### **Curriculum Development for Medical Education**

Patricia A. Thomas, David E. Kern, Mark T. Hughes, Sean A. Tackett, Belinda Y. Chen, 2022-08-30 This book presents a practical framework for the development, implementation, and dissemination of quality health professions curricula. The book is intended for faculty and others who, while content experts, may not have a background in education or implementation science but have an interest or responsibility as educators in their discipline. *Implementation Monitoring and Process Evaluation*

Ruth P. Saunders, 2015-04-01 *Implementation Monitoring and Process Evaluation* by Ruth P. Saunders is a practical guide that helps readers understand and use the steps that program planners and evaluators take in implementing and monitoring a new program, policy, or practice in an organizational setting. The book covers the entire process from planning to carrying out the plan and summarizing, reporting, and using the results. A wide range of real-world examples in the book are drawn from health education, non-profit organizations, and public administration, and an extended case study. Your Turn boxes and worksheet templates help readers apply concepts to their own projects. Ideal for practitioners, researchers, and students, this book can be used as a primary text for a process evaluation or an implementation monitoring course, or as a supplemental text in a broader program evaluation course.

*Instructional Design Exemplars in eHealth and mHealth Education Interventions* Tamim, Suha R., 2022-03-18 The use of eHealth and mHealth interventions for health promotion, health professional education, and health professional support is on the rise. They have a significant potential for learning through their wide reach, ability to tailor to specific needs, and facilitation of engagement, interactivity, and collaboration. Although eHealth and mHealth interventions are invested in quality and effectiveness, they vary in their use of theory and instructional design principles based on the perspectives of the disciplines that can influence their work. *Instructional Design Exemplars in eHealth and mHealth Education Interventions* showcases design exemplars of eHealth and mHealth interventions in health promotion and in education and support of health professionals. These exemplars demonstrate the integration of theory and design principles that benefit health professionals and health education. Covering topics such as healthcare access, instructional technology, and diverse learning experiences, this book is a dynamic resource for health professionals, instructional designers, educators, researchers, hospital administrators, policymakers, researchers, and academicians.
