acute awareness and manipulation of this phenomenon Underpinning these investigations is the argument that theatrical time and especially Shakespearean time is rooted in temporal conflict and thickness the heightened sense of the present moment bearing the weight of both the past and the future Throughout the book Wagner traces the ways in which time transcends thematic and metaphorical functions and forms an essential part of Shakespearean stage praxis *Icon to Cartoon* Sixten Ringbom,1995 *The Wisdom and Power of the Cross* Richard Viladesau,2020-09-17 The Wisdom and Power of the Cross is the fifth and final entry in Richard Viladesau s well regarded series on the theology of the cross from the historical crucifixion of Jesus to the present day Continuing his analysis of theological history through cultural contexts this volume correlates theoretical approaches with artistic representations showing the relation of theoretical to imaginative approaches The Wisdom and Power of the Cross examines modern and contemporary thought and images which look at the cross in the light of modern historical and scriptural studies science and the novelties of modern and post modern art and music Viladesau here considers how the passion of Christ has been thought about by theologians and portrayed by artists in the modern world Contemporary art and music reveal the lasting power of traditional images of the passion as well as new possibilities for expression The Wisdom and Power of the Cross surveys both traditional approaches to soteriology and revisionist theologies that take up the challenge of the meaning of the cross today in light of critical historical studies and modern science providing new understandings of traditional concepts like original sin and redemption Through his in depth exploration of the interweaving of aesthetic and conceptual theology Viladesau once more deepens our understanding of the foremost symbol of Christianity and its role in salvation history **A catalogue of miscellaneous books ... for 1842, on sale ... by Robert Baldock, etc** Robert BALDOCK,1842 **Rethinking the Republic of Letters** Koen Scholten,2025-10-01 This book offers a revisionist look at the historiography of the Republic of Letters and the community of learning in early modern Europe It suggests a new approach conceptualising the learned world as a web of imagined communities in which the members do not know all their peers These communities formed through distinct memory cultures and the representation of and identification with collective identities Rethinking the Republic of Letters looks at early modern biographical dictionaries vitae eulogies letters travelogues and funerary monuments of early modern learned men to trace the re formation of these communities It thereby offers a novel perspective on early modern learned communities the many Republics of Letters *A Catalogue of Books, Including the Libraries of the Rev.
