Implementation of Educational Policies for Minority Language Pupils in England and the United States Amanda Kibler,2005-05-16 As non native English speakers comprise a growing percentage of pupils in English and American schools educational policies addressing English language learning are becoming increasingly significant Popular and governmental beliefs regarding the education of these pupils have resulted in de facto language policies which largely reflect political rather than linguistic realities In such a situation it is vital to analyse the development of these policies and their implementation at the school level This book consists of case studies of two primary schools one in England and one in the United States which help to illuminate how teachers and schools serving highly diverse linguistic and ethnic populations function within broader language policy directives Special attention is given to teachers and administrators perceptions of the factors that hamper or facilitate the implementation of these initiatives The major findings are presented in a comparative context drawing upon theory and empirical evidence to examine the manner in which internal social and political pressures affect policy implementation **Reading Instruction in America** Barbara Ruth Peltzman,2015-10-02 The diversity of student populations in the United States presents educators with many challenges To provide effective reading instruction for the individual student teachers must understand the enormous variety of reading methods and materials that exist and make independent decisions based on their students particular needs Research indicates that educators are often influenced by reading instruction fads that quickly fade making it more challenging to develop a repertoire of teaching strategies in which a teacher may have confidence This book examines a variety of reading methods used in American schools from the 19th to the 21st century and the literature promoting or critiquing them to help teachers become informed decision makers and better meet the needs of students **Resources in Education** ,2001-10
