accuracy that it can plot the position of the moon relative to the earth within a few feet Many years of very informal meeting on the subject of lasers in medicine and biology have been sponsored by the Gordon Research Conferences The present book is an outgrowth of the discussions that took place at these meetings although it is in no sense a symposium report

*Ophthalmology* Myron Yanoff, Jay S. Duker, 2009-01-01 Based on feedback the authors have streamlined their bestselling reference to zero in on just the clinical answers ophthalmologists need in day to day practice This new edition presents unparalleled guidance on nearly every ophthalmic condition and procedure Selected References on Design and
