National Security Issues in Science, Law, and Technology Thomas A. Johnson, 2007-04-16 Using the best scientific decision making practices this book introduces the concept of risk management and its application in the structure of national security decisions It examines the acquisition and utilization of all source intelligence and addresses reaction and prevention strategies applicable to chemical biological and nuclear weapons agricultural terrorism cyberterrorism and other potential threats to our critical infrastructure It discusses legal issues and illustrates the dispassionate analysis of our intelligence law enforcement and military operations and actions The book also considers the redirection of our national research and laboratory system to investigate weapons we have yet to confront Resources in Education ,2000 Bulletin of the American Mathematical Society American Mathematical Society,1956 **Teaching Evidence-Based Medicine**

Daniella A. Zipkin, 2022-12-23 Practicing evidence based medicine is widely regarded both as best clinical practice and as the cornerstone of meeting the ACGME competencies in Practice Based Learning and Improvement Training programs recognize the need to teach the skills of EBM and yet struggle with readily available content and guidance on putting together a curriculum Time frames for delivering curricula in residency can be very tight often restricted to scattered one hour conferences This book provides a modular curriculum structure for instructors with each topic area taking up one section or one hour of instructional time Developed over the past 14 years as an introductory course for interns in the internal medicine residency program at Duke the curriculum will cover core content areas in evidence based medicine and best teaching practices for them and skills such as literature searching and applying evidence to patients Most importantly it will center on actual patient questions and use current literature as examples that instructors can use as teaching exercises There will also be ample diagrams that have been shown to be effective with learners and each module will include a video tutorial of a sample teaching session including visual aids and small group teaching techniques The curriculum can be implemented in any time frame necessary compressed or longitudinal to a variety of learners This is an ideal guide for residency program directors and core faculty either within internal medicine or more broadly in family medicine pediatrics surgery OB gyn as well as medical school faculty for use with students Learning in times of COVID-19: Students', Families', and Educators' Perspectives Sina Fackler, Timo Gnambs, Karin Gehrler, Kathrin Lockl, Ariel Mariah Lindorff, Karin Sørbye Street, 2022-06-03
