Government announced 110 Public Service Agreement PSA targets for 17 Departments covering the period 2005-08. PSA targets express the priority outcomes that Departments are seeking to achieve nationally and internationally and cover key aspects of the Government's social, economic and environmental policy. Large sums of public money are devoted to the programmes designed to deliver them. This NAO report contains the detailed results of its examination of the data systems used by six government departments to monitor and report progress against their 2005-08 PSA targets covering a total of 65 data systems. The six Departments are the Cabinet Office, the Department for Culture, Media and Sport, the Department for Education and Skills, the Department for the Environment, Food and Rural Affairs, the Ministry of Defence and HM Treasury. Findings include that 75 per cent of the data systems used are broadly appropriate but less than half of these were fully fit for purpose. Most required some action to strengthen measurement or reporting arrangements. A companion volume HCP 127 I session 2006-07 ISBN 0102944040 is available separately which contains the NAO's summarised findings.

Assessment in Practice Alicia Curtin, Kevin Cahill, Kathy Hall, Dan O'Sullivan, Kamil Özerk, 2019-10-01. *Assessment in Practice* explores timely and important questions in relation to assessment. By examining the relationship between identity, culture, policy and inclusion, the book investigates the conflicted and fractured battleground of assessment and challenges current and practiced understandings of assessment practice. The authors encourage the reader to reconceptualise assessment as a sociocultural practice. Each chapter studies a key theme in the understanding of assessment policy and practice from a sociocultural perspective and provides questions to prompt reflection on the key assessment concepts outlined in the book. Using culture as both a lens and analytic tool, the chapters examine topics such as: The social order of assessment; how assessment works in the world; and how learning could be assessed. Perspectives on social justice and assessment with a particular focus on social class and other potential inequalities on the experiences of assessment for young people. Discussions of ability and the assessment of students with special education needs as well as the role of inclusivity in assessment practice. Written by leading academics from University College Cork, the third volume in the successful Routledge Current Debates in Educational Psychology series is an essential read for researchers and postgraduate students in educational research and education psychology.

National Curriculum: National Disaster? Dr Rhys Griffith, Rhys Griffith, 2012-11-12. *National Curriculum: National Disaster* looks beyond the classroom and discusses the way in which the infrastructure of school codes of conduct, the physical environment of school sites and the hierarchy of human resources within schools impact on the aims and reality of the National Curriculum. An alternative skills-based educational programme is also outlined which may be more likely to fulfil the expectations that many parents now hold for the education of their children.
