**Paving the Way for Better Governance in Urban Transport** Kala Seetharam Sridhar,Ranjit Gadgil,Chhavi Dhingra,2019-10-21 This book presents an innovative democratic framework that ensures public participation

based on applying principles of good governance to facilitate urban transport decision making in an integrated and structured manner While given the need for mobility in cities transport is crucial for urban development problems such as the fragmentation of institutions decision making and unequal knowledge concentrations represent major hurdles to effective governance outcomes especially those that go beyond technical and regulatory aspects Substantial investments continue to be pumped into the urban transportation sector with cities lacking the necessary capacities or governance mechanisms to ensure optimal returns on these investments The book introduces the transport governance framework which is intended to provide an integrated and structured approach to facilitate decision making processes in the urban transport sector focusing on how decisions are made rather than what decisions are made It also discusses the initial testing of the framework in several cities across India In addition it examines the application of the TAPC transparency accountability participation and capacity building principles of good governance to key aspects of urban transport policy planning standards budgets execution and regulation
