Keith Gilyard

Keeping Faith Philosophy And Race In America:

Keeping Faith Cornel West, 1993 Keeping Faith offers West's distinctive mix of political passions and careful scrutiny. Whether exploring the new cultural politics of difference, American pragmatism or race and social theory, he sustains a difficult balance between a subtly argued critique of the past and present and a broadly conceived, daring vision of the future. Both troubling and exhilarating, Keeping Faith maps not only the concerns of one of the most significant public intellectuals of our time but issues crucial to Americans of all races.

Keeping Faith Cornel West, 1993 This powerful collection of essays ranges widely across politics and philosophy in America: the role of the black intellectual, legal theory and the future of liberal thought and the fate of African Americans. The author of Race Matters, West lectures widely and appears frequently on TV.

Communicative Rationality and Deliberative Democracy of Jürgen Habermas Ukoro Theophilus Igwe, 2004 This book critically investigates Jürgen Habermas's attempt to develop a communicative conception of human rationality. It explores Habermas's fundamental commitment to the practical import and ramifications of communicative rationality in the field of African political philosophy. Within this context, Habermas's ambitious project to reconcile law, justice and democracy is wide-ranging. This work explores how it is among other things that deliberative institutions can become more democratic through as Dewey put it, improvements in the methods and conditions of debate, discussion and persuasion.

Christianity, Democracy, and the Radical Ordinary Stanley Hauerwas, Romand Coles, 2008-01-01 In Christianity, Democracy and the Radical Ordinary, theologian Stanley Hauerwas and political theorist Romand Coles reflect about possibilities and practices of radical democracy and radical ecclesia that take form in the textures of relational care for the radical ordinary. They seek to shift political and theological imaginations beyond the limits of contemporary political formations such as global capitalism, the mega state and empire which they argue are based upon both the denial and production of death. Hauerwas and Coles call us to a revolutionary politics of wild patience that seeks transformation through attentive practices of listening, relationship building and a careful tending to places, common goods and diverse possibilities for flourishing. Both authors translate back and forth across as well as dwell in the tensions between the languages of radical democracy and of trial, cross and resurrection. Engaging each other through a variety of genres from essays to letters to co-writing and dialogue, Hauerwas and Coles seek to enact a politics that is evangelical in its radical receptivity across strange differences and that cultivates power in relation to vulnerability. The authors argue that there is a strong relation between hope and imagination as well as between imagination and the encounter with and memory of those who have lived with receptive generosity toward the radical ordinary. Hence throughout this book they think extensively in relation to specific lives and practices from Ella Baker and the early Student Nonviolent Coordinating Committee organizing efforts for beloved community and civil rights to L'Arche communities founded by Jean Vanier to contemporary faith-based radical democratic organizing efforts in dozens of cities by the Industrial Areas Foundation. Pushing and pulling each other into new and insightful journeys of political

imagination this conversation between a radical Christian and a radical democratic trickster spurs us toward a politics that acknowledges tends to and enacts the powers of the radical ordinary **Composition and Cornel West** Keith Gilyard, 2008-05-05 *Composition and Cornel West* Notes toward a Deep Democracy identifies and explains key aspects of the work of Cornel West the highly regarded scholar of religion philosophy and African American studies as they relate to composition studies focusing especially on three rhetorical strategies that West suggests we use in our questioning lives as scholars teachers students and citizens In this study author Keith Gilyard examines the strategies of Socratic Commitment a relentless examination of received wisdom Prophetic Witness an abiding concern with justice and the plight of the oppressed and Tragicomic Hope a keep on pushing sensibility reflective of the African American freedom struggle Together these rhetorical strategies comprise an updated form of cultural criticism that West calls prophetic pragmatism This volume which contains the only interview in which Cornel West directly addresses the field of composition sketches the development of Cornel West's theories of philosophy political science religion and cultural studies and restates the link between Deweyan notions of critical intelligence and the notion of critical literacy developed by Ann Berthoff Ira Shor and Henry Giroux Gilyard provides examples from the classroom to illustrate the possibilities of Socratic Commitment as part of composition pedagogy shows the alignment of Prophetic Witness with traditional aims of critical composition and in his chapter on Tragicomic Hope addresses African American expressive culture with an emphasis on music and artists such as Curtis Mayfield Marvin Gaye Aretha Franklin and Kanye West The first book to comprehensively connect the ideas of one of America's premier scholars of religion philosophy and African American studies with composition theory and pedagogy *Composition and Cornel West* will be valuable to scholars teachers and students interested in race class critical literacy and the teaching of writing
