Konstitutionalismus Und Verfassungskonflikt Konstitutionalismus Und Verfassungskonflikt:

Constitutionalism and the Role of Parliaments Katja S Ziegler, Denis Baranger, Anthony W Bradley, 2007-06-07 Modern constitutionalism has put a lot of hopes in parliaments but there is some consensus that these hopes have not been entirely fulfilled At the same time the role of parliaments in contemporary democracies continues to evolve as parliaments are faced with new challenges How should they react to the new forms of executive and administrative action Should they play a role in upholding judicial independence although the latter is frequently seen as independence from parliament as well as the executive How should they contribute to the protection of fundamental rights The book aims at providing some answers to these questions by first setting the historic scene giving a comparative overview of the modern history of a selection of major European deliberative institutions UK France Germany and the European Parliament The book then looks at themes around the doctrine of separation of powers especially aspects of the relationship between parliament and the executive power and parliaments role and attitude regarding the judiciary with a special focus on the independence of the judiciary in a comparative perspective

The Max Planck Handbooks in European Public Law Armin von Bogdandy, Huber Peter M., Christoph Grabenwarter, 2023-04-13 The Max Planck Handbooks in European Public Law series describes and analyzes the public law of the European legal space an area that encompasses not only the law of the European Union but also the European Convention on Human Rights and importantly the domestic public laws of European states Recognizing that the ongoing vertical and horizontal processes of European integration render legal comparison the task of our time for both scholars and practitioners the project aims to foster a better understanding of the specific European legal pluralism and ultimately to contribute to the legitimacy and efficiency of European public law The first volume of the series began this endeavour with an appraisal of the evolution of the state and its administration offering both cross cutting contributions and specific country reports The third volume the second in chronological terms continues this approach with an in depth appraisal of constitutional adjudication in various and diverse European countries Fourteen country reports and two cross cutting contributions investigate the antecedents foundations organization procedure and specific approach to constitutional issues throughout the Continent The fourth volume now compares European constitutional jurisdiction in the European legal space It examines the structures of the organization the appointment of judges the procedures and the methods of argumentation and interpretation their impact on state and society their legitimacy as well as their role in the division of powers and thus completes the picture following the country reports in Volume III This comparative perspective is supplemented by an examination that illustrates the relationship with the ECJ the ECtHR and the Venice Commission as well as their constitutional function Finally Constitutional Adjudication Common Themes and Challenges is devoted to the challenges constitutional jurisdiction in the European judicial area is currently facing The historical political and theoretical foundations as well as the basic dogmatic features of constitutional jurisdiction are presented in such a way that the

discussion about its role and further development in this legal space is sustainably stimulated

Coexistence, Cooperation and Solidarity (2 vols.), 2011-11-25 This Liber Amicorum dedicated to Judge Rüdiger Wolfrum of the International Tribunal for the Law of the Sea highlights paradigmatic changes in international law a body of law which moved during the 20th century from a law of coexistence to one of cooperation and which is now about to reflect notions of solidarity going even beyond cooperative undertakings This leitmotif of Rüdiger Wolfrum's academic research and judgeship is represented in a comprehensive collection of essays by eminent scholars and practitioners of international law covering specific aspects of international law including law of the sea human rights international environmental law international dispute settlement peace and security global governance and domestic law With its multifaceted and comprehensive overview of the evolution of international law in recent years and detailed study of current challenges this collection is a unique source of insight for all those interested in this fascinating field of law

Reconsidering Constitutional Formation I National Sovereignty Ulrike Müßig, 2016-08-18 This open access book can be downloaded from link.springer.com Legal studies and consequently legal history focus on constitutional documents believing in a nominalist autonomy of constitutional semantics Reconsidering Constitutional Formation in the late 18th and 19th century kept historic constitutions from being simply log books for political experts through a functional approach to the interdependencies between constitution and public discourse Sovereignty had to be believed by the subjects and the political elites Such a communicative orientation of constitutional processes became palpable in the religious affinities of the constitutional preambles They were held as creeds of a new order not only due to their occasional recourse to divine authority but rather due to the claim for eternal validity contexts of constitutional guarantees The communication dependency of constitutions was of less concern in terms of the preamble than the constituents' big worries about government organisation Their indecisiveness between monarchical and popular sovereignty was established through the discrediting of the Republic in the Jacobean reign of terror and the renaissance of the monarchy in the military resistance against the French revolutionary and later Napoleonic campaigns The constitutional formation as a legal act of constituting could therefore defend the monarchy from the threat of the people Albertine Statute 1848 could be a legal decision of a national constituent assembly Belgian Constitution 1831 could borrow from the old liberties Polish May Constitution 1791 or try to remain in between by referring to the Nation as sovereign French September Constitution 1791 C. d. Constitution 1812 Common to all contexts is the use of national sovereignty as a legal starting point The consequent differentiation between constituent and constituted power manages to justify the self-commitment of political power in legal terms National sovereignty is the synonym for the juridification of sovereignty by means of the constitution The novelty of the constitutions of the late 18th and 19th century is the normativity the positivity of the constitutional law as one unified law to be the measure for the legality of all other law Therefore ReConFort will continue with the precedence of constitution www.reconfort.eu

Making Sense of Constitutional

Monarchism in Post-Napoleonic France and Germany M. Prutsch, 2012-12-03 Focusing on the genesis of constitutional monarchism in the context of the French Restoration and its favourable reception in post Napoleonic Germany this study highlights the potential and limitations of a daring attempt to improve traditional forms of monarchical legitimacy by means of a modern representative constitution

Sovereignty, Civic Participation, and Constitutional Law Brecht Deseure, Raf Geenens, Stefan Sottiaux, 2021-04-12 This book brings recent insights about sovereignty and citizen participation in the Belgian Constitution to scholars in the fields of law philosophy history and politics Throughout the Western world there are increasing calls for greater citizen participation Referendums citizen councils and other forms of direct democracy are considered necessary antidotes to a growing hostility towards traditional party politics This book focuses on the Belgian debate where the introduction of participatory politics has stalled because of an ambiguity in the Constitution Scholars and judges generally claim that the Belgian Constitution gives ultimate power to the nation which can only speak through representation in parliament In light of this direct democracy would be an unconstitutional power grab by the current generation of citizens This book critically investigates this received interpretation of the Constitution and by reaching back to the debates among Belgium's 1831 founding fathers concludes that it is untenable The spirit if not the text of the Belgian Constitution allows for more popular participation than present day jurisprudence admits This book is the first to make recent debates in this field accessible to international scholars It provides a rare source of information on Belgium's 1831 Constitution which was in its time seen as modern constitutionalism's greatest triumph and which became a model for countless other constitutions Yet the questions it asks reverberate far beyond Belgium Combining new insights from law philosophy history and politics this book is a showcase for continental constitutional theory It will be a valuable resource for academics and researchers in constitutional law political and legal philosophy and legal history Chapters 3 4 11 and 15 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <https://www.taylorfrancis.com/books/sovereignty-civic-participation-constitutional-law/brecht-deseure-raf-geenens-stefan-sottiaux/e-1043249781003039525>

Constitutional Courts and Judicial Review Dieter Grimm, 2025-01-09 This collection of essays from Dieter Grimm Germany's most renowned constitutional scholar shines a light on the jurisprudence of the German Constitutional Court and constitutional adjudication in general Established in 1951 the court has become a blueprint for new courts ever since and its jurisprudence particularly in the field of fundamental rights has influenced the decisions of judges throughout the world After the seismic constitutional changes of the years 1989-90 in Germany and beyond many countries adopted new democratic constitutions and established constitutional courts in order to make their constitutions effective Today many of these courts are under attack both politically and intellectually In this book Grimm considers some of the fundamental questions under academic scrutiny today are constitutional courts political or legal institutions Is judicial review a political or a legal activity Is it a threat to or a

condition of democracy Should these courts be abolished or strengthened Is a rational interpretation of constitutional law possible The essays provide answers to these questions and describe how constitutional courts work if they properly fulfill their function of enforcing the constitution A special emphasis is put on the importance of constitutional interpretation something the author argues that most critics of constitutional adjudication neglect

Constitutionalism, Legitimacy, and Power Kelly L Grotke, Markus J Prutsch, 2014-09-25 If one counts the production of constitutional documents alone the nineteenth century can lay claim to being a constitutional age one in which the generation and reception of constitutional texts served as a centre of gravity around which law and politics consistently revolved This volume critically re examines the role of constitutionalism in that period in order to counter established teleological narratives that imply a consistent development from absolutism towards inclusive participatory democracy Various aspects of constitutional histories within and outside of Europe are examined from a comparative transnational and multidisciplinary historical perspective organized around five key themes The first part looks at constitutions as anti revolutionary devices and addresses state building monarchical constitutionalism and restorations The second part takes up constitutions and the justification of new social inequalities focusing on women s suffrage human rights and property The third part uses individual country studies to take on questions of how constitutions served to promote nationalism The use of constitutions as instruments of imperialism is covered in the fourth part and the final part examines the ways that constitutions function simultaneously as legal and political texts These themes reflect a certain scepticism regarding any easy relationship between stated constitutional ideals and enacted constitutional practices Taken together they also function as a general working hypothesis about the role of constitutions in the establishment and maintenance of a domestically and internationally imbalanced status quo of which we are the present day inheritors More particularly this volume addresses the question of the extent to which nineteenth century constitutionalism may have set the stage for new forms of domination and discrimination rather than inaugurating a period of progress and increasing equality

Ursprünge der richterlichen Normenkontrolle im Verfassungsrecht der Vereinigten Staaten, 1761-1803 Lukas Wolfgang Lübben, 2021-05-07 Verfassungsrecht beansprucht Geltung Das wurde der amerikanischen Gr ntergeneration die in Abkehr vom berkommenen britischen Modell nunmehr auf geschriebene Verfassungen setzte schlagartig klar Ob der normative Ordnungsanspruch der Verfassung allerdings von den Gerichten durchzusetzen sei dar ber herrschte zun chst Unklarheit Lukas Wolfgang L bben rekonstruiert die zu jener Zeit um die funktionell rechtlichen Konsequenzen der Positivierung des Verfassungsrechts gef hrte Theoriedebatte Anschlie end untersucht er die Entwicklung der Normenkontrolle in der US amerikanischen gerichtlichen Praxis bis zur wegweisenden Entscheidung des U S Supreme Court in der Sache Marbury v Madison aus dem Jahr 1803 Mit Blick auf die Deutungs Offenheit des Verfassungsrechts schlussfolgert der Autor dass die amerikanischen Gr nder im Gegensatz zu heutigen Praktikern und Wissenschaftlern in sehr viel h herem Ma e bereit waren die normative Ungewissheit des

Konstitutionellen als Gegebenheit zu akzeptieren Reconsidering Constitutional Formation II Decisive Constitutional Normativity Ulrike Müßig, 2018-05-25 This second volume of ReConFort published open access addresses the decisive role of constitutional normativity and focuses on discourses concerning the legal role of constitutional norms Taken together with ReConFort I National Sovereignty it calls for an innovative reassessment of constitutional history drawing on key categories to convey the legal nature of the constitution itself national sovereignty precedence justiciability of power judiciary as constituted power In the late 18th and early 19th centuries constitutional normativity began to complete the legal fixation of the entire political order This juridification in one constitutional text resulted in a conceptual differentiation from ordinary law which extends to alterability and justiciability The early expressions of this new order of the ages suggest an unprecedented and irremediable break with European legal tradition be it with British colonial governance or the French ancien régime In fact while the shift to constitutions as a hierarchically higher form of positive law was a revolutionary change it also drew upon old liberties The American constitutional discourse which was itself heavily influenced by British common law in turn served as an inspiration for a variety of constitutional experiments from the French Revolution to Napoleon's downfall in the halls of the Frankfurt Assembly on the road to a unified Italy and in the later theoretical discourse of twentieth century Austria If the constitution states the legal rules for the law making process then its Kelsenian primacy is mandatory Also included in this volume are the French originals and English translations of two vital documents The first Emmanuel Joseph Sieyès' *Du Jury Constitutionnaire* 1795 highlights an early attempt to reconcile the democratic values of the French Revolution with the pragmatic need to legally protect the Revolution The second the 1812 draft of the Constitution of the Kingdom of Poland presents the constitutional propaganda of the Russian Tsar Alexander I to bargain for the support of the Lithuanian and Polish nobility These documents open new avenues of research into Europe's constitutional history one replete with diverse contexts and national experiences but above all an overarching motif of constitutional decisiveness that served to complete the juridification of sovereignty www.reconfort.eu

Writing Democracy Karen Gammelgaard, Eirik Holmøyvik, 2014-10-01 The Norwegian Constitution is the oldest functioning constitution in Europe Its bicentenary in 2014 has inspired the analyses in this volume where contributors focus on the Constitution as a text to explore new ways of analyzing democratic development This volume examines the framing of the Norwegian Constitution its transformations and its interpretations during the last two centuries The textual focus enables new understandings of the framers' negotiations and decisions on a democratic micro level and opens new international and historical contexts to understanding the Norwegian Constitution By synthesizing knowledge from different realms law social sciences and the humanities *Writing Democracy* provides a model for examining the distinct textual qualities of constitutional documents

Law and the Exception Gian-Giacomo Fusco, Przemysław Tacik, 2025-09-26 This book proposes a paradigm shift in the way that the state of exception as it is usually named in legal and political theory is to be understood Building on the assumption that the

exception is a heuristic idea that is still a relevant category for a critical deconstruction of law this book argues that it needs to be rethought outside the boundaries of its traditional understanding To this end the book offers two strategies First it develops the ideas of exceptionality and exceptionalisation in order to grasp how measures norms and mechanisms that clearly have an exceptional character are no longer confined within the boundaries of classic institutions such as the state of exception martial law the state of emergency and so on As demonstrated recently during the COVID 19 pandemic legal systems may dissimulate the exceptional as the normal avoiding the use of formal states of exception and adopting measures that are of exceptional nature This book maintains that it is necessary to think of exceptionality outside of its usual legal footholds Emergency laws are considered here as part of a more general sphere of exceptionality that must be understood as the product of a process of the accumulation of symbols practices notions and images that are only partially expressed through law despite having long populated the legal imagination Second the book offers an analysis of the inner exceptional life of liberal constitutionalism the subterranean authoritarian drives dissimulated by the rule of law This book will interest scholars and researchers in legal and political theory as well as continental philosophy

Scandinavia After Napoleon

Rasmus Glenthøj, Morten Nordhagen Ottosen, 2024-05-13 This book explores the intellectual grounds of Scandinavianist ideology and its political development into a national unification movement Denmark Norway and Sweden were nearly annihilated during the Napoleonic Wars The lesson learned was that survival was a matter of size Whereas their union of 1814 offered Sweden Norway geostrategic security tempered by fear of Russia Denmark was the biggest territorial loser of the Napoleonic Wars and faced separatism connected to German nationalism in the duchies of Schleswig and Holstein This evolved into a national conflict that threatened Denmark's survival as a nation Meanwhile a new generation of Danes Swedes and Norwegians had come to regard kindred language culture and religion as a case for Scandinavian union that could offer protection against Russia and Germany When the European revolutions of 1848 unleashed the First Schleswig War the influence of Scandinavianism was such that it nearly turned into a Scandinavian war of unification

Konstitutionalismus und Verfassungskonflikt Ulrike Müßig, 2020 Der Konstitutionalismus des 19. Jahrhunderts war geprägt von der Inkompatibilität des Festhaltens an der monarchischen Machtvollkommenheit und der Mitwirkung der Untertanen am Gesetzgebungsverfahren und an der Etatgestaltung Verweigerte die Volksvertretung ihre Zustimmung zum Budget fehlten der monarchischen Exekutive die Mittel die Staatsaufgaben zu erfüllen und die Gesetze durchzuführen Sowohl in Kurhessen 1850 als auch in Preußen 1862 entstand daraus ein Verfassungskonflikt der einen verfassungsrechtlichen und politisch praktischen Ausnahmezustand schuf Durchsetzen konnte sich in der systemimmanenten Pattsituation derjenige welcher auch im Ausnahmezustand den Zugriff auf die Machtmittel der Exekutive namentlich auf das Militär hatte also der Monarch Die Rechtfertigung der machtpolitischen Konfliktsung durch den Monarchen mit seiner Position als nicht verantwortlicher Träger der einheitlichen Staatsgewalt hat eine zentrale Bedeutung für das Verständnis der deutschen Verfassungsgeschichte

Grundrechtsbindung des Gesetzgebers Friederike Valerie Lange,2010 English summary The legislator s commitment to fundamental rights which is stipulated particularly clearly in the German Basic Law is a core element of modern constitutionalism In a comparative study of the constitutions of France and the USA Friederike Valerie Lange explores the basic concepts and enforcement mechanisms of this commitment to fundamental rights German description Die Bindung des

Gesetzgebers an die Grundrechte ist im Grundgesetz besonders klar geregelt. Sie ist jedoch auch international Kernelement moderner Verfassungsstaatlichkeit. Im Rechtsvergleich mit den Verfassungen Frankreichs und der USA geht Friederike Valerie Lange Grundvorstellungen und Durchsetzungsmechanismen dieser Grundrechtsbindung nach. Dabei beleuchtet die Autorin auf der Grundlage verschiedener Verfassungstraditionen Handlungspflichten und Grenzen für den Gesetzgeber, zeigt zugleich aber auch Gestaltungsspielräume auf. Untersucht werden unterschiedlich ausgeprägte Grundrechtsdimensionen, Regeln zur Befassung mit Grundrechten im Gesetzgebungsverfahren sowie Kontroll- und Beseitigungspflichten des Parlaments. Zentrales Augenmerk Friederike Valeries gilt der Rolle der Akteure, darunter auch aber nicht nur der Verfassungsgerichtsbarkeit für die Grundrechtskonformität von Gesetzen. Diese Arbeit wurde mit dem Wissenschaftspreis des Deutschen Bundestags ausgezeichnet.

International Bibliography of Historical Sciences, Band 75, International Bibliography of Historical Sciences (2006) Massimo Mastrogregori, 2010. Die International Bibliography of Historical Sciences (IBOHS) die seit 1930 jährlich erscheint, verzeichnet die bedeutendsten Neuerscheinungen geschichtswissenschaftlicher Monographien und Zeitschriftenartikel weltweit von der Vor- und Frühgeschichte bis zur jüngsten Vergangenheit einschließlich der historischen Hilfswissenschaften. Die Werke sind innerhalb der systematischen Gliederung nach Zeitalter, Region oder historischer Disziplin alphabetisch aufgelistet. Es folgen ein Autoren- und ein Personenverzeichnis sowie ein geographisches Register.

Die Verfassung von Cádiz (1812) Olaf Kroon, 2019-07-08. Die 1812 während des Volksaufstands gegen die französische Besatzung geschaffene Verfassung nach ihrem Entstehungsort *Constitución de Cádiz* benannt, ist der Grundstein der modernen spanischen Verfassungsgeschichte. Zugleich ist sie ein wichtiger Abschnitt der gesamteuropäischen Verfassungsgeschichte im Kampf zwischen Absolutismus und Konstitutionalismus. Der zum Mythos erhobene Freiheitskampf gegen Napoleon und die Verfassung von 1812 entfaltete im zweiten und dritten Jahrzehnt des 19. Jahrhunderts international große Wirkung. Spanien war zu Beginn des Liberalismus Impulsgeber für Oppositionsbewegungen in ganz Europa. Für erst Metternich hingegen, den führenden Vertreter des monarchischen Prinzips, war die Konstitution von 1812 ein Werk der Willkür oder einer unsinnigen Verblendung. Die Verfassung von Cádiz und die fast 19 Jahre später am 8. Januar 1831 verkündete kurhessische Verfassung haben gemeinsam, dass sie jeweils zum Zeitpunkt ihrer Entstehung bei Anhängern wie bei Gegnern als liberalste, fortschrittlichste, auch radikalste Konstitutionen des Kontinents galten. Die vorliegende Untersuchung nimmt erstmals einen Vergleich dieser beiden Verfassungen vor, mit dem Ziel festzustellen, welche auf dem langen Weg Europas vom Absolutismus zum Parlamentarismus weiter fortgeschritten war. Nach einer Schilderung des jeweiligen historischen Hintergrunds werden beide Verfassungen anhand dreier zentraler Komponenten des modernen Rechtsstaats: Volkssouveränität, Gewaltenteilung und Grundrechte dargestellt und verfassungssystematisch eingeordnet. Anschließend werden Gemeinsamkeiten und Unterschiede herausgearbeitet. Ein Kapitel zur Kritik des wohl einflussreichsten unter den Schöpfern der Verfassung Kurhessens, des Marburger Staatsrechtlers Sylvester Jordan (1792–1861), an der Verfassung von Cádiz schließt.

eine Brücke zwischen beiden Konstitutionen und rundet die Darstellung ab *Die Rechtsstellung des Monarchen in den Verfassungen der Einzelstaaten des Deutschen Bundes* Julian Rahe, 2021-09-09 Die Monarchen der Einzelstaaten des Deutschen Bundes haben im Laufe des 19. Jahrhunderts eine Vielzahl unterschiedlicher geschriebener Verfassungen erlassen. Mit diesen haben sie ihre Machtbefugnisse erheblich eingeschränkt. Dies ist insoweit erstaunlich, als sie erst kurz zuvor den Übergang zum Absolutismus vollzogen hatten. Die vorliegende Arbeit untersucht, warum die Monarchen diese Verfassungen erlassen haben, in welchen Bereichen sie sich wie einschränkten und sie beleuchtet das Verhältnis der Verfassungen zum Recht des Deutschen Bundes. Dabei werden erstmalig die Regelungen aller Verfassungen, die während der Zeit des Deutschen Bundes in einer Monarchie ergangen sind, umfassend einbezogen, ausgewertet und verglichen.

Unveiling the Magic of Words: A Review of "**Konstitutionalismus Und Verfassungskonflikt Konstitutionalismus Und Verfassungskonflikt**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Konstitutionalismus Und Verfassungskonflikt Konstitutionalismus Und Verfassungskonflikt**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
