group it is an elaborate process that relies on recontextualization ideally on a massive scale to keep it alive and effective In a series of case studies he analyzes both textual and visual rhetoric as well as the social and material conditions that allow them to circulate tracing how instances of propaganda are constructed performed and repeated in diverse contexts such as speeches news reports and popular everyday discourse By revealing the agents inter texts and cultural practices involved in propaganda campaigns *The Discourse of Propaganda* shines much needed light on the topic and challenges its readers to consider the complicated processes that allow propaganda to flourish This book will appeal not only to scholars of rhetoric and propaganda but also to those interested in unfolding the machinations motivating America s recent military interventions

Precision-guided Munitions and Human Suffering in War James E. Hickey, 2016-04-08 James Hickey proceeds from the premise that throughout history humans have demonstrated a proclivity for using violence against one another as a means to achieve an end means enabled in many respects by the technologies available at the time Advancing technology has often been a prime enabler of ever increasing levels of violence and attendant human suffering At a few junctures in history however certain technologies have seemingly provided the armed forces that possess them the ability to fight wars with decreasing levels of violence and suffering Today precision guided munitions PGMs with their high degree of discrimination and accuracy again hold such promise This book seeks to answer the question Do PGMs mitigate suffering in war and have these weapons changed the way decisions regarding war and peace have been made Answering this question helps us understand possible shifts in emphasis in modern warfare both in terms of methods employed and of the greater concern placed on limiting human suffering during conflict This book will help students of ethics just war and military history and senior military and civilian leaders to understand the possible outcomes and wider implications of their strategic choices to use such technology

Facilitator's Manual for the Class of Nonviolence Susan Ives, 2007 [Worshipping the Myths of World War II](#) Edward W. Wood, Jr., 2006 Is any war a good war In *Worshipping the Myths of World War II* the author takes a critical look at what he sees is America s dedication to war as panacea and as Washington s primary method for leading the world Articulating why he believes the lessons of World War II are profoundly relevant to today s events Edward W Wood Jr reflects on such topics as the killing of innocents which became increasingly accepted during the war on how actual killing is usually ignored in war discussions and reporting on the lifetime impact of frontline duty which he knew firsthand on the widely accepted concept of the Greatest Generation on present criteria for judging war memoirs and novels on the fallacy that the United States won the war largely on its own and on the effect that the Holocaust had on our national concepts of evil and purity His final chapter centers on how the war on terror is different from World War II and why the myths created about the latter hide that reality

War, Violence, and Population James A. Tyner, 2009-03-03 Grounded in theory and research this book offers a spatial perspective on how and why populations are regulated and disciplined by mass violence

and why these questions matter for scholars concerned about social justice James Tyner focuses on how states and other actors use acts of brutality to manage administer and control space for political and economic purposes He shows how demographic analyses of fertility mortality and migration cannot be complete without taking war and genocide into account Stark in depth case studies provide a powerful and provocative basis for retheorizing population geography Winner AAG Meridian Book Award for Outstanding Scholarly Work in Geography **Justice and Violence** Eric Nelson,2019-06-04

Originally published in 2003 Justice and Violence brings together a fascinating and varied volume that focuses on the ethics of both political violence and pacifism Incorporating historical geopolitical and cultural case studies it takes a unique look at comparative analyses of these two phenomena and contending world views The volume is a must read for political scientists ethicists historians sociologists anthropologists and policy analysts As we move deeper into the twenty first century the contradictory and conflicting forces of globalization and cultural fragmentation make it increasingly crucial to give serious consideration to the issues raised here **The "global War on Terror" and the Question of World Order** Hans

Köchler,2008 **Howard Zinn Speaks** Howard Zinn,2012-11-06 A wide ranging collection of speeches many published here for the first time by the historian and author of A People s History of the United States Howard Zinn has illuminated our history like no other US historian This collection of his speeches on protest movements racism war and American history covers more than four decades of his active engagement with the audiences he inspired with his humor insight and clarity This volume features Zinn s impassioned and erudite statements on the war in Vietnam abolishing the death penalty the legacy of Emma Goldman the myth of American exceptionalism the Obama Administration and much more Reading Howard s spoken words I feel that I am almost hearing his voice again his stunning pitch perfect ability to capture the moment and the concerns and needs of the audience whoever they may be always enlightening often stirring an amalgam of insight critical history wit blended with charm and appeal Noam Chomsky leading public intellectual and author of Hopes and Prospects With ferocious moral clarity and mischievous humor Howard turned routine antiwar rallies into profound explorations of state violence and staid academic conferences into revival meetings for social change Naomi Klein author of No Is Not Enough and The Battle For Paradise **Agitation with a Smile** Stephen Bird,Adam Silver,Joshua C. Yesnowitz,2015-11-17

Agitation with a Smile offers a reappraisal of Howard Zinn s political thought and situates his efforts in a contemporary context looking toward the nature of activism and dissent in the future This is the first book to provide a substantive account and assessment of Zinn s philosophy and approach to collective action and to a larger extent democracy The contributors to this book explore the most effective mechanisms by which to arouse public support for seemingly radical positions and how current technological advancements may alter our perception of Zinn s activism The book is a valuable guide to a new generation of activists and scholars of politics in gauging the lasting relevance and legacy of Zinn s ideals concepts and methodology The text is neither fawning nor unduly critical unlike many discussions of Zinn in popular culture Rather the

contributors engage the various complexities and tensions present throughout Zinn's work and subject them to contemporary assessment. This is a multidisciplinary and international approach to Howard Zinn's intellectual and activist canon. **The Zinn Reader** Howard Zinn, 2011-01-04 No other radical historian has reached so many hearts and minds as Howard Zinn. It is rare that a historian of the Left has managed to retain as much credibility while refusing to let his academic mantle change his beautiful writing style from being anything but direct, forthright and accessible. Whether his subject is war, race, politics, economic justice or history itself, each of his works serves as a reminder that to embrace one's subjectivity can mean embracing one's humanity; that heart and mind can speak with one voice. Here, in six sections, is the historian's own choice of his shorter essays on some of the most critical problems facing America throughout its history and today. America's Strategy in Southeast Asia James A. Tyner, 2006-12-21 Geography encompasses everything from the local where human beings live, work and travel to metageographies like nations and regions. James A. Tyner's inventive and multidisciplinary ideas on geography similarly range from the personal, his father's experience in the military during the Vietnam War, to a broad discussion of how the United States has come to exercise power through the production of geographic knowledge in this case in Southeast Asia. Since the end of the Second World War, Southeast Asia has served as a surrogate space to further American imperial interests which are economic, political, territorial and moral in scope. America's Strategy in Southeast Asia contends that the construction of Southeast Asia as a geographic entity has been a crucial component in the creation of the American empire. For example, America's most blatant experience of colonial rule occurred in the Philippines. America's longest war was fought in Vietnam, and most recently, some American policymakers have identified Southeast Asia as the Second Front in the War on Terror. Yet America's overriding strategy in Southeast Asia and the region itself remains something of a mystery for the American populace, a black box in America's geographical imagination. This clear and innovative book educates readers about Southeast Asia's importance in American foreign policy.
