Development through CPE in Public Health Ira Nurmala, Yashwant V. Pathak, 2019-08-19 The education division is a prominent part of the public health profession. It focuses on educating individuals and communities to promote health and prevent disease. The educators are drawn from a diverse range of disciplines and defined as professionally prepared individuals who serve in a variety of roles using appropriate educational strategies and methods to facilitate the development of policies, procedures, interventions, and systems conducive to the health of individuals. This unique volume in the Global Science Education Series describes some of the challenges faced by this profession in helping the audience to understand public health and solve health issues. Key Features: Aids researchers in designing an evaluation study in CPE for health professions and related fields. Presents data on how public health practice comprises of individuals working together toward promoting population health. Covers continuing professional education in the US and how it can be adopted globally. Discusses the Kirkpatrick's four-level evaluation model at length. Demonstrates how questionnaires are preferable in evaluating CPE programs due to their cost effectiveness and being user friendly.

**Health Promotion for Children and Adolescents** Maya Rom Korin, 2016-08-11 This timely volume surveys the broad spectrum of interventions used in health promotion and shows how they may be tailored to the developmental needs of children and adolescents. Its multilevel lifespan approach reflects concepts of public health as inclusive, empowering, and aimed at long and short-term well-being. Coverage grounds readers in theoretical and ecological perspectives while special sections spotlight key issues in social and behavioral wellness, dietary health, and children and teens in the health care system. And in keeping with best practices in the field, the book emphasizes collaboration with stakeholders, especially with the young clients themselves. Among the topics covered: Child mental health, recent developments with respect to risk, resilience, and interventions; Health-related concerns among children and adolescents with ADD/ADHD; Preventing risky sexual behavior in adolescents; Violence affecting youth, pervasive and preventable; Childhood and adolescent obesity; Well-being of children in the foster care system. **Health Promotion for Children and Adolescents** is a necessary text for graduate or advanced undergraduate courses in public health, education, medicine, psychology, health education, social work, curriculum, nutrition, and public affairs. It is also important reading for public health professionals, researchers in child health, health education, and child psychology, policymakers in education and public health, and teachers.

**Ecological Public Health for Nursing and Health Professionals in the Anthropocene** Alice M.L. Li, 2022-02-14 We are today encountering numerous sustainable health concerns in relation to the existential threats caused by ecological and global changes. This book illustrates the ways in which health is being affected by anthropogenic human impacts on the environment as well as climate change. It highlights synergistic interventional approaches towards sustainable healthcare together with innovative conceptual frameworks and models for facing the changing demands of our health needs under these current epidemiological and health transitions. It also sets out a vision of ecological principles to guide our professional directions with regards to sustainable health developments as legacy-based.

values across generations      *CHES® Exam Review* Elizabeth M.
