**A User's Guide to the Meade LXD55 and LXD75 Telescopes** Martin Peston,2010-04-28 I have owned telescopes for over 25 years since I was a young lad I purchased an LXD55 AR 6 Refractor in 2002 and was one of the first to own one in the UK I am also a proud owner of an LXD75 SC 8 Armed with these two very different telescopes I have spent many hours searching the skies for interesting objects using Meade s Autostar Goto facility My motivation to write a book about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on the LXD55 com website From then on I have had regular emails from people asking technical questions about the telescope and which model is best suited for them Whilst attending Star parties in the UK I found that many LXD owners

would struggle to use them even at a basic level especially if they have never owned or used an equatorially mounted Goto telescope before Since the first LXDM55 models came out in early 2002 owners have struggled to find useful information to help them use the telescopes to the best advantage There have been mixed reactions about its quality and performance Hence this book is directed towards those who are new to Goto and the LXDM telescope *The Oxford Handbook of the Archaeology of the Contemporary World* Paul Graves-Brown,Rodney Harrison,Angela Piccini,2013-10-17 It has been clear for many years that the ways in which archaeology is practised have been a direct product of a particular set of social cultural and historical circumstances archaeology is always carried out in the present More recently however many have begun to consider how archaeological techniques might be used to reflect more directly on the contemporary world itself how we might undertake archaeologies of as well as in the present This Handbook is the first comprehensive survey of an exciting and rapidly expanding sub field and provides an authoritative overview of the newly emerging focus on the archaeology of the present and recent past In addition to detailed archaeological case studies it includes essays by scholars working on the relationships of different disciplines to the archaeology of the contemporary world including anthropology psychology philosophy historical geography science and technology studies communications and media ethnoarchaeology forensic archaeology sociology film performance and contemporary art This volume seeks to explore the boundaries of an emerging sub discipline to develop a tool kit of concepts and methods which are applicable to this new field and to suggest important future trajectories for research It makes a significant intervention by drawing together scholars working on a broad range of themes approaches methods and case studies from diverse contexts in different parts of the world which have not previously been considered collectively **Handbook of Research on Sustainable Development Goals, Climate Change, and Digitalization** Castanho, Rui Alexandre,2021-11-12 In recent years the world has been changing considerably Within the many obstacles barriers and opportunities three significant challenges should be considered for the future planning of our territories and cities seeking to achieve Sustainable Development Goals SDG facing climate change and performing a shift towards digitalization Considering these three challenges we can work toward a more sustainable future for the environment The Handbook of Research on Sustainable Development Goals Climate Change and Digitalization elaborates on sustainability issues in the planning and development field regarding the environment This text promotes understanding about the dynamics challenges and opportunities for the new decade regarding our common future planning Covering topics such as circular economy economic ecological principles and sustainable resilience this book is essential for academicians researchers policymakers environmentalists scientists technicians decision makers practitioners and students *Remote Sensing Handbook - Three Volume Set* Prasad Thenkabail,2018-10-03 A volume in the three volume Remote Sensing Handbook series Remote Sensing of Water Resources Disasters and Urban Studies documents the scientific and methodological advances that have taken place during the last 50 years The other two volumes in the series are Remotely
