Mitchell, 2014-08-11 The first text of its kind to trace the combined history of Latino groups in the United States from 1500 to the present day Latinos have lived in North America for over 400 years arriving decades before the Pilgrims and other English settlers Yet for many outside of Latino ethnic groups little is known about the cultures that

comprise the Latino community surprising considering their increasing presence in the U S population over 50 million individuals at the latest census This book explores the heritage and history of Mexicans Puerto Ricans Cubans Dominicans and Central and South Americans Unlike similar history surveys on these communities this book places the 500 years of Latino history into a single narrative Each chapter discusses the collective group within a particular time period moving chronologically from 1500 to the 2010s revealing the shared experiences of community building and discrimination in the United States the central role of Latinas and Latinos in their communities and the diversity that exists within the communities themselves The Routledge History of Twentieth-Century United States Jerald Podair, Darren

Rodriguez, 2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States *Hispanic Muslims in the United States*

Victor Hugo Cuartas,2020-03-31 The empirical case in this study is that of the Hispanic Catholic converts to Islam in the Washington DC Metropolitan and New Jersey areas of the United States The central research question is To what extent do Hispanic Muslim converts play a role in making different choices regarding religious commitment and practice The argument is that not only do both the more and less active converts play a central role in making choices during the pre affiliation and post affiliation stages but that these choices can often be strategic in nature as they practice the new religion in the United States These choices are shaped by multiple factors This contributes to a new understanding of the prevailing debates among Muslims in Europe and the United States on the nature of Muslim minorities in the West that Muslims here are not merely transplanted but are active participants of diverse expressions of local Islam The evidence in my research shows that being less active does not mean converts do not play a role or make choices Both more active and less active converts make choices based on multiple factors This is especially significant as the main aim of this thesis is to show that the converts make choices and play a role in the post affiliation stage and that these often have strategic elements Voices of the U.S. Latino Experience Rodolfo F.
