drawn much less attention The present volume aims to fill this gap Arranged based on different ways that content and language are integrated in CLIL the chapters in this book together build a solid theoretical basis for assessment promoting learning in CLIL classrooms The authors discuss how assessment eliciting this integration yields insights into learners abilities but more importantly how these insights are used to promote learning The contributors to the volume together build the understanding of classroom based assessment as cyclic of teaching learning and assessment as inter related and of content and language in CLIL classrooms as a dialectical unity This volume will spark interest in and discussion of classroom based assessment in CLIL among CLIL educators and researchers enable reflection of classroom assessment practices and foster collaboration between CLIL teachers and researchers The assessment approaches and activities discussed in the volume in turn will help educators understand the scope of applications of assessment and inspire them to adapt these to their own classrooms
