China cooperation Non-Traditional Security Issues and the South China Sea Shicun Wu, Keyuan Zou, 2016-05-23 While there is abundant literature discussing non traditional security issues there is little mention of such issues existing in the South China Sea This area is vulnerable to natural hazards and marine environmental degradation The marine ecosystem is threatened by various adverse sources including land based pollution busy shipping lanes and over exploitation activities which threaten the security of the surrounding population This area is also threatened by piracy and maritime crimes but law enforcement becomes difficult due to unclear maritime boundaries This volume is designed to explore the security cooperation and regional approaches to these non traditional security issues in the hope to build a peaceful environment and maintain international and regional security and order in the South China Sea region China and Southeast Asia in the Xi Jinping Era Alvin Cheng-Hin Lim, Frank Cibulka, 2018-12-12 In 2012 the Communist Party of China CPC inaugurated the Xi Jinping era when it elected him to be the General Secretary of the CPC The following year Xi was elected President of the People s Republic of China The Xi Jinping era has seen a remarkable transformation of Chinese foreign policy which has been adjusted to facilitate the achievement of what Xi has proclaimed as the Great Rejuvenation of the Chinese Nation Xi s Belt and Road Initiative has become a major element of Chinese economic diplomacy while the Chinese military industrial complex under his leadership has strengthened China s extensive claims in the South China Sea with reclamation works and the installation of military facilities on its occupied islands This edited volume will focus on the countries of Southeast Asia and examine how their relations with China have been transformed in the Xi Jinping era The Domestic Sources of China's Foreign Policy Lai Hongyi, 2010-04-28 As China s political and economic influence in the world is rapidly increasing it is essential to understand how China s domestic politics affects its foreign political and economic policy This book offers an accessible informative and up to date systemic analysis of the foreign policy of China Where mainstream literature on international relations usually suggests that China s foreign policy is primarily determined by external factors such as the international system and external settings this book demonstrates instead that domestic factors profoundly shape China s foreign policy from the late Mao s era to the reform era It demonstrates how China s foreign policy is driven by the preservation of political and economic regimes the political survival of the top leader the top leader s vision for and skills in managing external affairs the leader s policy priorities dramatic events and the process of policymaking It presents its argument in depth analysis of major cases of Chinese foreign policy for example China s difficult relations with Southeast Asia China s 15 year accession to the World Trade Organization WTO China s oil diplomacy in the recent decade and the diversified process of foreign policy making in the twenty first century **Changing European Visions of Disaster and Development** Vanessa Pupavac, Mladen Pupavac, 2020-09-02 Goethe s 1832 poem Faust offers a vision of humanity realising freedom and prosperity through transcending natural adversity Changing European Visions of Disaster and Development returns to Faust as a way of exploring the rise and fall of European humanist aspirations to build free and prosperous

national political communities protected from natural disasters Faust stories emerged in early modern Europe linked to the shaking of the traditional religious and political order and the pursuit of new areas of human knowledge and activity which led to a shift from viewing disasters as acts of God to acts of nature Faust's dam building and land reclamation project in Goethe's poem was inspired by Dutch hydro engineering and in turn inspired others Faustian dreams of an engineered future were pursued by the American Yugoslav inventor Nikola Tesla and the country of his birth towards establishing its national independence and escaping the fate of being a borderland Faust remains a compelling reference point to explore European visions of disaster and development If Faust captured the European spirit of earlier centuries what is today's outlook Ambitious Faustian development visions to eradicate natural disasters have been replaced by anti Faustian risk cosmopolitanism sceptical towards human activity in ways counter to building collective protection from disaster Tesla's country of birth fears returning to being an insecure borderland of Europe This powerful and timely book calls for a rekindling of European humanism and Faust's vision of free people standing on free land

Yunnan-A Chinese Bridgehead to Asia Tim Summers, 2013-05-15 The Chinese Government's five year strategy for social and economic development to 2015 includes the aim of making the southwestern province of Yunnan a bridgehead for opening the country to southeast Asia and south Asia Yunnan A Chinese Bridgehead to Asia traces the dynamic process which has led to this policy goal a process through which Yunnan is being repositioned from a southwestern periphery of the People's Republic of China to a bridgehead between China and its regional neighbours It shows how this has been expressed in ideas and policy frameworks involvement in regional institutions infrastructure development and changing trade and investment flows from the 1980s to the present Detailing the wider context of the changes in China's global interactions especially in Asia the book uses Yunnan's case to demonstrate the extent of provincial agency in global interactions in reform era China and provides new insights into both China's relationships with its Asian neighbours and the increasingly important economic engagement between developing countries Offers a new perspective on Yunnan Contains historical depth understanding the background and developments over time means that this China watching book will not date quickly Takes a provincial view of China's international relations

P. Chou, 2011 This book examines the interplay of two sets of policies the Chinese government's policies to its borderlands and international relations It proposes a conceptual framework and argues that China's policymakers fail to make complete use of the opportunities in the borderlands for accomplishing foreign policymakers agenda to strengthen China's relations with other countries neighboring ones in particular As a result these foreign policies reflect the political elites inadequate consideration of the negative impact of these policies on the borderlands and underscore their worry for territorial disintegration Therefore these policies center on the pursuit of central control through exercising administrative military coercion making the borderlands economically dependent standardizing the cultural identity and indoctrinating CCP defined

ideology The challenges of the borderlands to the national integration are exaggerated so much that political elites pursued control and standardization at the expense of the identification of many people in borderlands with the regime China's international image and the relations with its neighbouring countries China Perspectives, 2009 *ASEAN-China Relations* Saw Swee-Hock, Sheng Lijun, Chin Kin Wah, 2005 The past decade has witnessed rapid development in ASEAN China relations Both sides now have more in common than before though differences still exist ASEAN and China have established a promising strategic partnership ensuring peace stability co operation as well as prosperity for the region New challenges will however continue to emerge to test the resolve of the partnership This book examines some of the areas of convergence and divergence and the possible trajectories of the development of ASEAN China relations China's "New" Diplomacy P. Kerr, S. Harris, Q. Yaqing, 2016-04-30 Bringing together Chinese and Western scholars of diplomacy this book highlights the view that China's new diplomacy is an instrument of foreign policy a socialising process that fosters both positive and negative change and an important indicator of China's future role **Interpreting China as a Regional and Global Power** B. Dessein, 2014-11-25 This collection discusses China's contemporary national and international identity as evidenced in its geopolitical impact on the countries in its direct periphery and its functioning in organizations of global governance This contemporary identity is assessed against the background of the country's Confucian and nationalist history *Beijing's Power and China's Borders* Bruce Elleman, Stephen Kotkin, Clive Schofield, 2015-05-18 China shares borders with 20 other countries Each of these neighbors has its own national interests and in some cases these include territorial and maritime jurisdictional claims in places that China also claims Most of these 20 countries have had a history of border conflicts with China some of them never amicably settled This book brings together some of the foremost historians geographers political scientists and legal scholars on modern Asia to examine each of China's twenty land or sea borders
