Buddhism and Whiteness Emily McRae, George Yancy, 2019-05-13 The motivation behind this important volume is to weave together two distinct but we think complementary traditions the philosophical engagement with race whiteness and Buddhist philosophy in order to explore the ways in which these traditions can inform correct and improve each other This exciting and critically informed volume will be the first of its kind to bring together essays that explicitly connect these two traditions and will mark a major step both in

understanding race and whiteness with the help of Buddhist philosophy and in understanding Buddhist philosophy with the help of philosophy of race and theorizations of whiteness We expand upon a small but growing body of work that applies Buddhist philosophical analyses to whiteness and racial injustice in contemporary U S culture Buddhist philosophy has much to contribute to furthering our understanding of whiteness and racial identity the mechanisms that create and maintain white supremacy and the possibility of dismantling white supremacy We are interested both in the possible insights that Buddhist metaphysical epistemological and ethical analyses can bring to understanding race and whiteness as well as the potential limitations of such Buddhist inspired approaches In their chapters contributors draw on Buddhist philosophical and contemplative traditions to offer fresh insightful and powerful perspectives on issues regarding racial identity and whiteness including such themes as cultural appropriation mechanisms of racial injustice and racial justice phenomenology of racial oppression epistemologies of racial ignorance liberatory practices with regard to racism Womanism and the intersections of gender based raced based and sexuality based oppressions Authors make use of both contemporary and ancient Buddhist philosophical and contemplative traditions These include various Asian traditions including Theravada Mahayana Tantra and Zen as well as comparatively new American Buddhist traditions

Ethnic Studies Research Timothy P. Fong, 2008 Ethnic Studies Research synthesizes and benchmarks ethnic studies methodologies as interdisciplinary modes of inquiry providing state of the art summary chapters on key methods and issues extensive bibliographies and promising new directions for the future The study of ethnic groups and race relations has always existed in academia primarily in the areas of sociology and anthropology However grassroots movements for ethnic studies programs and departments developed with very different agendas for the study of these groups It is surprising then that relatively few books devoted to these methods exist to document and promote this innovation among succeeding generations of graduate students as well as current academics and professional practitioners Ethnic Studies Research is a step toward ending that void Book jacket

White Ignorance and Complicit Responsibility Eva Boodman, 2022-01-10 White ignorance is a form of collective denial that aggressively resists acknowledging the role of race and racism It dominates our political landscape warps white moral frameworks and affective responses intervenes in white self conceptions and organizes white identities In this way white ignorance poses a problem for conceptions of responsibility that rely on individuals intentions causal contributions or knowledge of the facts As Eva Boodman shows our moral concepts for responding to racism are implicated in the process of racialization when they understand responsibility as the attribution of blame or absolution innocence or guilt *White Ignorance and Complicit Responsibility* challenges these binary punitive moralities arguing that they reproduce racial harm by encouraging white people to seek innocence and the purification of moral taint instead of addressing the material conditions of racial harm Instead Boodman claims the space of complicity as a place of anti racist possibility Linking the construction of whiteness to a racist punishment paradigm this book makes the case for a different way of responding to harm as necessary for dismantling the moral racial political and affective constructs that keep racial capitalism in place

Williams,2024-12-15 Hip Hop and Political Voice for Young South Sudanese Australians Born to Stand Out explores the building of political voice of young South Sudanese Australians to resist racialising discourses particularly through hip hop Presented as an ethnography Sarah J Williams draws on empirical evidence from a youth participatory action research project facilitated by a small nonprofit organisation Footprints Each chapter foregrounds counter narratives young South Sudanese Australian hip hop artists portray in response to over a decade of media and moral panics targeting their communities limiting their sense of freedom and resulting in a rise in youth

suicide The core message throughout suggests participants reject any goal of or focus on fitting in Instead based on their conviction that they are born to stand out these artists carve out space in the face of racialising discourses perpetuated primarily by Australian Whiteness Through the lenses of new social movements and theories and perspectives informed by critical race theory and critical Hip Hop pedagogy this book expands race and ethnicity as a central theme by exploring how the political voice of this group of young South Sudanese Australians manifests in important new ways that conventional theories of activism and resistance may not capture Participants embark on consciousness raising practices to reframe and assert their multiple identities whilst establishing themselves as social agents in the world

Indifference to Difference Madhavi Menon, 2015-12-16 Indifference to Difference organizes around Alain Badiou's suggestion that in the face of increasing claims of identitarian specificity one might consider the politics and practice of being indifferent to difference Such a politics would be based on the superabundance of desire and its inability to settle into identity Madhavi Menon shows that if we turn to another kind of universalism not one that insists we are all different but one that recognizes we are all similar in our powerlessness to contain desire then difference no longer becomes the focus of our identity Instead we enter the worlds of desire Following up on ideas of sameness and difference that have animated queer theory Menon argues that what is most queer about indifference is not that it gives us queerness as an identity but that it is able to change queerness into a resistance of ontology Firmly committed to the detours of desire queer universalism evades identity This polemical book demonstrates that queerness is the condition within which we labor Our desires are not ours to be owned they are indifferent to our differences

The Social Imperative Paula L. Moya, 2015-12-23 In the context of the ongoing crisis in literary criticism The Social Imperative reminds us that while literature will never by itself change the world it remains a powerful tool and important actor in the ongoing struggle to imagine better ways to be human and free Figuring the relationship between reader and text as a type of friendship the book elaborates the social psychological concept of schema to show that our multiple social contexts affect what we perceive and how we feel when we read Championing and modeling a kind of close reading that attends to how literature reflects promotes and contests pervasive sociocultural ideas about race ethnicity gender and sexuality Paula M L Moya demonstrates the power of works of literature by writers such as Junot Diaz Toni Morrison and Helena Maria Viramontes to alter perceptions and reshape cultural imaginaries Insofar as literary fiction is a unique form of engagement with weighty social problems it matters not only which specific works of literature we read and teach but also how we read them and with whom This is what constitutes the social imperative of literature
