

### INTRODUCTION

All Honda Power Equipment engines (except metering diaphragm, LPG-fueled, and diesel models) have float-bowl-type carburetors. Currently, there are seven distinct carburetor code groups. The code is cast into the carburetor as shown in the illustration below.

The code groups differ in body shape, control location and jet types, but they all share similar inspection and adjustment procedures. This manual is intended to be a general guide to Honda Power Equipment float bowl type carburetors. Refer to the appropriate shop manual for more specific information about individual models.
