Google has reorganized the former AdSense Channels into five basic types of ads: Content, Domains, Feeds, Mobile Content and Search. In addition, Google has tied in game and YouTube advertising into AdSense to make it easier to place ads in online games and YouTube videos. Google also has made it easier and more prominent to enable ad blocking that is to keep certain types of ads or ads from certain advertisers from appearing on your website. Google has also beefed up its AdSense reporting system, increasing the types of reports available and adding a new Overview page that displays key information in a single snapshot.
