Multiple Sclerosis Rosalind C. Kalb, 1998 This extensively revised and updated edition of Multiple Sclerosis is a comprehensive discussion of the impact of multiple sclerosis on the family and of the recommended strategies and resources for dealing with the disease It is written for families who are trying to cope with MS yet it is sufficiently comprehensive to be a valuable resource for professionals *Coping with Multiple Sclerosis* Cynthia Benz, Richard Reynolds, 2005 This guide looks at multiple sclerosis in depth from its symptoms and diagnosis to the latest research and most importantly the practicalities of coping with the illness on a day to day basis

Overcoming Multiple Sclerosis George Jelinek, 2010 This book offers real hope for people with multiple sclerosis Multiple sclerosis MS is a serious progressively disabling neurological condition for which current medical treatment is not particularly effective and has many side effects Professor George Jelinek an experienced medical clinician and researcher provides a genuine alternative Through an exhaustive evidence based analysis of medical research Professor Jelinek reached the surprising conclusion that MS is a disease largely determined by lifestyle factors He has demonstrated that people with MS who modify their diet exercise habits and other aspects of lifestyle can stabilise the illness and potentially recover Professor Jelinek's experience with his mother's death from MS and his own diagnosis in 1999 lend an urgency and compassion to this meticulous work

Professor Jelinek's recommendations will change the lives of thousands of people with MS and support their loved ones

Multiple Sclerosis, 2001 **Multiple Sclerosis** Rosalind Kalb, 1996 In question and answer format this book is the definitive guide for everyone concerned with multiple sclerosis *Fighting Ms* Erin Morrow Still, Erin Morrow Still & Friends, 2009-11 In the spring 1999 at eighteen years old I was diagnosed with Multiple Sclerosis The idea of a newly diagnosed book that focused on wellness began once I finally got my MS under control It took four long years of understanding what my body needed to be healthy while experiencing life as a college student at Appalachian State University I found myself searching for a wellness summary of multiple sclerosis Why couldn't I find everything I needed in one place This idea seemed like something most newly diagnosed individuals would have already asked for but it was nowhere to be found I didn't want too much information at once only what I needed to start out healthy and stay positive In addition to needing a wellness summary I sought to find other young people who were just beginning life with multiple sclerosis I needed to know people who were positive and could laugh this off with me In 2003 I established my role as an MS patients advocate by founding with the help of the MS Society a young men's and women's group in middle Tennessee Then in 2005 I was awarded the Betaseron Champion of Courage grant to write the book we have all been waiting for a wellness guide to MS for the newly diagnosed Lance Armstrong says it best when he explains why children cope with cancer so much better than adults He says It's a fact that children with cancer have higher cure rates than adults with cancer and I wonder if the reason is their natural unthinking bravery Sometimes little kids seem better equipped to deal with cancer than adults They're very determined little characters and you don't have to give them big pep talks Adults know too much about failure they're more cynical and resigned and fearful Kids say I want to play Hurry up and make me better That's all they want This quote helps me each day and will continue to be my approach to life I will never forget the news of my diagnosis and thinking about how I couldn't wait to get back to school to feel normal again The MS could come along if it wanted to but I was going to get back to life no matter what it took When I was younger I used to love reading Young and Modern or YM to most teenagers There are stories in this magazine under a section called Say Anything and they always made me laugh out loud Of course these were juvenile stories of walking out of the bathroom with your skirt tucked in your tights or something of that nature I realized that there were others out there who had it worse than I did and sadly that always seemed to make me feel better This is why telling our MS stories will help to enable other newly diagnosed individuals not only to begin this journey in a positive state but also to find the strength they need from someone who might have it worse I love my health conscious lifestyle and feeling good about my body so I needed health tips and recipes too Plus I found friends and resources along the way that helped to make this book complete This book is designed to help us join together and find the positive in all we have to face I would like each individual who has been diagnosed with MS to be able to relate to some of the experiences he or she reads in this book and know that we still enjoy wonderful lives even with this heinous disease Reaching out to others and

finding a positive network will help make us all stronger My dream for this manuscript is to be passed along to someone newly diagnosed and let them know that we can beat this disease together I will leave you with a final quote by Lance Armstrong If children have the ability to ignore odds and percentages then maybe we can all learn from them When you think about it what other choice is there but to hope We have two options medically and emotionally give up or fight like hell

Walk of Hope Christine Ganger,2016-10-22 Christine started out life running Active in softball cheerleading and any other sport she could find time to fit in her schedule she trusted her young lean body to carry her through exciting and wonderful adventures But when her body turned on her it would force her to make a critical decision give up or else Christine chose or else and shares her story of a journey into Multiple Sclerosis and her daily decision to survive Giving up was always a temptation because living with MS is a battle that never ends and a body just gets tired Christine shares some very raw and personal moments throughout this book and how she manages to work through them all the while keeping her focus on God s plan for her life and the hope and peace that can be found in Him Walk of Hope reveals the mind and heart of a Multiple Sclerosis survivor and how hope can make the mind and heart overcome the physical body for anyone experiencing similar physical disabilities
