Shapiro convincingly dispels many conventional assumptions about the 1925 Scopes monkey trial Most view it as an event
driven primarily by a conflict between science and religion Countering this Shapiro shows the importance of timing the
Scopes trial occurred at a crucial moment in the history of biology textbook publishing education reform in Tennessee and
progressive school reform across the country He places the trial in this broad context alongside American Protestant
antievolution sentiment and in doing so sheds new light on the trial and the historical relationship of science and religion in
America For the first time we see how religious objections to evolution became a prevailing concern to the American
textbook industry even before the Scopes trial began Shapiro explores both the development of biology textbooks leading up

to the trial and the ways in which the textbook industry created new books and presented them as responses to the trial Today the controversy continues over textbook warning labels making Shapiro's study particularly as it plays out in one of America's most famous trials an original contribution to a timely discussion

Warlord Democrats in Africa Anders Themnér, 2017-04-15 Post war democratization has been identified as a crucial mechanism to build peace in war ridden societies supposedly allowing belligerents to compete through ballots rather than bullets A byproduct of this process however is that military leaders often become an integral part of the new democratic system using resources and networks generated from the previous war to dominate the emerging political

landscape The crucial and thus far overlooked question to be addressed therefore is what effect the inclusion of ex militaries into electoral politics has on post war security Can warlord democrats make a positive contribution by shepherding their wartime constituencies to support the building of peace and democracy or are they likely to use their electoral platforms to sponsor political violence and keep war affected communities mobilized through aggressive discourses This important volume containing a wealth of fresh empirical detail and theoretical insight and focussing on some of Africa s most high profile political figures from Paul Kagame to Riek Machar to Afonso Dhlakama represents a crucial intervention in the literature of post war democratization Annual Report of the Secretary to the Board of Regents of the University of California ,1894 *2012-2013 College Admissions Data Sourcebook Southeast Edition* , Annual Report of the Secretary to the Board of Regents University of California, Berkeley.
