and wit He discourages whatever is slovenly pretentious or pedantic GMEU is the liveliest and most compulsively readable reference work for writers of our time It delights while providing instruction on skillful persuasive and vivid writing Garner liberates English from two extremes both from the hidebound purists who mistakenly believe that split infinitives and sentence ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever available In this fourth edition Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources No other resource provides as comprehensive reliable and empirical a guide to current English usage For all concerned with writing and editing GMEU will prove invaluable as a desk reference Garner illustrates with actual examples cited with chapter and verse all the linguistic blunders that modern writers and speakers are prone to whether in word choice syntax phrasing punctuation or pronunciation No matter how knowledgeable you may already be you are sure to learn from every single page of this book

Harry Potter , **Comparison** Rita Felski, Susan Stanford Friedman, 2013-06-15 An extended volume of New Literary History that considers the practice of comparison in literary studies and other disciplines within the humanities Writing and teaching across cultures and disciplines makes the act of comparison inevitable Comparative theory and methods of comparative literature and cultural anthropology have permeated the humanities as they engage more centrally with the cultural flows and circulation of past and present globalization How do scholars make ethically and politically responsible comparisons without assuming that their own values and norms are the standard by which other cultures should be measured Comparison expands upon a special issue of the journal New Literary History which analyzed theories and methodologies of comparison Six new essays from senior scholars of transnational and postcolonial studies complement the original ten pieces The work of Gayatri Chakravorty Spivak Ella Shohat Robert Stam R

Radhakrishnan Bruce Robbins Ania Loomba Haun Saussy Linda Gordon Walter D Mignolo Shu mei Shih and Pheng Cheah are included with contributions by anthropologists Caroline B Brettell and Richard Handler Historical periods discussed range from the early modern to the contemporary and geographical regions that encompass the globe Ultimately Comparison argues for the importance of greater self reflexivity about the politics and methods of comparison in teaching and in research

Di Leo, 2024-04-27 This book argues that a critical understanding of dark academe is vital to the futures of democracy and education Drawing upon contemporary literary and cultural theory particularly affect theory queer epistemology and critical race theory as well as critiques of capitalism and accounts of the death drive it builds a case for identifying dark academe as anything that prohibits the pursuit of democratic education and

critical citizenship It also argues that dark times require a reassessment of the ways theory and knowledge are approached in the humanities This is necessary if the aim is to truly understand the darkness at the heart of the higher education today Dark academe works to negate education and learning by continuously telling us that the quest for knowledge is empty and the pursuit of critique is blind In this educational darkness the death drive of neoliberal academe becomes a force that works against intellectual transformation and the deepening of critical sights
