K. Chesterton,2019-11-19 In *Fancies Versus Fads* G

G.K. Chesterton embarks on a spirited exploration of the conflicting nature of human thought wherein he juxtaposes whimsical fancy with the rigid dogmas of contemporary fads. Through a series of essays Chesterton employs his characteristic wit and keen insight to examine various cultural and philosophical trends of early 20th century England. His prose is marked by an engaging conversational tone and rich imagery blending humor with profound social critique making this work a compelling commentary on the complexities of modern life. The essays weave through musings on art, religion, and the absurdity of certain societal norms situating Chesterton firmly within the literary canon of the period as both a critic and a celebrant of life's eccentricities. G.K. Chesterton, a prolific writer and influential philosopher, is often recognized for his paradoxical views and advocacy for the joy of the ordinary. His experiences as a journalist and a public thinker during a time of rapid change in Victorian society likely inspired his exploration of fancies versus fads. An ardent defender of traditional values amid the encroaching modernist sentiments, Chesterton's works reveal his deep understanding of human nature informed by his Catholic faith and personal convictions. Readers seeking an intellectually stimulating yet humorously introspective examination of culture will find *Fancies Versus Fads* to be an enriching read. Chesterton's incisive observations encourage reflection on our own beliefs and the ephemeral nature of societal trends, making this book a timely invitation to cherish the authenticity of human experience over the superficialities of modernity.

**Mickey7** Edward Ashton, 2022-02-15 Now experience where the hit movie from Academy Award winning director Bong Joon Ho starring Robert Pattinson started in *Mickey7*, the inspiration for the film *Mickey 17*. Dying isn't any fun, but at least it's a living. Mickey Barnes is an Expendable, a disposable employee on a human expedition sent to colonize the ice world Niflheim. Whenever there's a mission that's too dangerous, even suicidal, the crew turns to Mickey. After one iteration dies, a new body is regenerated with most of his memories intact. After six deaths, Mickey7 understands the terms of his deal and why it was the only colonial position unfilled when he took it. On a routine scouting mission, Mickey7 goes missing and is presumed dead. By the time he returns to the colony base, surprisingly helped back by native life, his fate has been sealed. There's a new clone, Mickey8, reporting for Expendable duties, and there can only be one Expendable. If Mickey7 reports his survival to Command, one of them is going into the recycler. If he doesn't, and they're caught, they both are. Meanwhile, life on Niflheim is getting worse. The atmosphere is unsuitable for humans, food is in short supply, and terraforming is going poorly. The native species are growing curious about their new neighbors, and that curiosity has Commander Marshall very afraid. Ultimately, the survival of both lifeforms will come down to Mickey7. That is, if he can just keep from dying for good.
