Identity and Difference Martin Heidegger, 2002-06 Identity and Difference consists of English translations and the original German versions of two little known lectures given in 1957 by Martin Heidegger The Principle of Identity and The Onto theo logical Constitution of Metaphysics Both lectures discuss the difficult problem of the nature of identity in the history of metaphysics A helpful introduction and a list of references are also provided by the translator Joan Stambaugh

Identity and Difference Philip T. Grier, 2012-02-01 Identity and difference or sameness and otherness are contrasting but interrelated terms that have played an explicit role in the development of Western philosophy at least since Plato wrote the Sophist As Plato pointed out then and Hegel reiterated more recently in his Science of Logic the proper comprehension of these terms and particularly of their interrelation plays a fundamental role in shaping our conception of philosophical reason itself The contributors in this book examine Hegel s treatment of these terms and the role they play in structuring his

philosophical system as a whole and also in shaping his conception of dialectical reasoning *Identity and Difference* Philip T. Grier, 2008-06-05 Contributors draw on Hegel s account of identity and difference to challenge conventional theories of identity

Identity and Difference Rafael Winkler, 2017-01-10 This book provides a persuasive account of how identity and difference factor in the debate on the self in the humanities It explores this topic by applying the question to fields such as philosophy cultural studies politics and race studies Key themes discussed in this collection include authenticity in Michel de Montaigne s essays the limits of the narrative constitution of the self the use and abuse of the notion of human nature in political theory and in the current political context of multiculturalism and the feminist notion of the erotic and of sexual violence This book will appeal to readers with an interest in new perspectives on the self within the humanities Identity

Hekman, 1999 This study focuses on a set of issues at the forefront of feminist thought in the late 1990s identity difference and their implications for feminist politics As feminism moves into an era in which differences among women the multiple identities of woman and identity politics are all at the centre of feminist discussions new approaches methods and politics are called for *Essay on Human Reason: On the Principle of Identity and Difference* Nikola Stojkoski, 2018-03-15 The nature of

human reason is one of the thorniest of mysteries in philosophy The reason appears in many specific forms within general areas such as cognition thinking experiencing beauty and moral judgment These forms are perfectly known in philosophy yet an unknown pattern has been noticed which shows us that they are all a variation of the same theme truth is an identity relation between the thought and reality justice is an identity relation between the given and the deserved beauty is an identity relation as rhyme is an identity relation between the final sounds of words rhythm is an identity relation between time intervals symmetry is an identity relation between two halves proportion is an identity relation between two ratios anaphora is an identity relation between the initial words Particular things are identities in themselves and universals are

identities between particulars One idea associates another idea identical to it an analogy is an identity between relations induction is an identification between the known and unknown instances and all the logic rests on the law of identity What is common for all of them is the nature of reason itself Identity, Difference William E. Constitutionalism, Identity, Difference, and Legitimacy Michel Rosenfeld, 1994 Interest in constitutionalism and in the relationship among constitutions national identity and ethnic religious and cultural diversity has soared since the collapse of socialist regimes in Eastern Europe and the former Soviet Union Since World War II there has also been a proliferation of new constitutions that differ in several essential respects from the American constitution These two developments raise many important questions concerning the nature and scope of constitutionalism The essays in this volume written by an international group of prominent legal scholars philosophers political scientists and social theorists investigate the theoretical implications of recent constitutional developments and bring useful new perspectives to bear on some of the longest enduring questions confronting constitutionalism and constitutional theory Sharing a common focus on the interplay between constitutional identity and individual or group diversity these essays offer challenging new insights on subjects ranging from universal constitutional norms and whether constitutional norms can be successfully transplanted between cultures to a consideration of whether constitutionalism affords the means to reconcile a diverse society's quest for identity with its need to properly account for its differences from the relation between constitution making and revolution to that between collective interests and constitutional liberty and equality This collection's broad scope and nontechnical style will engage scholars from the fields of political theory social theory international studies and law Contributors Andrew Arato Aharon Barak Jon Elster George P Fletcher Louis Henkin Arthur J Jacobson Carlos Santiago Nino Ulrich K Preuss David A J Richards Michel Rosenfeld Dominique Rousseau Andr s Saj Frederick Schauer Bernhard Schlink M M Slaughter Cass R Sunstein Ruti G Teitel Robin West **Identity/Difference Politics** Rita Dhamoon, 2010-01-01 Theories of liberal multiculturalism have come to dominate debates about identity and difference politics in recent contemporary western political theory This book offers a nuanced critique of these debates by questioning liberal multiculturalism's preoccupation with culture and just as important its unintended consequences Identity Difference Politics switches the focus from culture to power Issues of power are examined through accounts of meaning making those processes through which meanings of difference are produced organized and regulated Other forms of identity difference such as whiteness ableism gender and heteronormativity establish the analytic and normative value of Dhamoon's alternative theoretical framework and reveal that an exclusive preoccupation with culture can dissolve into essentialism which too often provides a rationale for state regulation of groups deemed to be too different Students of contemporary political theory multiculturalism identity politics Canadian politics and culture disability studies critical race theory and feminist and gender theory will find it an invaluable resource Multiculturalism, Identity and Rights Bruce Haddock, Peter Sutch, 2004-06-02 This innovative volume brings a

selection of leading political theorists to the debate on multiculturalism and political legitimacy and confronts issues including rights liberalism cultural pluralism and power relations Identity and Difference Rafael Winkler,2019 This collection reflects recent discussions on the relation between identity and difference in metaphysics and in moral and political theory in both the analytic and continental traditions The contributions to the volume tackle such issues as the role and place of the concept of identity in Hegel s Science of Logic the question of personal identity in Parfit Riceour and Schechtman the problem of inclusion and exclusion in Heidegger s reading of the history of philosophy Heidegger s conception of the relation between philosophy and politics the question of alterity in Levinas and Foucault s conception of the relation between sexual instinct economic interest and desire This book was originally published as a special issue of the Journal of the British Society for Phenomenology Provided by publisher **Hegel and the Problem of Multiplicity** Andrew Haas,2000-01-25 What could the term multiplicity mean for philosophy Haas contends that modern understandings of the concept are either Aristotelian or Kantian The Hegelian concept of multiplicity Haas suggests is opposed to both or supersedes them *The Theory of Knowledge* Leonard Trelawny Hobhouse,1896 Urbicide Martin Coward,2008-09-30 The term urbicide became popular during the 1992 95 Bosnian war as a way of referring to widespread and deliberate destruction of the urban environment Coined by writers on urban development in America urbicide captures the sense that the widespread and deliberate destruction of buildings is a distinct form of violence Using Martin Heidegger s notion of space and Jean Luc Nancy s idea of community Martin Coward outlines a theoretical understanding of the urban condition at stake in such violence He contends that buildings are targeted because they make possible a plural public space that is contrary to the political aims of ethnic nationalist regimes Illustrated with reference to several post Cold War conflicts including Bosnia Chechnya and Israel Palestine this book is the first comprehensive analysis of organised violence against urban environments It offers an original perspective to those seeking to better understand urbanity political violence and the politics of exclusion **Hegel on Possibility** Nahum Brown,2020-02-20 Providing a clear interpretation of Hegel s characterizations of possibility and actuality in the Science of Logic this book departs from the standard understandings of these concepts to break new ground in Hegelian scholarship The book draws out some of the implications of Hegel s view of immanent possibility especially as it relates to Leibniz s thesis of modal optimism his view that this world is the best of all possible worlds Reading Hegel as a philosopher of possibility against a tradition that has conceived of him primarily as a philosopher of necessity rationality and finitude Nahum Brown demonstrates the historical background and philosophical traditions from which Hegel s concept of possibility emerges Systematically outlining Hegel s conceptions of positive and negative freedom Brown reveals the Hegelian underpinnings of our conception of reality and what it is to be in the world itself Original and convincing this book is crucial for philosophers approaching modality from any tradition **Nothing Outside** Luís César Nunes, **A Democratic Enlightenment** Morton Schoolman,2020-04-03 In A Democratic

Enlightenment Morton Schoolman proposes aesthetic education through film as a way to redress the political violence inflicted on difference that society constructs as its racialized gendered Semitic and sexualized other Drawing on Voltaire Diderot and Schiller Schoolman reconstructs the genealogical history of what he calls the reconciliation image a visual model of a democratic ideal of reconciliation he then theorizes through Whitman s prose and poetry and Adorno s aesthetic theory Analyzing The Help 2011 and Gentleman s Agreement 1947 Schoolman shows how film produces a more advanced image of reconciliation than those originally created by modernist artworks Each film depicts violence toward racial and ethnic difference while also displaying a reconciliation image that aesthetically educates the public about how the violence of constructing difference as otherness can be overcome Mounting a democratic enlightenment the reconciliation image in film illuminates a possible politics for challenging the rise of nationalism s violence toward differences in all their diversity
