**Landscape and Race in the United States** Richard H. Schein, 2006 Landscape and Race in the United States is the definitive volume on racialized landscapes in the United States Edited by Richard Schein each essay is grounded in a particular location but all of the essays are informed by the theoretical vision that the cultural landscapes of America are infused with race and America s racial divide While featuring the black white divide the book also investigates other social landscapes including Chinatowns Latino landscapes in the Southwest and white suburban landscapes The essays are accessible and readable providing historical and contemporary coverage *The Department of Transportation's Disadvantaged Business Enterprise Program* United States. Congress. House. Committee on Transportation and

Infrastructure,2009 *Test-Driving the Future* Diane Michelfelder,2022-09-12 As the development of autonomous vehicles proceeds full speed ahead it is often said that this new disruptive form of transportation will change everything Such a claim has drawn both philosophical and public attention to what could be called ethical emergencies imaginary situations ranging from life or death trolley problem conundrums to large scale cyber attacks on mobility networks This perspective puts other important but less dramatic ethical dilemmas connected with driverless vehicles at risk of being underexplored or simply ignored The primary focus of the original essays collected together in this volume shifts to considering these issues ones arising out of more everyday human autonomous vehicle relations and encounters Topics investigated range from how driverless vehicles ethically affect what it is to be a pedestrian to how they could inspire more opportunities for social justice along with a consideration of the need for policy makers to look at the softer impacts of driverless cars Overall this volume contributes to defining a new area of exploration connected to the ethics of driverless vehicles one that should appeal not only to philosophers of technology but to engineering designers regulators and urban planners as well Contributors Jason Borenstein Jeremy Carp Shane Epting Sven Ove Hansson Joseph Herkert Ike Kamphof Robert Kirkman Diane Michelfelder Keith Miller Sven Nyholm Robert Rosenberger Patrick Schmidt Tsjalling Swierstra and Galit Wellner [The Blackwell Companion to Social Inequalities](#) Mary Romero,Eric Margolis,2008-04-15 The Blackwell Companion to Social Inequalities is a first rate collection of social science scholarship on inequalities emphasizing race ethnicity class gender sexuality age and nationality Highlights themes that represent the scope and range of theoretical orientations contemporary emphases and emerging topics in the field of social inequalities Gives special attention to debates in the field developing trends and directions and interdisciplinary influences in the study of social inequalities Includes an editorial introduction and suggestions for further reading

**The Smell of Risk** Hsuan L. Hsu,2020-12-15 A timely exploration of how odor seeps into structural inequality Our sense of smell is a uniquely visceral and personal form of experience As Hsuan L Hsu points out smell has long been spurned by Western aesthetics as a lesser sense for its qualities of subjectivity volatility and materiality But it is these very qualities that make olfaction a vital tool for sensing and staging environmental risk and inequality Unlike the other senses smell extends across space and reaches into our bodies Hsu traces how writers artists and activists have deployed these embodied biochemical qualities of smell in their efforts to critique and reshape modernity's olfactory disparities The Smell of Risk outlines the many ways that our differentiated atmospheres unevenly distribute environmental risk Reading everything from nineteenth century detective fiction and naturalist novels to contemporary performance art and memoir Hsu takes up modernity's differentiated atmospheres as a subject worth sniffing out From the industrial revolution to current day environmental crises Hsu uses ecocriticism geography and critical race studies to for example explore Latinx communities exposed to freeway exhaust and pesticides Asian diasporic artists response to racialized discourse about Asiatic odors and the devastation settler colonialism has reaped on Indigenous smellscape In each instance Hsu demonstrates the violence

that air maintenance control and conditioning enacts on the poor and the marginalized From nineteenth century miasma theory theory to the synthetic chemicals that pervade twenty first century air Hsu takes smell at face value to offer an evocative retelling of urbanization public health and environmental violence **Running on Empty** Karen

Lucas,2004-10-13 The lack of access to transportation among low income groups is increasingly being recognised as a barrier to employment and social inclusion both in Britain and the United States This work looks at the delivery of transport from a social policy perspective to assist in a better understanding of this issue Environmental Sociology Leslie

King,Deborah McCarthy Auriffeille,2013-07-29 Environmental Sociology encourages students to use the sociological imagination to explore a broad spectrum of issues facing the environment today The third edition of this reader includes an updated introduction and thirteen new pieces that examine how social dimensions particularly power and inequality interact with environmental issues *Greening Post-Industrial Cities* Corina McKendry,2017-09-22 City greening has been heralded

for contributing to environmental governance and critiqued for exacerbating displacement and inequality Bringing these two disparate analyses into conversation this book offers a comparative understanding of how tensions between growth environmental protection and social equity are playing out in practice Examining Chicago USA Birmingham UK and Vancouver Canada McKendry argues that city greening efforts were closely connected to processes of post industrial branding in the neoliberal economy While this brought some benefits concerns about the unequal distribution of these benefits and greening s limited environmental impact challenged its legitimacy In response city leaders have moved toward initiatives that strive to better address environmental effectiveness and social equity while still spurring growth Through an analysis that highlights how different varieties of liberal environmentalism are manifested in each case this book illustrates that cities though constrained by inconsistent political will and broader political and economic contexts are making contributions to more effective socially just environmental governance Both critical and hopeful McKendry s work will interest scholars of city greening environmental governance and comparative urban politics *Technology and the*

*African-American Experience* Bruce Sinclair,2004 The intersection of race and technology blackcreativity and the economic and social functions of the myth ofdisengenuity Mobile Technologies of the City Mimi Sheller,John Urry,2006-04-18

Mobile communications technologies are taking off across the world while urban transportation and surveillance systems are also being rebuilt and updated Emergent practices of physical informational and communicational mobility are reconfiguring patterns of movement co presence social exclusion and security across many urban contexts This book brings together a carefully selected group of innovative case studies of these mobile technologies of the city tracing the emergence of both new socio technical practices of the city and of a new theoretical paradigm for mobilities research **Pacific Automobilmism** Gijs

Mom,2022-09-13 The beginning of the 21st century has seen important shifts in mobility cultures around the world as the West s media driven car culture has contrasted with existing local mobilities from rickshaws in India and minibuses in Africa

to cycling in China In this expansive volume historian Gjis Mom explores how contemporary mobility has been impacted by social political and economic forces on a global scale as in light of local mobility cultures the car as an adventure machine seems to lose cultural influence in favor of the car s status character

**Dumping In Dixie** Robert D. Bullard,2008-03-31 To be poor working class or a person of color in the United States often means bearing a disproportionate share of the country s environmental problems Starting with the premise that all Americans have a basic right to live in a healthy environment Dumping in Dixie chronicles the efforts of five African American communities empowered by the civil rights movement to link environmentalism with issues of social justice In the third edition Bullard speaks to us from the front lines of the environmental justice movement about new developments in environmental racism different organizing strategies and success stories in the struggle for environmental equity

*Advanced Introduction to Mobilities* Mimi Sheller,2021-03-26 Leading mobilities theorist Mimi Sheller offers an up to date comprehensive analysis of the complex mobility disruptions of the Covid 19 pandemic and its aftermath in this timely *Advanced Introduction* It outlines the formation of the interdisciplinary field of mobility studies arguing that mobilities theory is crucial to planning post pandemic recovery sustainable communities and low carbon transitions From tourism to migration to urban infrastructure to informal and reproductive mobilities Sheller reveals how multiple im mobilities are interconnected as the novel coronavirus reminds us as it hitchhikes across the globe through its human hosts
