

## WORK SAFELY — FOLLOW THESE RULES

This symbol is used to call your attention to instructions concerning your personal safety. Be sure to observe and follow these instructions.

1. To prevent injury, do not allow children or by-standers around the machine while it is being adjusted and/or serviced.

2. Always use safety stands in conjunction with hydraulic jacks or hoists. Do not rely on the jack or hoist to carry the load, they could fail.

3. Articulated Tractors — Always use the frame lock pin when servicing the tractor in the area of the hinged or pivot point of the frame. The lock pin must be in place when making adjustments with the engine running. The lock pin prevents accidental pivoting of the frame. Always remove the lock pin and store correctly before attempting to steer the tractor.

4. Always wear safety glasses when using a hammer, chisel or other tools that may cause chips to fly.

5. Keep work area organized and clean. Wipe up oil or spills of any kind. Keep tools and parts off of the floor. Eliminate the possibility of a fall which could result in a serious injury.

6. Be sure to reinstall safety devices, guards or shields after adjusting and/or servicing the machine. Also, replace missing or damaged safety and/or instruction decals.

7. After servicing, be sure all tools, parts, or servicing equipment are removed from the machine.

Revised August, 1981

8. When splitting tractors, or disassembling machines, be sure to use safety stands and adequate supports to prevent tipping or rollover.

FCM-8716

9. Use a safety catch on all hoist hooks. Do not take a chance, the load could slip off of the hook.

10. When using an acetylene torch always wear welding goggles and gloves. Keep a "charged" fire extinguisher within reach. Be sure the acetylene and oxygen tanks are separated by a metal shield and are chained to the cart. Do not weld or heat areas near fuel tanks or fuel lines and utilize proper shielding around hydraulic lines.
