Operations** Peter Ward, 2013-01-17 TV Technical Operations is an introduction for new entrants to the broadcast industry  
and is designed to prepare them for working in mainstream television by discussing essential techniques technologies and  
work attitudes The author explores the need to develop a professional approach the occupational skills needed to meet  
deadlines work under pressure and within budget the importance of understanding the potential of broadcast equipment in  
program making the need to keep up to date with the technique and technology the responsibility to ensure continuity of  
experience and training in all craft skills that technical operators are required to work with the need to maintain a critical  
appraisal of what and who influences working practices and how these influences affect production and viewers an

Guide to Price Index and Hedonic Techniques** Ana M. Aizcorbe, 2014-06-12 This book provides an accessible guide to  
price index and hedonic techniques with a focus on how to best apply these techniques and interpret the resulting measures  
One goal of this book is to provide first hand experience at constructing these measures with guidance on practical issues  
such as what the ideal data would look like and how best to construct these measures when the data are less than ideal A  
related objective is to fill the wide gulf between the necessarily simplistic elementary treatments in textbooks and the very  
complex discussions found in the theoretical and empirical measurement literature Here the theoretical results are  
summarized in an intuitive way and their numerical importance is illustrated using data and results from existing studies  
Finally while the aim of much of the existing literature is to better understand official price indexes like the Consumer Price  
Index the emphasis here is more practical to provide the needed tools for individuals to apply these techniques on their own  
As new datasets become increasingly accessible tools like these will be needed to obtain summary price measures Indeed  
these techniques have been applied for years in antitrust cases that involve pricing where economic experts typically have  
access to large granular datasets     **Buyer's Guide to Component TV** Carl H. Giles, Barbara Giles, 1985     HWM
