Establishing Self-Access David Gardner, Lindsay Miller, 1999-03-11 Establishing Self Access examines establishing maintaining and developing self access language learning SALL While much of it presents practical ideas dealing with issues related to SALL they are supported by

references to relevant literature and research This link between theory and practice makes the debate about SALL accessible and makes this a useful resource for establishing and running self access learning facilities Its unique features include a typology of self access facilities a discussion about how to manage self access a step by step guide on evaluating self access a wide variety of practical suggestions for implementing self access in different contexts It is suitable for anyone concerned with self access from pre service teacher trainees to experienced teachers and from managers of dedicated self access centres to administrators concerned with financing self access facilities

The Experience of Language Teaching Rose Senior,2006-02-23 Through the words of more than 100 practising language teachers The Experience of Language Teaching provides a detailed picture of teaching and learning in communicative classrooms Using a teacher generated framework it covers a range of aspects of classroom life how teachers create environments suitable for language practice how they get students on side how they manage tricky students how they enhance the learning experience how they develop and maintain a spirit of community The book demonstrates how paying attention to both the learning and social needs of their class groups enables language teachers to behave in flexible ways that promote learning This book will be of interest to teachers teacher educators researchers and to anyone interested in finding out what it is like to be a language teacher at the present time The Experience of Language Teaching was winner of the Ben Warren International Trust House Prize in 2005

Research for Materials Development in Language Learning Brian Tomlinson,Hitomi Masuhara,2010-11-18 This title examines current research in materials development and discusses their implications for the learning and teaching of languages Recently there has been a dramatic increase in the attention given to materials development as an academic discipline More universities are including modules on materials development on their MA in applied linguistics courses and more students are studying materials development in their PhD research Yet to date there has been no publication focusing on reporting and discussing the results of research in materials development This fills that gap reporting on the results of recent research projects in materials development and discussing their implications for the learning and teaching of languages The editors introduction outlines the rationale scope and objectives of the book and reviews previously published reports of research in materials development There are concluding chapters which point out implications for second language acquisition theory and research methodology The book features suggest applications of the reported research for materials development and proposals for future action in research in materials development for language teaching

Materials development for TESOL Freda Mishan,2015-06-03 Materials development has become much more important in the field of TESOL in the last twenty years modules on materials development are now commonplace on MA TESOL courses around the world The overall aim of the book is to introduce readers to a wide range of theoretical and practical issues in materials development to enable them to make informed and principled choices in the selection evaluation adaptation and production of materials The book aims to show how these choices need to be informed by an awareness of culture context and purpose

Exploring

Language Pedagogy through Second Language Acquisition Research Rod Ellis, Natsuko Shintani, 2013-07-31 Routledge

Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics primarily designed for those beginning postgraduate studies or taking an introductory MA course as well as advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative practice to theory approach with a back to front structure. This leads the reader from real world problems and issues through a discussion of intervention and how to engage with these concerns before finally relating these practical issues to theoretical foundations. Additional features include a glossary of key terms and discussion questions. Following the back to front approach of the series, the book takes problematic issues in language pedagogy as its starting points. These are then examined in terms of second language acquisition. Each chapter begins with a look at the pedagogical proposals found in teacher guides and then asks: Do these proposals accord with what we know about how languages are acquired? Pedagogical topics covered include teaching methods, syllabus design, explicit instruction, comprehension versus production based instruction, task based instruction, authentic materials, the role of the learners' first language in the classroom, error correction and catering for individual differences. Including a glossary of key terms and questions for discussion at the end of each chapter and assuming no prior knowledge of second language acquisition, this is the ideal text for all students studying language teaching methods, language teacher education, English teaching methodology and second language acquisition modules in advanced undergraduate and postgraduate graduate TESOL and Applied Linguistics courses.

Interactive Language Teaching Wilga M. Rivers, 1987-02-27 Teachers and writers describe the approaches and techniques they have incorporated into their own teaching. The paperback edition is designed to help classroom teachers make language classes more participatory and communication oriented. A distinguished group of innovative teachers and writers describe in a collection of essays the approaches and techniques they have incorporated into their own teaching.

Approaches and Methods in Language Teaching Jack C. Richards, Theodore S. Rodgers, 2001-03-12 In addition to the approaches and methods covered in the first edition, this edition includes new chapters such as whole language, multiple intelligences, neurolinguistic programming, competency based language teaching, co-operative language learning, content based instruction, task based language teaching and The Post Methods Era.

Understanding Research in Second Language Learning James Dean Brown, 1988-09-30 What is research? Variables. Data organization. Controlling extraneous variables. Critiquing statistical studies. The group and the individuals. Patterns in human behavior. Statistics for testing. Statistical logic. Correlation. Comparing means. Comparing frequencies. Hands on critique and posttest.

The Complete Guide to the Theory and Practice of Materials Development for Language Learning Brian Tomlinson, Hitomi Masuhara, 2017-07-24 The Complete Guide to the Theory and Practice of Materials Development for Language Learning provides undergraduate and graduate level students in applied linguistics and TESOL researchers, materials developers and teachers with everything they need to know about the
