## **Jung And The Story Of Our Time:**

*Jung and the Story of Our Time* Laurens van der Post, 1976-10-12 The fascination of Jung is inescapable and van der Post has given us an excellent book eloquent learned and most impressive in its evocation of a devilishly provocative man The Nation That Laurens van der Post should have chosen to write about Jung will come as no surprise to the millions of people who saw the three television programs that he devoted to the story of Jung's life and work Indeed part of the compulsion for putting the experience of his extraordinarily fruitful friendship with Jung into book form was precisely that the limitations of a single film sequence left him with the insistent feeling of a challenge only partially met To present Jung as he knew him not Jung the psychologist but rather Jung the man the discoverer and explorer of a new dimension in the human spirit was the task which Laurens van der Post set himself and which has taken his special gifts to accomplish **Jung** Laurens VanDerPost, 1983 *Jung and the Story of Our Time* Laurens Van Der Post, 2002 Recounts the life and career of the great psychiatrist C G Jung his conversations with the author a longtime friend and the importance of his theories and writings to contemporary humanity *Jung's Red Book for Our Time: Searching for Soul In the 21st Century* Murray Stein, 2022-12-10 Do we like Jung need to leave the spirit of the time and follow the spirit of the depths to call out my soul where are you through the windows of our now post modern homes We live in a digital world of incredible virtual inter connectedness but at the same time fragmented and divided on many levels including the psychological The pace of life is rapid and ever accelerating The spirit of the time is flux It twitters There is no sense of coherence in the whole The guidance of a transcendent North Star is invisible to the naked eye of consciousness Our existential crisis is not about the individual alone It infects the entire human world like the Covid 19 pandemic Wars between cultural brothers and sisters increasingly dire effects of climate change economic disruptions hunger migration these conditions affect everyone on the planet Is there a spirit of the depths that can take us through this Inferno perhaps toward the emergence of a meaningful narrative that can stabilize the global community and provide a collective sense of supreme meaning This is the search for soul in the 21st Century **Jung's Red Book for Our Time** Murray Stein , Thomas Arzt, 2021-09-25 The spiritual malaise regnant in today's disenchanted world presents a picture of a polar night of icy darkness as Max Weber wrote already a century ago This collective dark night of the soul is driven by climate change related disasters rapid technological innovations and opaque geostrategic realignments In the wake of what policy analysts refer to as Westlessness the post modern age is characterized by incessant distractions urgent calls to responsibility and inhumanly short deadlines which result in a general state of exhaustion and burnout The hovering sense of living in a time frame that is post histoire induces states of confusion on a personal level as well as in the realm of politics Totally missing is a grand narrative to guide humanity's vision in the midst of a world crisis Thinkers scholars and Jungian analysts are increasingly looking to C G Jung's monumental oeuvre The Red Book as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus

The essays in this series on Jung's Red Book for Our Time Searching for Soul under Postmodern Conditions circle around this objective and offer countless points of entry into this inspiring work **Evolutionary Intelligence** Rolf W. Frohlich, 2009-04

Human nature holds the intelligence of life It provides a psychology that is much stronger more effective and more reliable than the psychology society teaches us This psychology taps into the evolutionary survival experience of our species which occupied most of human history It was the period when the species evolved and our ancestor survived as a hunter and gatherer More than 99% of human history is encoded in the DNA of our genes and lastingly etched into the human psyche Our natural psychology the human psyche is the result of evolutionary adaptation The psyche provides the genetic capacity for behavioral mental and spiritual adaptation It supports the gratification of our needs And it contains the blueprint of human life The book is about human nature and human survival Human nature that is the human psyche has survival value The book introduces a metapsychology that refers to the Jungian archetypes and the survival capabilities inherent in the psyche Like all living organisms and forms of life we possess an innate capacity for survival By awakening this evolutionary intelligence we gain access to the primordial power and wisdom of the archetypal psyche This innate psychology transcends the cultural conditioning that has shaped us all and erects an entirely different reference system making us look at life in a new way We live in a world that reflects human nature and we are well equipped to survive in it Beyond that there is also something in us that resonates with a larger context Our psychological constitution relates us to the outer realities of nature and cosmos It is in this sense that we partake in the evolution of life on this planet and in the larger design of a cosmic universe This primary psyche is shared by all humanity as part of a common biological and psychological history The Bollingen Tower: Constructing a Jungian Sense of Place Martin Gledhill, 2025-10-14 Offering a novel conceptual methodology where Jungian psychology is used to analyse Jung's own architecture this book offers an innovative reading of Jung's Bollingen Tower in order to explore a Jungian sense of place situating it within a wider examination of the psychic places that influenced his work Representing the first comprehensive study of Jung's building activities the chapters illuminate the wider purpose of architecture as a reflection of self and a means to belong in the world Using the author's own fieldwork interviews with descendants and detailed analysis of Jung's autobiography and copious writings drawn from his own imagination and psyche chapters explore themes such as the relationship between psyche and geometry the idea of psychic place and inner and outer in analytical psychology In discussing the legacy and the predominance of Bollingen Tower as the defining spatial motif of Jung's psychological system the chapters also cover comparisons with Marie Louise von Franz's Tower and Christiana Morgan's Tower The author's own background as an award winning architect alongside a lifelong study of analytical psychology makes him uniquely placed to shed light on this as yet underexplored area of study The book opens up interdisciplinary dialogues and provides a broader context for understanding the relationship between the environment and the psyche It will therefore be of interest to scholars and postgraduate students in the fields of Jungian and analytical

**Beyond Coincidence** Martin Plimmer, Brian King, 2007-07-10 From magic and religion to subatomic particles and probability a look at the baffling complexities of coincidence recounts more than two hundred bizarre stories of synchronicity [Gurdjieff Was Wrong But His Teaching Works](#) Orest Stocco, 2016-02-07 Gurdjieff was wrong but his teaching works is the story of one man's remarkable journey of self discovery which dispels the Gurdjieffian premise that man is not born with an immortal soul With his own quest Orest Stocco illustrates that we are all born with a spark of divine consciousness but not until we take evolution into our own hands which Gurdjieff's teaching helped him to do will we realize our true self

**The Lion that Swallowed Hemingway** Orest Stocco, 2014-07-06 The saddest people in the world are those that have been brought as far as life can take them in the evolution of their individuality because the longing in their soul for wholeness and singleness of self cannot be satisfied by life and one does not know what to do to fill the hollow in their soul and be the person they are destined to be like my high school hero Ernest Hemingway No matter how much life he experienced he never seemed to get enough of it like marlin fishing in the Gulf Stream which so tested his manhood that he had to prove himself over and over and over again and in the process winning trophies and adulation that fed his massive ego which in turn demanded more attention a never ending cycle that drove the great author to despair and

suicide     *DEATH THE FINAL FRONTIER* Orest Stocco,2016-11-26 Despite my Roman Catholic faith growing up when I encountered the doctrine uttered in secret I felt an immediate attraction to it and although it threw my Christian faith into confusion I pursued the doctrine of reincarnation And the more I read on reincarnation the more convinced I was that when we die we come back to live life over again and my concern then became why do we come back to live life over again Chapter 13 MY REGRESSION TO THE BODY OF GOD     **The One Mind** Matthew A. Fike,2013-10-08 The One Mind C G Jung and the Future of Literary Criticism explores the implications of C G Jung s unus mundus by applying his writings on the metaphysical the paranormal and the quantum to literature As Jung knew everything is connected because of its participation in universal consciousness which encompasses all that is including the collective unconscious Matthew A Fike argues that this principle of unity enables an approach in which psychic functioning is both a subject and a means of discovery psi phenomena evoke the connections among the physical world the psyche and the spiritual realm Applying the tools of Jungian literary criticism in new ways by expanding their scope and methodology Fike discusses the works of Hawthorne Milton Shakespeare Wordsworth and lesser known writers in terms of issues from psychology parapsychology and physics Topics include the case for monism over materialism altered states of consciousness types of psychic functioning UFOs synchronicity and space time relativity The One Mind examines Goodman Brown s dream Adam s vision in Paradise Lost the dream sequence in The Wanderer the role of metaphor in Robert A Monroe s metaphysical trilogy Orfeo Angelucci s work on UFOs and the stolen boat episode in Wordsworth s The Prelude The book concludes with case studies on Robert Jordan and William Blake Considered together these readings bring us a significant step closer to a unity of psychology science and spirituality The One Mind illustrates how Jung s writings contain the seeds of the future of literary criticism Reaching beyond archetypal criticism and postmodern theoretical approaches to Jung Fike proposes a new school of Jungian literary criticism based on the unitary world that underpins the collective unconscious This book will appeal to scholars of C G Jung as well as students and readers with an interest in psychoanalysis literature literary theory and the history of ideas     Demystifying Meaningful Coincidences (Synchronicities) Gibbs A. Williams,2010-02-15 Demystifying Meaningful Coincidences Synchronicities The Evolving Self the Personal Unconscious and the Creative Process offers an original theory of the nature of meaningful coincidences synchronicities and their practical use from a naturalistic nonsupernatural and non Jungian perspective The findings are the outgrowth of Gibbs A Williams s forty year investigation both as a professional observer of some of his synchronicity prone patients receiving psychoanalytic psychotherapy as well as of his own intimate experience of these intellectually challenging and emotionally powerful occurrences His naturalistic perspective is in marked contrast to the findings of Jung and his followers who view these odd events as channeled messages from a transcendent realm of spiritual reality Instead Williams concludes that meaningful coincidences are the surface manifestations of an individual s unique creative process accommodating the best available resolution of a problem for a person initially feeling stuck in a

seemingly intractable dilemma While his analysis robs the magic associated with only reacting to the numinous uncanny aura associated with synchronicities it nevertheless affirms a wondrous appreciation for the creative capacities of each person to order his or her own chaos Readers are treated to a rich mine of historical data novel concepts and theoretical insights drawn from speculative philosophy depth psychology and esoteric occult and spiritual traditions and they are shown how to decode their own synchronicities in order to be able to use their embedded messages for increased self awareness cohesiveness and expanding consciousness     Anima and Africa Matthew A.
