Abr g de l'histoire de l'Ukraine Mykhaïlo Hrushevs'kyï,1920 **La famille dans l'ordre juridique de l'Union europ enne / Family within the Legal Order of the European Union** Elsa Bernard,Marie Cresp,Marion Ho-Dac,2020-12-31 Le droit de la famille dans

sa dimension civiliste fortement ancrée dans les cultures nationales des États membres est une matière qui ne relève pas en principe du droit de l'Union européenne. Pourtant, il n'est plus possible d'affirmer que la matière échappe dans son entier au droit de l'Union. De nombreux aspects de la famille sont sous influence européenne au point que l'on voit se dessiner les contours d'une famille européenne. L'ouvrage propose de mettre en lumière l'acquis européen en matière de droit de la famille au prisme du droit matériel, du droit de l'Union, de la politique sociale de l'Union, de la fonction publique européenne, du droit international privé. Le droit de la famille de l'Union s'identifie alors comme un droit spécial complétant la diversité des droits nationaux de la famille. Sa signification théorique et politique dans l'Union est débattue par les auteurs autant que son devenir. Loin de demeurer fragmentaire, c'est des droits nationaux des États membres qu'il a probablement vocation à se densifier pour offrir aux citoyens et résidents européens un droit commun de la famille au sein de l'Union. Family law with its civil law tradition and strong roots in the national cultures of the Member States does not normally fall within the scope of European law. However, it is no longer possible to argue that family law is outside European law entirely. There are many aspects of the family which are subject to European influence to the point that the outlines of a European family are starting to emerge. This book is intended to highlight the European experience of family law and its substantive, i.e. European citizenship, EU social policy, EU civil service and private international law aspects. Union law therefore contains a form of special family law which is shared between the Member States and supplements their national family laws. Its theoretical and political importance in the Union as well as its future are discussed by the authors. Far from remaining fragmented alongside the national laws of Member States, it will likely develop to offer European citizens and residents a common family law within the EU.
