Junior Achievement Economics For Success Workbook:

Teachers Can Be Financially Fit Tawni Hunt Ferrarini, M. Scott Niederjohn, Mark C. Schug, William C. Wood, 2020-08-11

This book uses relatable case studies to dispense practical financial advice to educators. Written by an expert team of four award-winning economics educators, the book provides an engaging narrative specifically designed for teachers and their unique financial needs. Educators are attracted to the teaching profession for numerous reasons. Prospective teachers enter the profession believing it offers a certain level of job security and good benefits, usually including a defined benefit state-funded pension. But things are changing. Pensions vary widely from state to state and even within school districts. Many private schools do not offer even basic 403(b) saving plans, and when they do, they are often not very generous. Much the same can be said of many charter schools and private colleges and universities. The book consists of fourteen chapters covering a comprehensive group of topics specifically curated for educators teaching at the K-12 and university level, including saving for retirement, managing debt, investment strategies, and real estate. Each chapter begins with a case study of an educator in a specific financial situation, which sets the scene for the introduction and explanation of key concepts. The chapters include a Q & A section to address common questions and conclude with a Financial 911 focusing on a financial emergency related to the chapter topic.

Teen Success In Career & Life Skills Carl Sommer, 2025-01-01. Teen Success in Career Life Skills offers no nonsense guidance to help young adults succeed academically, professionally, and personally. Written by Carl Sommer, a former U.S. Marine educator and business leader, this book blends real-world advice with inspiring stories and hard truths. It challenges teens to take responsibility, avoid destructive choices, and develop the character and grit needed to thrive in today's fast-changing world. Packed with practical tips on education, career planning, finances, and leadership, this book is an empowering roadmap for teens who want to build a meaningful and successful life.

Resources in Education, 1998

Reforming Economics and Economics Teaching in the Transition Economies Michael Watts, William B.

Walstad, 2002-01-01. The volume is of greatest interest to those pursuing issues of the implementation of economics education and its impact at an elementary level on economic understanding and attitudes. Through generally careful statistical analysis, it shows what can be done even in a most difficult environment, as well as the constraints on change imposed by Soviet legacies. It is a valuable addition to the literature on economics pedagogy. Richard E. Ericson, Slavic Review. This comprehensive and impressive volume presents the first book-length, multi-country investigation of reform of economic education in transition economies. Authors from the West and from transition economies describe the major changes in economics content and instruction that occurred in schools and universities throughout nations in Eastern and Central Europe and the former Soviet Union from 1989 to 2000.
