Judicial Reputation A Comparative Theory:

Judicial Reputation Nuno Garoupa, Tom Ginsburg, 2015-11-20 In *Judicial Reputation A Comparative Theory* Tom Ginsburg and Nuno Garoupa mean to explain how judges respond to the reputational incentives provided by the different audiences they interact with lawyers and law professors politicians the media and the public itself as well as how legal systems design their judicial institutions to calibrate the locally appropriate balance among audiences Making use by turns of careful empirical work and penetrating conceptual insights Ginsburg and Garoupa argue that any given judicial structure is best understood not through the lens of legal culture origin or tradition but through the economics of information and reputation

Judicial Reputation Nuno Garoupa, Tom Ginsburg, 2015-11-20 Judges are society's elders and experts our masters and mediators We depend on them to dispense justice with integrity deliberation and efficiency Yet judges as Alexander Hamilton famously noted lack the power of the purse or the sword They must rely almost entirely on their reputations to secure compliance with their decisions obtain resources and maintain their political influence In *Judicial Reputation* Nuno Garoupa and Tom Ginsburg explain how reputation is not only an essential quality of the judiciary as a whole but also of individual judges Perceptions of judicial systems around the world range from widespread admiration to utter contempt and as judges participate within these institutions some earn respect while others are scorned *Judicial Reputation* explores how judges respond to the reputational incentives provided by the different audiences they interact with lawyers politicians the media and the public itself and how institutional structures mediate these interactions The judicial structure is best understood not through the lens of legal culture or tradition but through the economics of information and reputation Transcending those conventional lenses Garoupa and Ginsburg employ their long standing research on the latter to examine the fascinating effects that governmental interactions multicourt systems extrajudicial work and the international rule of law movement have had on the reputations of judges in this era *Research Handbook on the Politics of Constitutional Law* Mark

Tushnet, Dmitry Kochenov, 2023-11-03 This *Research Handbook* deals with the politics of constitutional law around the world using both comparative and political analysis delivering global treatment of the politics of constitutional law across issues regions and legal systems Offering an innovative critical approach to an array of key concepts and topics this book will be a key resource for legal scholars and political science scholars Students with interests in law and politics constitutions legal theory and public policy will also find this a beneficial companion **Judges and Democratization** B. C. Smith, 2022-11-18

This second edition examines judicial independence as an aspect of democratization based on the premise that democracy cannot be consolidated without the rule of law of which judicial independence is an indispensable part It pays particular attention to the restraints placed upon judicial independence and examines the reforms which are being applied or remain to be adopted in order to guard against the different kinds of interference which prevent judicial decisions being taken in a wholly impartial way Focusing on the growing authoritarianism in the new democracies of Eastern Europe Latin America

Asia and Africa the book analyses the paradox of judicial activism arising from the independence endowed upon the judiciary and the rights bestowed on citizens by post authoritarian constitutions Finally it asks how judicial accountability can be made compatible with the preservation of judicial independence when the concept of an accountable independent judiciary appears to be a contradiction in terms This book will be of key interest to scholars and students of judicial studies democratization and autocratization studies constitutionalism global governance and more broadly comparative government politics human rights and comparative public law

Judicial Review Salman Khurshid, Sidharth Luthra, Lokendra Malik, Shruti Bedi, 2020-06-11 In India judicial review is not a static phenomenon It has ensured that the Constitution is the supreme law of the land and in situations when a law impinges on the rights and the liberties of citizens it can be pruned or made void This is a collection of scholarly essays demonstrating the different facets of judicial review based on the vast area of comparative constitutional law Importantly it honours the body of work of Upendra Baxi legal scholar and author whose contributions have shaped our understanding of legal jurisprudence and expanded the scope of social transformation in India This volume recognizes his role as an Indian jurist Various constitutional law experts come together to reflect on his expositions on the role of the apex court judicial activism accountability of judiciary laws on surrogacy and adultery and so on

Debating Judicial Appointments in an Age of Diversity Graham Gee, Erika Rackley, 2017-09-11 What should be the primary goals of a judicial appointments system and how much weight should be placed on diversity in particular Why is achieving a diverse judiciary across the UK taking so long Is it time for positive action What role should the current judiciary play in the appointment of our future judges There is broad agreement within the UK and other common law countries that diversity raises important questions for a legal system and its officials but much less agreement about the full implications of recognising diversity as an important goal of the judicial appointments regime Opinions differ for example on the methods forms timing and motivations for judicial diversity To mark the tenth anniversary of the creation of the Judicial Appointments Commission JAC in England and Wales this collection includes contributions from current and retired judges civil servants practitioners current and former commissioners on the JAC and leading academics from Australia Canada South Africa and across the UK Together they provide timely and authoritative insights into past current and future debates on the search for diversity in judicial appointments Topics discussed include the role and responsibility of independent appointment bodies assessments of the JAC's first ten years appointments to the UK Supreme Court the pace of change definitions of merit and diversity mandatory retirement ages the use of ceiling quotas and the appropriate role of judges and politicians in the appointments process

The Limits of Judicialization Sandra Botero, Daniel M. Brinks, Ezequiel A. Gonzalez-Ocantos, 2022-08-25 Latin America was one of the earliest and most enthusiastic adopters of what has come to be known as the judicialization of politics the use of law and legal institutions as tools of social contestation to curb the abuse of power in government resolve policy disputes and enforce and expand civil political and socio economic rights Almost forty

years into this experiment *The Limits of Judicialization* brings together a cross disciplinary group of scholars to assess the role that law and courts play in Latin American politics Featuring studies of hot button topics including abortion state violence judicial corruption and corruption prosecutions this volume argues that the institutional and cultural changes that empowered courts what the editors call the judicialization superstructure often fall short of the promise of greater accountability and rights protection Illustrative and expansive this volume offers a truly interdisciplinary analysis of the limits of judicialized politics

Constitutional Politics and the Judiciary Kálmán Pócza, 2018-11-19 Recent confrontations between constitutional courts and parliamentary majorities for example in Poland and Hungary have attracted international interest in the relationship between the judiciary and the legislature in Central and Eastern European countries Several political actors have argued that courts have assumed too much power after the democratic transformation process in 1989 1990 These claims are explicitly or implicitly connected to the charge that courts have constrained the room for manoeuvre of the legislatures too heavily and that they have entered the field of politics Nevertheless the question to what extent has this aggregation of power constrained the dominant political actors has never been examined accurately and systematically in the literature The present volume fills this gap by applying an innovative research methodology to quantify the impact and effect of court s decisions on legislation and legislators and measure the strength of judicial decisions in six CEE countries
