Innovation - An improvement of an existing technological product, system, or method of doing something.

Invention - A new product, system, or process that has never existed before, created by study and experimentation.

Design Brief - A written plan that identifies a problem to be solved, its criteria, and its constraints. The design brief is used to encourage thinking of all aspects of a problem before attempting a solution.

Design Process - A systematic problem-solving strategy, with criteria and constraints, used to develop many possible solutions to solve a problem or satisfy human needs and wants and to winnow (narrow) down the possible solutions to one final choice.

Construction Line - Thin lines that serve as guides while sketching or drawing.

Hidden Line - A line type that represents an edge that is not directly visible, because it is behind or beneath another surface.

Isometric Sketch - A form of pictorial sketch in which all three drawing axes form equal angles of 120 degrees with the plane of projection.

Multiview Drawings - Views of an object projected onto two or more orthographic planes.

Object Line - A heavy solid line used on a drawing to represent the outline of an object.

Oblique Sketch - A type of sketch involving a combination of a flat, orthographic front with depth lines receding at a selected angle, usually 45 degrees.

Orthographic Projection - A method of representing three-dimensional objects on a plane having only length and breadth. Also referred to as Right Angle Projection.

Perspective Sketch - A form of pictorial sketch in which vanishing points are used to provide the depth and distortion that is seen with the human eye. Perspective drawings can be drawn using one, two, and three vanishing points.

Shading - The representation of light and shade on a drawing or map.

Technical Working Drawing - A drawing that is used to show the material, size, and shape of a product for manufacturing purposes.

Tone - The general effect of color or of light and shade in a picture.
