## **Ido In Autismland Climbing Out Of Autisms Silent Prison:**

**Ido in Autismland. Climbing Out of Autism's Silent Prison** Ido Kedar, 2016 What is autism Is it a long list of behaviors or is it more Experts looked at my outside deficits eye contact impairment hand flapping and social delay and concluded that my inside was equally impaired They assumed I did not understand language recognize my parents or have a thought more advanced than a toddler s They supposed my brain could be molded in increments by drilling me on names and basic nouns or by telling me to jump or sit or touch my nose over and over This was the educational model I grew up with Now I am telling you what I couldn t tell my experts when I was stuck in my silent prison for so many years you were wrong Worse you were treating the wrong symptoms In my essays I explain autism from the inside out It is my dream that my book will help my friends and so many other non verbal autistic people to be liberated as I was I want a cure and I want communication now for all those still trapped in silence Thank you for listening to a silent boy no more Ido Kedar at age 13

*Controversial Therapies for Autism and Intellectual Disabilities* Richard M. Foxx, James A. Mulick, 2015-10-14 One of the largest and most complex human services systems in history has evolved to address the needs of people with autism and intellectual disabilities yet important questions remain for many professionals administrators and parents What approaches to early intervention education treatment therapy and remediation really help those with autism and other intellectual disabilities improve their functioning and adaptation Alternatively what approaches represent wastes of time effort and resources *Controversial Therapies for Autism and Intellectual Disabilities* 2nd Edition brings together leading behavioral scientists and practitioners to shed much needed light on the major controversies surrounding these questions Expert authors review the origins perpetuation and resistance to scrutiny of questionable practices and offer a clear rationale for appraising the quality of various services The second edition of *Controversial Therapies for Autism and Intellectual Disabilities* has been fully revised and updated and includes entirely new chapters on psychology fads why applied behavioral analysis is not a fad rapid prompting relationship therapies the gluten free casein free diet evidence based practices state government regulation of behavioral treatment teaching ethics and a parents primer for autism treatments **Outsmarting Autism, Updated and Expanded** Patricia S. Lemer, 2019-03-19 Nautilus Award Winner 2019 Silver in Parenting Family A comprehensive resource for parents therapists caregivers and educators packed with lifelong strategies for Autism Spectrum Disorder ASD management and support Newly revised and updated this user friendly guide addresses autism identification treatment and prevention from pre conception through adulthood *Outsmarting Autism* describes more than 50 practical approaches with proven efficacy including lifestyle modification dietary considerations and boosting the immune system After health improves focus turns to developing the sensory foundations for communication social skills and learning Patricia Lemer s approach is grounded in research on multifactorial causes or Total Load Theory which explains that developmental delays are caused not by one single factor but by an overload of environmental stressors on genetically vulnerable individuals

Because every person with autism is unique this book guides readers to the therapies that may be right for each individual helping to make the difference between management and healing New research on topics like stem cells cannabis and dentistry is now included *Trauma, Stigma, and Autism* Gordon Gates,2019-01-21 This book explores how stigma can cause trauma providing guidance on how marginalised people can develop resilience to manage and heal from traumatic stigma Gordon Gates draws on his experience as a crisis counsellor philosophical research and his lived experience of stigma trauma and autism *I Will Die On This Hill* Meghan Ashburn,Jules Edwards,2023-01-19 There is a significant divide between autistic advocates and parents of autistic children Parents may feel attacked for their lack of understanding and autistic adults who offer insight and guidance are also met with hostility and rejection Meghan Ashburn a mother of two autistic boys and Jules Edwards an autistic parent were no strangers to this tension and had an adversarial relationship when they first met Over time the two resolved their differences and are now co conspirators in the pursuit of disability justice This book unites both perspectives exploring the rift between these communities and encouraging them to work towards a common goal It provides context to dividing issues and the authors use their experience to illustrate where they ve messed up where they ve got things right and what they ve learned along the way *Autism and the Power of Music* Yasmine L. White,2021-11-16 Yasmine s emphasis on social communication emotional regulation and supportive relationships embodies the most effective cutting edge approaches for supporting autistic individuals *Autism and The Power of Music* is a much needed resource for parents to connect with their children through music and will also be embraced by educators and clinicians who wish to infuse joyful learning experiences in their work Barry M Prizant CCC SLP Brown University and author of *Uniquely Human A Different Way of Seeing Autism* Music therapist Yasmine White shares the insights she s developed after decades of working with children teens and adults on the autism spectrum both in private practice and as founder of Voices Together a non profit music therapy organization that brings her effective techniques to schools across North Carolina The techniques featured in this book are designed to bring back the connection of joy motivation and understanding that everyone needs in order to truly grow As any parent of a child with autism understands sometimes helping your child can feel overwhelmingly hard *Autism and the Power of Music* helps find insightful practical new ways for you and your child to connect through music even when it feels difficult Because music and language may be processed in the same hemisphere of the brain in children on the spectrum the techniques in this book can help unlock language in an entirely new way Music becomes a bridge to help children access language in ways other approaches cannot As Dr Terri L Shelton says in her foreword To have an interaction that is affirming fun and successful that builds on the child s strengths and preferences and enhances their interest in engaging and ability to sustain that engagement increases the chance that all other encounters whether with their friends their families or with therapists and teachers will be successful **The Neurodiversity Affirmative Child Autism Assessment Handbook** Dr Maeve Kavanagh,Dr Anna Day,David Hartman,Tara

O'Donnell-Killen, Jessica K Doyle, 2025-04-21 Based on new and emerging clinical research this book is here to guide you through creating a neuro affirmative child autism assessment process for your practice Moving away from a deficit based medical approach to child autism assessment identification this comprehensive and detailed handbook covers the most up to date research and best practice Created to encourage and empower clinicians to make a paradigm shift to a more neurodiversity affirmative approach this book acknowledges the challenges of working within a system that is inherently deficit based and provides practice points and clinical reflections on how to embed neurodiversity affirmative principles in their individual practice This handbook is essential reading for those involved in assessing as well as for those working with Autistic children more generally Including helpful tips and methods that can be used during the identification process this handbook also includes lived experiences of Autistic children and case studies and perspectives from an OT and SLT so clinicians can gain a much deeper understanding of the young people they are working with It also includes guidance for post identification support and provides a clear roadmap for what happens next **Autism Spectrum Disorder (revised)**

Chandra Lehenhagen, 2024-07-25 This handbook provides educators and school practitioners with a practical resource to successfully support speaking and non speaking autistic students in K 12 school settings Each chapter discusses an approach founded on current research on the self reported school priorities of autistic students which historically have been overlooked in research and education Incorporating the views and experiences of autistic students promotes the use of human rights centered pedagogies and ensures that evidence based practices are both ethical and effective in supporting the learning and well being success of autistic students The informative content challenges assumptions of normative ability and highlights opportunities where evidence based practices to support autistic students can be used alongside inclusive best practices to improve the educational experiences of all students This handbook s flexible and easy to use design can be used in its entirety or as a reference tool for school practitioners teachers and parents *Chasing the Intact Mind* Amy S. F. Lutz, 2023-09-20 In Chasing the Intact Mind Amy Lutz traces the history of the intact mind concept explaining how it influences current disability policy and practice in the United States Lutz describes how we got to this moment where the severely autistic are elided out of public discourse and the intensive

disability specific supports they need defunded or closed altogether Lutz argues that focusing on the intact mind and marginalizing those with severe disability reproduces historic patterns of discrimination that yoked human worth to intelligence and that it is only by making space for the impaired mind that we will be able to resolve these ongoing clashes as well as even larger questions of personhood dependency and care

**Unmothering Autism** Patty Douglas, 2025-01-15 As global rates of autism diagnosis rise dominant cultural representations continue to define autism as a tragic neurological disorder And mothers as primary caregivers and advocates are centrally implicated in the impulse to find both cause and cure How should we care about autism and autistic people Unmothering Autism emerged from Patty Douglas's desire to understand a contradiction she and her two sons one autistic experienced beauty living together while their public encounters with doctors school professionals and agencies were fraught and sometimes violent In this book Douglas offers a critical history of popular and biomedical assumptions about autism expressed through shifting social constructs that blame or valorize maternal care Throughout she also intersperses her own insights and shares conversations she has had with other autism mothers Unmothering Autism theorizes an ethics of disruption reorienting us to autism and autistic people as valuable and fundamentally human It centres the previously marginalized perspectives of mothers and autistic individuals to affirm their knowledge of living well together in and through difference

**Neuro Adventure: Autism, Art, and the Brain** Elisabete Castelon Konkiewitz, Edward B. Ziff, 2019-04-22 This book gives a basic and broad but innovative view of autism It seeks to rupture stereotypes and stigmas and starts with the story and paintings of the artist Camila Falchi who has an Autism Spectrum Disorder ASD Camila's art is evidence of the complexity of her internal world and its variety of themes intensity of feelings daydreaming fantasy and dreams This complexity compels us to question and rethink our perceptions of the autism spectrum the mind and creativity As a neurologist and a neuroscientist our goal with this book is to disseminate knowledge about autism its characteristics and potentials by means of the example of this artist

It clearly sets out the stages of Gestalt Language Processing and the steps in therapy to effectively help neurodivergent children and young people to move on with their language development supporting them to become independent and creative language users. A wealth of real life examples and in depth case studies brings theory to life and allows practitioners to apply the principles to the children they know. Chapters include A detailed description of each stage of Natural Language Acquisition and a summary of the research background. Clear and comprehensive guides to scoring language samples and tracking progress. AAC Augmentative and Alternative Communication options and supports for developing literacy. Consideration of regulation and movement supports. Handouts for use in practice with extra content available online. Gestalt Language Processing is an invaluable resource for any Speech and Language Therapist, parent or teacher who is looking to further their knowledge and transform the language support they offer to autistic and neurodivergent children.

**Communication Alternatives in Autism** Edlyn Vallejo Peña, 2019-09-20 Ten autistic self advocates share their experiences with alternative forms of communication such as rapid prompting method RPM and facilitated communication FC both highly controversial. Their narratives document the complexities that autistic individuals navigate in both educational and community settings when choosing to use approaches that utilize letter boards and keyboards. While the controversies remain RPM requires further scientific study and FC is subject to criticism about confirmation bias. These individuals share powerful stories in the context of aiming for disability rights. The book concludes with a chapter about best practices for educators particularly for schools and colleges that have students who use these communication methods.

*Play and Friendship in Inclusive Autism Education* Carmel Conn, 2016-02-12 Taking an innovative approach to autism and play this practical text focuses on the particular form play and friendship takes for children with autism and their peers. Autistic children have clear preferences for play with sensory perceptual experience remaining a strong feature as they develop. Play and Friendship in Inclusive Autism Education offers a framework for supporting children's development through play with step by step guidance on how to facilitate the playful engagement of children with autism. Up to date research findings and relevant theoretical ideas are presented in an accessible and practical way highlighting what theory means to ordinary practice in schools whilst focusing on practical knowledge in autism education. Split into five chapters this book covers some of the main issues surrounding inclusive education and play discourses and definitions of play the difference between play and playfulness autism play and the inclusion agenda in education the nature of sensory perceptual experience in children's play cultures effective ways of supporting children's friendships. With practical guidance on how to support children with autism through play this book will be essential reading for teachers learning support assistants SENCOs and play workers as well as professionals working in an advisory capacity. Students studying courses that cover autism will also find Play and Friendship in Inclusive Autism Education a valuable

resource      **Autism, Pedagogy and Education** Carmel Conn,2019-11-01 This book discusses critical issues concerning autism and education and what constitutes effective pedagogy for this group of learners Autism is a high profile area within the discipline of special education and the issue of how to teach autistic learners remains a contested one recent theorising has questioned a techno rationalist approach that places the burden of change on the autistic pupil The author explores the values that underpin educational approaches within existing pedagogical practice while these approaches have their individual merits and shortcomings this book introduces and expands upon a strengths based approach This book will appeal to students and scholars of autism and education with particular regard to teaching autistic learners      **Psychological Healing Through Creative Self-Understanding and Self-Transformation** Dr. Max Hammer,Dr. Barry J. Hammer,Dr. Alan C. Butler,2013-12 This book focuses on the development of psychological self understanding healing psychologically painful inner conflicts and the basis of psychological and spiritual fulfillment Readers will discover a new understanding of effective psychotherapy groundbreaking diagnostic psychological testing research and the distinction between the ego self concept the experiential self and the transpersonal self the real self the relational self or the holistic self It also clarifies aspects of optimal psychological health such as authenticity sincerity integrity creativity intuition empathy courage strength of character inspiration unselfish love or warmhearted caring emotional security inner wholeness vitality and fulfillment Principles of psychological healing and self transformation can enhance the development of interpersonal relationships as well as facilitate effective and fulfilling ways of living in society The authors deeply explored their own psychological pain and experiential truth to write this book so readers can achieve greater self understanding fulfillment and liberation from psychological pain      **Kids Across the Spectrums** Meryl Alper,2023-08-15 An ethnographic study of diverse children on the autism spectrum and the role of media and technology in their everyday lives In spite of widespread assumptions that young people on the autism spectrum have a natural attraction to technology a premise that leads to significant speculation about how media helps or harms them relatively little research actually exists about their everyday tech use In Kids Across the Spectrums Meryl Alper fills this gap with the first book length ethnography of the digital lives of autistic young people Based on research with more than sixty neurodivergent children from an array of racial ethnic and socioeconomic backgrounds Kids Across the Spectrums delves into three overlapping areas of their media usage cultural belonging social relationships and physical embodiment Alper s work demonstrates that what autistic youth do with technology is not radically different from their non autistic peers However significant social and health inequalities including limited recreational programs unsafe neighborhoods and challenges obtaining appropriate therapeutic services spill over into their media habits With an emphasis on what autistic children bring to media as opposed to what they supposedly lack socially Alper argues that their relationships do not exist outside of how communication technologies affect sociality nor beyond the boundaries of stigmatization and society writ large Finally she offers practical suggestions for the education healthcare and technology

sectors to promote equity inclusion access and justice for autistic kids at home at school and in their communities
