Kren of the Mitchegai Leo Frankowski, Dave Grossman, 2004-03-01 The Virtual Reality Mercenaries of A Boy and His Tank Face a New Menace and There s Nothing Virtual About It First the involuntary colonists of New Kashubia rescued their planet from crushing debt by becoming virtual reality mercenaries then they successfully revolted against the oppressive government of Earth but now they are menaced by the Mitchegai a species whose biology has made them inherently evil The carnivorous adults lay and abandon vast numbers of eggs some of which grow into vegetarian juveniles which are the adults only food supply Their culture has no family life they eat only meat have nothing like sex and their main pleasures are gambling art and killing each other They are an ancient civilization millions of years old with thousands of densely populated star systems in their realm Lacking an immune system they must completely sterilize any planet before they colonize it The region of the galaxy they occupy is rapidly expanding and Human Space is their next frontier At the publisher s request this title is sold without DRM Digital Rights Management Praise for Leo Frankowski and A Boy and His Tank When I teach science fiction I use Frankowski s books as an example of how to do it right Gene Wolfe a literate military adventure laced with political allegory and a great deal of fun Starlog the action is gripping and there are plenty of novel twists and ironic moments Locus A blend of Keith Laumer s Bolos and David Drake s Slammers Science Fiction Chronicle *Conrad's Lady* Leo Frankowski, 2005-12-01 One moment Conrad Schwartz was suffering from a severe hangover as he hiked through the mountains of present day Poland the next he was hurled back to the same country in the 13th century He remembered from his history classes that in another ten years Mongol hordes were scheduled to attack pillage burn and kill and Conrad was likely to suffer all of the above So he set out to turn Poland into a world power by introducing universal education aircraft radios steamboats and generally discourage Mongols or anybody else from messing with either Poland or Conrad But things weren t going to be quite that simple The Mongols were not quite as awed by advanced technology as he had hoped He was under observation by mysterious Time Lords who didn t approve of disruptions in the flow of historical time Last and anything but least he had married the formidable Lady Francine and there was absolutely nothing simple about that noble born and tempestuous woman At the publisher s request this title is sold without DRM Digital Rights Management
