Improving The Quality Of Child Custody Evaluations A Systematic Model:

Improving the Quality of Child Custody Evaluations Lauren Woodward Tolle, William O'Donohue, 2012-05-10 This book resolves a key problem that all evaluators need to attend to i e what constructs ought to be measured all the while giving them practical ways of doing this It also presents data showing family court judges like the model and it does this fairly briefly but in a way that is nicely embedded in the research literature Evidence-Informed Assessment and Practice in Child Welfare John S. Wodarski, Michael J. Holosko, Marvin D. Feit, 2015-01-28 This practice oriented text presents evidence based assessment methods and interventions that have been extensively field tested in child welfare settings The contributors offer empirical and field insights comprehensive treatment models and curricula in key areas such as child maltreatment substance abuse parent training social skills and youth employment interventions For the professional reader the book offers real world guidance on social work practice from hiring opportunities within a system to promoting lasting change as families and their issues grow increasingly complex These chapters also take significant steps toward future improvements in child protection systems as the field evolves toward being more coordinated effective and professional Included in the coverage Legal requisites for social work practice in child abuse and neglect The integrated model for human service delivery in child welfare Risk assessment issues and implementation in child protective services Substance use and abuse screening tools and assessment instruments The process of intervention with multi problem families Preventative services for children and adolescents Its multi level approach makes Evidence Informed Assessment and Practice in Child Welfare an essential professional development text for social workers particularly those new to the job as well as a progressive blueprint for social work administrators **Guide to Psychological Assessment with Asians** Lorraine T. Benuto, Nicholas S. Thaler, Brian D. Leany, 2014-06-26 To effectively serve minority clients clinicians require a double understanding of both evidence based practice and the cultures involved This particularly holds true when working with Asian Americans a diverse and growing population The Guide to Psychological Assessment with Asians synthesizes real world challenges empirical findings clinical knowledge and common sense advice to create a comprehensive framework for practice This informed resource is geared toward evaluation of first generation Asian Americans and recent immigrants across assessment methods self report measures projective tests settings school forensic and classes of disorders eating substance sexual While the Guide details cross cultural considerations for working with Chinese Japanese Korean and Indian American clients best practices are also included for assessing members of less populous groups without underestimating overstating or stereotyping the role of ethnicity in the findings In addition contributors discuss diversity of presentation within groups and identify ways that language may present obstacles to accurate evaluation Among the areas covered in this up to date reference Structured and semi structured clinical interviews Assessment of acculturation enculturation and culture IQ testing Personality disorders Cognitive decline and dementia Mood disorders and suicidality Neuropsychological assessment

of children adolescents and adults Culture bound syndromes Designed for practitioners new to working with Asian clients as well as those familiar with the population the Guide to Psychological Assessment with Asians is exceedingly useful to neuropsychologists clinical psychologists health psychologists and clinical social workers **Learning Forensic**

Assessment Rebecca Jackson, Ronald Roesch, 2015-10-05 Major developments in the field since the publication of Learning Forensic Assessment are integrated in this revised edition including revised editions of the DSM 5 HCR 20 scale and child custody guidelines This textbook is designed for graduate students learning forensic assessment and psychologists coming to forensic practice later in their careers It is organized around five broad areas Professional and Practice Issues Adult Forensic Assessment Juvenile Forensic Assessment Civil Forensic Assessment and Communicating Your Findings Each chapter begins with a strong teaching and learning foundation The latter part of each chapter is assessment specific covering available assessment measures and approaches to assessment The authors go well beyond simple descriptions of assessment measures and provide a conceptual discussion of the evaluation process that helps the reader understand how assessment measures fit into the overall evaluation process The evaluation component is geared toward assessing the important aspects of the construct as laid out in the early part of each chapter Each chapter then concludes with a case example to illustrate the measures and techniques described **Guide to Psychological Assessment with Hispanics** Lorraine T.

Benuto, 2012-09-19 This book focuses on diversity culture and ethnicity as they relate to psychological assessment of Hispanics It is a how to guide for clinicians researchers and instructors working with Hispanic clients Each chapter contains an overview of cultural considerations needed for assessing the Hispanic client followed by a specific exploration of the assessment measures available and the research that has been conducted on these measures with Hispanic participants An exploration of the strengths and limitations of each assessment measure is included Considering that ethnocultural minority individuals who are of Hispanic Latino origin make up the largest ethnocultural minority group in the United States guidelines for working with this population are a must Given that a large subset of this percentage is composed of immigrants many of whom do not speak English or who have learned English as a second language special considerations for effective psychological assessment are necessary This book fills a gap in the scientific literature by consolidating the research on psychological assessment with Hispanic samples into one comprehensive volume and providing simple recommendations for the psychological assessment of Hispanic clients An exploration of the general psychological assessment domains e g personality intelligence is included with references to research on the major assessment measures used in the field A more specific exploration of psychodiagnostic assessment measures follows including the assessment of mood disorders anxiety disorders sexual dysfunction psychosis etc Several chapters are dedicated to specialized assessment including neuropsychological assessment forensic assessment and school based assessment overall creating the most comprehensive up to date research based compendium of psychological assessment measures for use with Hispanic clients

Therapists, Lawyers, and Divorcing Spouses William Fisher, 2013-09-05 Experts explore the need for cooperation between the law and helping professions in order to lessen the trauma of the divorce process Handbook of Forensic Sociology and Psychology Stephen J. Morewitz, Mark L. Goldstein, 2013-08-20 The role of behavioral and social sciences in the courtroom setting has expanded exponentially in the past few decades It is now widely recognized that scientists in these areas provide critical contextual information for legal decision making and that there is a reliable knowledge base for doing so While there are many handbooks of forensic psychology this is the first such volume to incorporate sociological findings broadening the conceptual basis for examining cases in both the civil and criminal realms including immigration issues personal injury child custody and sexual harassment This volume will examine the responsibilities of expert witnesses and consultants and how they may utilize principles theories and methods from both sociology and psychology It will show these disciplines together can improve the identification and apprehension of criminals as well as enhance the administration of justice by clarifying profiles of criminal behavior particularly in cases of serial killers death threat makers stalkers and kidnappers The volume is quite comprehensive covering a range of medical school environmental and business settings Throughout it links basic ideas to real applications and their impact on the justice system **Psycho-Legal Concepts for Parenting in Child Custody and Child Protection Vol. 3** Don Tustin, 2024-12-02 This book identifies a number of topics that arise in child protection where assessments of individual families are required The author opines that it is essential to use structured instruments when making assessments on complex topic about risk to reduce bias and to maximise objectivity The author summarises criteria that are required for an assessment instrument to be viewed by scientists as being objective The book proposes that introducing more objective assessment instruments into the field of child protection will improve the focus and brevity of assessment reports and enable setting of thresholds that distinguish between families who provide good enough parenting from families who should be referred for parenting education and from parents who are unfit parents The author identifies a number of topics that commonly arise in cases where maltreatment of children is alleged reviews literature and proposes checklists that can be used to gather data and to form a basis for developing validated assessment instruments for use in child protection The topics identified are relevant both to therapists as parenting practices can be changed using focused therapy and for legal assessment purposes as topics have been shown to be related to legal concerns about the safety and welfare of children The overall aim of this book is to encourage greater use of scientific assessment approaches in the field of child protection Improving the Quality of Children's Services Hansine Fisher, 1999 *Handbook of Evidence-Based Practice in Clinical Psychology, Child and Adolescent Disorders* Michel Hersen, Peter Sturmey, 2012-08-02 Handbook of Evidence Based Practice in Clinical Psychology Volume 1 covers the evidence based practices now identified for treating children and adolescents with a wide range of DSM disorders Topics include fundamental issues developmental disorders behavior and habit disorders anxiety and mood disorders and eating disorders

Each chapter provides a comprehensive review of the evidence based practice literature for each disorder and then covers several different treatment types for clinical implementation Edited by the renowned Peter Sturmey and Michel Hersen and featuring contributions from experts in the field this reference is ideal for academics researchers and libraries

Conducting Scientifically Crafted Child Custody Evaluations Jonathan W. Gould,1998-05-20 In *Conducting Scientifically Crafted Child Custody Evaluations* author Jonathan W Gould compiles the literature on child custody evaluation into a coherent logically integrated format that can be applied directly to practice This empirically based book represents state of the art forensic techniques in the rapidly changing field of child custody evaluation Gould challenges this dynamic field to further advance by enhancing its level of professionalism and strengthening its scientific basis Currently only 10% of divorcing couples with children pursue resolution of custody disputes The author questions whether this minority comprises a unique population that requires separate uniquely developed intervention protocols He asks If the people who request forensic child custody evaluation comprise a unique population how useful are our assessment tools when they have not been validated on this distinctive group Proposing new assessment models that are in fact based on studies with this population Gould emphasizes that this is one of the fastest growing areas of professional involvement for practicing psychologists counselors and social workers Divided into three parts the book covers a conceptual framework the evaluation process and suggestions for the evaluator in preparing for court This book targets psychologists social workers and students in the fields of family social work family psychology family counseling forensic psychology family studies and family law **Forensic**

Psychology Matthew T. Huss,2025-03-18 *Children Who Resist Post-Separation Parental Contact* Barbara Jo Fidler,Nicholas Bala,Michael A. Saini,2012-09-13 Interest in the problem of children who resist contact with or become alienated from a parent after separation or divorce is growing due in part to parents increasing frustrations with the apparent ineffectiveness of the legal system in handling these unique cases There is a need for legal and mental health professionals to improve their understanding of and response to this polarizing social dynamic *Children Who Resist Post Separation Parental Contact* is a critical empirically based review of parental alienation that integrates the best research evidence with clinical insight from interviews with leading scholars and practitioners The authors Fidler Bala and Saini a psychologist a lawyer and a social worker are an multidisciplinary team who draw upon the growing body of mental health and legal literature to summarize the historical development and controversies surrounding the concept of alienation and explain the causes dynamics and differentiation of various types of parent child relationship issues The authors review research on prevalence risk factors indicators assessment and measurement to form a conceptual integration of multiple factors relevant to the etiology and maintenance of the problem of strained parent child relationships A differential approach to assessment and intervention is provided Children s rights the role of their wishes and preferences in legal proceedings and the short and long term impact of parental alienation are also discussed Considering legal clinical prevention and
