

THE FLASH

Thanks to a freak electro-chemical accident, Wally West gained the power of superspeed, becoming the Flash—the fastest man alive. As the youngest member of the League, the brash Flash has a quick wit and a light-hearted view of danger. But he often acts on impulse without considering the consequences.

NEED SPEED

With the ability to run at nearly the speed of light, defying gravity and matching the velocity of sound is a walk in the park for the Flash. Even Superman has a hard time keeping up with the Scarlet Speedster!

The Flash moves so quickly, it can almost seem as if he's in three places at once. And the Justice League thought even one Flash was more than enough to handle!

A MATTER OF TIME

With the help of the Cosmic Treadmill, the Atom's technological wonder, the Flash can use his incredible speed to travel through time—allowing him to save the day in any century!

With the ability to move so fast, the Flash has even found the right moment to swoon over his crush!

The Flash thinks of himself as quite the ladies' man. When he's not delivering lightning fast punches to Captain Cold or Mirror Master, you can find Wally at the nearest nightclub, firing up a move!

JUSTICE DATA

- As the youngest member of the Justice League, the Flash often comes across as a bit immature. Sometimes the other members just wish he'd grow up!
- Because of his super-fast metabolism, the Flash is constantly hungry. He can pack away more hamburgers than an entire pro-football team!

The Flash's weakness for a beautiful woman can also put him in a bind...like the time the Amazonian villain Arisia managed to slap the cuffs on Wally and make a quick getaway.
