Handbook of the Board of World Missions of the Lutheran Church in America, 1964 **Dictionary of Luther and the Lutheran Traditions**, 2017-08-22 In the five hundred years since the publication of Martin Luther's Ninety Five Theses a rich set of traditions have grown up around that action and the subsequent events of the Reformation This up to date dictionary by leading theologians and church historians covers Luther's life and thought key figures of his time and the various traditions he continues to influence Prominent scholars of the history of Lutheran traditions have brought together experts in church history representing a variety of Christian perspectives to offer a major cutting edge reference work

Documentary History of Lutheranism, Volumes 1 and 2 Mark A. Granquist, Eric Lund, 2017-11-10. This unique collection of excerpts from Lutheran historical documents, many translated here for the first time, presents readers with a full picture of how the Lutheran movement developed in its thought and practice. Covering not only theology but also church life, popular piety and influential historical events, the primary documents include theological treatises, confessional statements, liturgical texts, devotional writings, hymns, letters and diaries, satirical polemics, political documents, woodcuts and pamphlet literature. This first volume covers the chronological period from Luther's first calls for reform to the development of Lutheran Orthodoxy and Pietism during the seventeenth century. The judiciously selected and carefully translated texts, as well as the contextualizing information provided in each chapter's introductory essay, acquaint readers with the turbulence and fervor of this revolutionary Christian movement, its struggles for survival and consolidation and its further evolution up to the dawn of the Enlightenment. *Global Lutheranism in the Contemporary World* Richard Cimino, 2025-07-18. This book explores Lutheranism and its various expressions throughout the world. This Protestant tradition has spread and developed far from its European and American heartlands to take on increasingly diverse forms. The global dispersion of Lutheranism and how it interacts with different cultures and worldviews has resulted in Lutheran pluralism in theology and church practices. Still, there are distinctive Lutheran teachings that are present in most churches going by that name. However complex the concept of world Lutheranism may be, this volume demonstrates that a wide-angle view can best be achieved through understanding national Lutheran expressions and the lived religion of these churches and their adherents. The globalization of Christianity has impacted all communions, but at the same time, local and national contexts and institutions remain crucial in mediating global and transnational flows and shaping Christian identity, particularly as globalization has been challenged by nationalism and populism. The contributors employ historical and sociological research methods along with theological analysis to understand Lutheranism. The chapters consider prospects for Lutheranism and Lutheran identity in vastly different societies, reflecting the continuing growth of Lutheran churches in the global South and East. The countries and regions examined may not comprise all of the world's Lutherans, but they are in most cases the societies with the strongest Lutheran presence that will decide the future of Lutheranism. The book will be of particular interest to scholars of global Christianity and the history

of Christianity Transloyalties, Connected Histories and World Christianity during the Period of Decolonization and the Cold War Frieder Ludwig, Ellen Veas Rosnes, Joar Haga, Marina Xiaojing Wang, Jairzinho Lopes Pereira, 2025-06-30 Focusing on the history of World Christianity this book relates the concept of transloyalties to developments during the Period of Decolonization and the Cold War This was a time when the terms loyal and loyalty became more frequently used not only in the United States where a loyalty program was introduced but also in Africa Asia and Europe Churches and ecumenical organizations had to navigate in this context of new loyalty demands They had to clarify whether changes in church state relations and corresponding changes in their organizational structures were necessary or whether they affected core identities Was the restriction or exclusion of Western missionaries a threat to the universal character of the church or a transition to self governing churches How did African and Asian churches relate to Western mission societies in the new context Was the strive for justice a basis for cooperation with socialist governments or were the concepts fundamentally different How were denominations organized at a national level Which forms of church government were chosen Which denominations could become members of Christian Councils that represented joint interests toward the states These are some of the questions that underlie the importance of this volume to the study of the history of World Christianity
