Cannabis Britannica James H. Mills, 2003-09-11 Cannabis Britannica explores the historical origins of the UK s legislation and regulations on cannabis preparations before 1928 It draws on published and unpublished sources from the seventeenth century onwards from archives in the UK and India to show how the history of cannabis and the British before the twentieth century was bound up with imperialism James Mills argues that until the 1900s most of the information and experience gathered by British sources were drawn from colonial contexts as imperial administrators governed and observed populations where use of cannabis was extensive and established This is most obvious in the 1890s when British anti opium campaigners in the House of Commons seized on the issue of Government of India excise duties on the cannabis trade in Asia in order to open up another front in their attacks on imperial administration The result was that cannabis preparations became a matter of concern in Parliament which accordingly established the Indian Hemp Drugs Commission The story in the twentieth century is of the momentum behind moves to include cannabis substances in domestic law and in international treaties The latter was a matter of the diplomatic politics of imperialism as Britain sought to defend its cannabis revenues in India against American and Egyptian interests The domestic story focuses on the coming together of the police the media and the pharmaceutical industry to form misunderstandings of cannabis that forced it onto the Poisons Schedule despite the misgivings of the Home Office and of key medical professionals The book is the first full history of the origins of the moments when cannabis first became subjected to laws and regulations in Britain

Ethics and Danger Arleen B. Dallery,Charles E. Scott,Director of the Vanderbilt Center for Ethics and Distinguished Professor of Philosophy Charles E Scott,P. Holley Roberts,1992-01-01 Ethics and Danger examines Heidegger s association with German National Socialism and attempts to understand both the question of politics in Heidegger s thought and the

thought that gives rise to that question It explores the contribution of Heidegger s work to issues of ethics technology and social theory as well as his relationship to other thinkers such as Parmenides Aristotle Hegel Husserl Benjamin Levinas Rorty Foucault and Derrida Finally it addresses the more general question of the future of ethical thought within continental philosophy In order to engage the ethical issues surrounding Heidegger s life and thought the authors speak of dangers such as facism and the facile self congratulatory moral stance that Heidegger exemplifies The question of how to speak in the wake of Heidegger s thought takes many forms and the answers represent a diversity of viewpoints from both American and continental thinkers *The New Russia* ,1920 **Bulletin on Narcotics** ,1951 **Ciba Symposia** ,1946

Congress. House. Select Committee on Narcotics Abuse and Control, 1979 [Cannabis, Sacred and Profane](#) Christopher Partridge, 2024-08-22 Focussing on the ways in which cannabis has been demonized sacralized and normalized

Christopher Partridge analyses the complex and often difficult relationship Western societies have had with the plant since the nineteenth century. After an introduction to cannabis and its uses, the book discusses how and why it was constructed as a profane influence and a marker of deviance. It then examines the emergence of medicinal cannabis, showing how this has contributed to its normalization and even its sacralization. Finally, there is a discussion of sacred cannabis, which looks at its use within modern occultism, Rastafari, and several cannabis churches. Overall, the book provides a cultural history of cannabis in the modern world, which exposes the underlying reasons for the various and changing attitudes to this popular psychoactive substance.
