impactful solutions to global development challenges we have learnt that technology alone cannot be a solution to the problem. It has to be seen in the context where the solution is applied. The world crisis should spur us all to explore a new form of globalization for the future years, one that prioritizes collective investment in global public goods including technological and ethical goods to the benefit of all. Such global integration must enable diverse stakeholders from across the public, private, and non-profit sectors worldwide to work more effectively and sustainably together. The 6th International Conference on Sustainable Innovation 2022 brings out the issues of the Sustainable Innovation and Global Society. With the main theme of Optimizing Global Benefit for Future Wellbeing, this conference is trying to play a role as a vehicle of showcasing scientific works from around the world, not only from researchers, lecturers, government officers, students, and all parties with the same interests alike. Finally, all 51 papers published in this proceedings are expected not only as research output but can be developed further into prototypes or evidence for policy making.
