Die Slavischen Sprachen / The Slavic Languages. Halbband 1 Sebastian Kempgen, Tilman Berger, Peter Kosta, Karl Gutschmidt, 2009 In many respects the agreement systems of Slavonic languages are close to canonical Controllers of agreement are often present they have overt expression of features and they take consistent agreements The target has obligatory bound expression of agreement and there is matching of features values for person number and gender How ever Slavonic also shows several very interesting instances of agreement choices induced by a range of different controller types These agreement choices provide good evidence for the constraints of the Agreement Hierarchy and the Predicate Hierarchy as well as for various types of condition on agreement notably animacy and precedence

The Oxford Handbook of Names and Naming Carole Hough, 2016-05-03 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought The investigation of name origins is more recent as is the study of names in literature Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades The structure of this volume reflects

the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them

Every Tongue Should Confess that Jesus Christ is Lord Günter Paulus Schiemenz, 2018-07-02 This book is a collection of three papers The first chapter deals with the fate of the sinners in the Last Judgment on Russian icons and in Orthodox wall painting In the second chapter the role of the inscription bands encircling the illustration of Ps 148 1 2 is explored Many of these bands begin with the final verse of the psalter Ps 150 6 The role of this verse in the illustration of the laud psalms is investigated in the last chapter in which the miniature of Ps 150 in the Carolingian Stuttgart psalter is scrutinized It emerges that all three chapters share a common thread Both the Last Judgment composition and the laud psalms illustration serve as tools to convey the very essence of the Christian faith That Jesus Christ is the Lord
