Il Capitale E Il Valore Critica Della Economia Marxista:

The History of Italian Marxism Paolo Favilli, 2016-08-15 In The History of Italian Marxism Paolo Favilli offers an articulated analysis of the different levels at which Marx's ideas and Marxism as a doctrinal system were received in Italy from the time of the First International up till the eve of the First World War Rejecting any linear understanding of the relation between Marx's texts and the assumption of Marxism as the ideology of the burgeoning workers movement Favilli explores the growth of different forms of Marxist culture through the period of the Paris Commune the late nineteenth century debate on revisionism and the rise of revolutionary syndicalism Asking in each case whether Marxism meant a science an ideology a way of doing politics a utopia a myth or a religion Favilli goes on to assess which of these Marxisms died with and which have survived the crisis at the end of the twentieth century With a new preface to the English edition First published in Italian as *Storia del marxismo italiano dalle origini alla grande guerra* FrancoAngeli s r l Milan 1996

Economic Crisis and Economic Thought Tommaso Gabellini, Simone Gasperin, Alessio Moneta, 2019-01-23 The ongoing economic crisis has revealed fundamental problems both in our economic system and the discipline which analyses it This book presents a series of contrasting but complementary approaches in economic theory in order to offer a critical toolkit for examining the modern capitalist economy The global economic crisis may have changed the world in which we live but not the fundamental tenets of the discipline This book is a critical assessment of the relation between economic theory and economic crises how intellectual thinking impacts on real economic events and vice versa It aims at challenging the conventional way in which economics is taught in universities and later adopted by public officials in the policymaking process The contributions all written by distinguished academics and researchers offer a heterodox perspective on economic thinking and analysis Each chapter is inspired by alternative theoretical approaches which have been mostly sidelined from current academic teaching programmes A major suggestion of the book is that the recent economic crisis can be better understood by recovering such theoretical analyses and turning them into a useful framework for economic policymaking *Economic Crisis and Economic Thought* is intended as a companion to economics students at the Master's and PhD level in order for them to confront issues related to the labour market the financial sector macroeconomics industrial economics etc with an alternative and complementary perspective It challenges the way in which economic theory is currently taught and offered via alternatives for the future *J.D. Màdera, 2018-02-13T00:00:00+01:00 all'interno del nodo che lega teoria del feticismo e teoria del valore che risiede la fondazione secondo Marx della teoria rivoluzionaria proprio a questo fondamento che deve mirare la critica sotto le vesti della teoria bisogna infatti procedere ormai a fare i conti con il fallimento pratico di un progetto di liberazione che in quanto tale rimasto soltanto una vaga intuizione A cinquant'anni dal 1968 Romano M. dera filosofo e psicoanalista che di quella sinistra extraparlamentare fu una delle anime fondatore del gruppo Gramsci e redattore di Rosso riprende e aggiorna le considerazioni formulate in uno dei suoi più noti scritti post sessantottini Identità e feticismo 1977 per osservare dalla giusta distanza cosa rimasto di quella magnifica illusione Oggi in un mondo dominato da una globalizzazione che affossa le classi subalterne viene da domandarsi se le categorie marxiane non siano divenute radicalmente inadatte con l'insistere sui concetti di classe e di coscienza di classe a descrivere i bisogni qualitativi che in modo confuso magmatico hanno comunque risvegliato una speranza di liberazione dentro la storia contemporanea Hegel e la Germania Domenico

Losurdo, 2024-08-30T00:00:00+02:00 La maturità di Hegel cade nel periodo di più profonda umiliazione della Germania invasa dagli eserciti del paese che con la rivoluzione del 1789 aveva promesso la fraternità tra le nazioni e la pace perpetua Sull'onda della delusione di massa e della conseguente crisi dei miti si sviluppa un movimento che nel condannare l'occupazione napoleonica tende a respingere come estraneo all'anima germanica tutto il patrimonio culturale e politico proveniente dall'Oltreoceano Confrontandosi con queste tendenze nelle quali l'aspirazione progressiva all'indipendenza e la mobilitazione popolare si mescolano a un atteggiamento fondamentalista di chiusura che finirà per convergere con la Restaurazione pur tenendo fermo il diritto all'autodeterminazione e pur cogliendo la novità di questa inusitata costellazione di forze il filosofo si

batte con la sua politica culturale per ridare diritto di cittadinanza in terra tedesca alle idee della rivoluzione francese e alle conquiste della modernità. Si trattava di promuovere su tali basi il superamento dei retaggi feudali e il rinnovamento politico e nazionale del proprio paese e della sua struttura statale. Nel ripercorrere tappa per tappa l'evoluzione di Hegel, Losurdo la inserisce nell'affresco di un appassionato dibattito che vede intervenire i grandi filosofi e i grandi intellettuali: Fichte, Schelling, Schleiermacher, Goethe, Jacobi, Herder, Savigny, Heine, i fratelli Schlegel ecc. i protagonisti della vita politica del tempo; gli autori minori. L'immagine di uno Hegel conservatore tuttora radicata nella storiografia filosofica ne risulta completamente rovesciata.
